**Teaching about American
Federal Democracy** - Temple

University. Center for the
Study of Federalism 1986
Ten essays discuss federal
democracy, the form of
government of the United
States. The first essay
discusses the origins of
American federalism. The
second examines why we have
a federal system, the functions
federalism serves, and the
consequences of federalism for
the American political system.
Federalism in the Constitution
and constitutional law are
treated in the third essay. The
importance of cultural
pluralism in American life and
the role of American federalism
in supporting pluralism are the
foci of the fourth essay. The
roles that the local community,
the states, and political parties
play in the federal system are
examined in essays 5, 6, and 7,
respectively. State, local, and
professional roles in citizenship
education are discussed in the
eighth essay. The ninth essay
explores how high school U.S.
history and government
textbooks approach federalism.

The concluding essay describes resources on federalism that can be used in curriculum development at the secondary and college levels. Many of the essays are followed by topics for further study and suggested readings for teachers. (RM)

Jesus and the Samurai -

Michael Zomber 2009-11-05
By 250 AD, Christianity had spread throughout India and China. Known as the Shining Religion or the Luminous Teaching, it drew adherents from Buddhism and Hinduism who were seeking a faith that taught the possibility of achieving a society founded on love and compassion for their fellow man. The new doctrine reached the island nation of Japan where it was so well received that Christianity threatened to supplant Buddhism as the dominant religion. By the close of the 16th century Japanese Christians numbered in the millions. Fifty years later Christianity was officially proscribed and Christians faced execution for openly practicing their faith. Jesus and the Samurai tells their fascinating story with facts drawn from ancient and

modern sources.

*The Modern Survival Manual :
Surviving the Economic
Collapse* - Fernando Ferfal
Aguirre 2009-09

The Modern Survival Manual is based on first hand experience of the 2001 Economic Collapse in Argentina. In it you will find a variety of subjects that the author considers essential if a person wants to be prepared for tougher times: -How to prepare your family, yourself, your home and your vehicle - How to prepare your finances so that you don't suffer what millions in my country went through -How to prepare your supplies for food shortages and power failures -How to correctly fight with a chair, gun, knife, pen or choke with your bare hands if required - Most important, how to reach a good awareness level so that you can avoid having to do all that These are just a few

examples of what you will find in this book. It's about Attitude, and being a more capable person and get the politically correct wimp out of your system completely.

**Race Tech's Motorcycle
Suspension Bible** - Paul

Thede 2010-06-19

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined

to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.
