Tracy 2009

Using Lady Morgan's *The Wild Irish Girl* as his point of departure, Thomas J. Tracy argues that nineteenth-century debates over what constitutes British national identity often revolved around representations of Irishness, especially Irish womanhood. He maps the genealogy of this development in fiction, political discourse, and the popular press, from Edgeworth's *Castle Rackrent* through Trollope's Irish novels, focusing on the pivotal period from 1806 through the 1870s.

Machine Musicianship - Robert Rowe 2004-01-30

Musicians begin formal training by acquiring a body of musical concepts commonly known as musicianship. These concepts underlie the musical skills of listening, performance, and composition. Like humans, computer music programs can benefit from a systematic foundation of musical knowledge. This book explores the technology of implementing musical processes such as segmentation, pattern processing, and interactive improvisation in computer programs. It shows how the resulting applications can be used to accomplish tasks ranging from the solution of simple musical problems to the live performance of interactive compositions and the design of musically responsive installations and

Web sites. *Machine Musicianship* is both a programming tutorial and an exploration of the foundational concepts of musical analysis, performance, and composition. The theoretical foundations are derived from the fields of music theory, computer music, music cognition, and artificial intelligence. The book will be of interest to practitioners of those fields, as well as to performers and composers. The concepts are programmed using C++ and Max. The accompanying CD-ROM includes working versions of the examples, as well as source code and a hypertext document showing how the code leads to the program's musical functionality.

It's Your Option - Marvin H. Zelkin 2002-09-01

Many books which attempt to explain the intricacies of option trading leave the reader with glazed eyes and a look of bewilderment. This new book by a veteran options trader is the rare exception. It starts with the basics and goes through the most advanced strategies and trading techniques, and explains all the concepts relating to options in such clear, straightforward language that the reader will gain a thorough understanding of this complex subject. Designed by the author for use in his options trading seminars, he has liberally illustrated each point with highly effective graphs and charts which make each principle he is teaching crystal clear. If you are new to options trading, or if you have struggled to understand this subject through other material, this book is an indispensable addition to your library.

Shots in the Dark - Shoji Yamada 2020-06-24

In the years after World War II, Westerners and Japanese alike elevated Zen to the quintessence of spirituality in Japan. Pursuing the sources of Zen as a Japanese ideal, Shoji Yamada uncovers the surprising role of two cultural touchstones: Eugen Herrigel's *Zen in the Art of Archery* and the Ryoanji dry-landscape rock garden. Yamada shows how both became facile conduits for exporting and importing Japanese culture. First published in German in 1948 and translated into Japanese in 1956, Herrigel's book popularized ideas of Zen both in the West and in Japan. Yamada traces the prewar history of Japanese archery, reveals how Herrigel mistakenly came to understand it as a traditional practice, and explains why the Japanese themselves embraced his interpretation as spiritual discipline. Turning to Ryoanji, Yamada argues that this epitome of Zen in fact bears little relation to Buddhism and is best understood in relation to Chinese myth. For much of its modern history, Ryoanji was a weedy, neglected plot; only after its allegorical role in a 1949 Ozu film was it popularly linked to Zen. Westerners have had a part in redefining Ryoanji, but as in the case of archery, Yamada's interest is primarily in how the Japanese themselves have invested this cultural site with new value through a spurious association with Zen.

The Motorcycle: Desire, Art, Design - Ultan Guilfoyle 2020-12-16

Best in Show 2020-02-04

Best in Show is a collection of photographs of well-groomed and award-winning dogs by New York City-based photographer Dolly Faibyshev. The images from the Westminster Kennel Club Dog Show and beyond focus on the unique—and often humorous—relationship between each dog and their handler. Dolly Faibyshev focuses on kitsch, irony, and the larger than life human and canine characters that make up Best in Show. The result is a colorful, vibrant, campy, and satirical take on this specific slice of Americana. • The colorful, closely cropped juxtapositions of each coiffed canine contestant and their dedicated human are both humorous and charming. • Sure to delight fans of all breeds of dogs • A universal and ideal book for all canine lovers with a sense of humor Best in Show captures a specific subculture of dog devotees primarily from the infamous Westminster Kennel Club Dog Show at Madison Square Garden in New York. • A perfect book for anyone who is completely and totally obsessed with dogs and the Westminster Kennel Club Dog Show • Photographers and contemporary art lovers will also love this celebration of Dolly Faibyshev's work • Great for fans of The Dogist: Photographic Encounters with 1,000 Dogs by Elias Weiss Friedman, Dogs by Lewis Blackwell and Tim Flach, and Underwater Dogs by Seth Casteel

Adolescence in Urban India - Shagufa Kapadia 2017-10-11

Set against the backdrop of social change and globalization, this book presents the contents and contours of adolescence in contemporary urban India. Based on the trends derived from a series of mixed-method studies with adolescent girls and boys, and parents from urban upper middle class families, it explores adolescents' and parents' interpretations of the stage of adolescence, illustrates views on parenting, and discusses approaches to interpersonal disagreements to derive a framework of the parent-adolescent relationship. Drawing from the cultural-contextual perspective of human development, the book in its essence offers a culturally and contextually sensitive model of adolescence that is shaped along the central tenets of family interdependence, harmony, and sensitivity to parental concerns. Highlighted as well are aspects that have remained mostly unexplored, for example, adolescents' capacity for empathy and perspective taking, and emerging issues of autonomy in a primarily relational culture. At a broader level, the book reflects upon the interplay of cultural continuity and change, and contributes to an understanding of globalizing influences on human development. Overall, the depiction of adolescent development captured in the book has significant implications for enhancing family relationships and fostering self-growth—elements that are crucial for positive youth development. The book will be of immense use to scholars in human development, psychology, and allied fields as well as to practitioners who work with adolescents.

Consumer Tribes in Tourism - Christof Pforr 2020-11-18

This book adopts a collectivist perspective on special interest tourism consumption, bringing together research on 'special interest tourism' and 'niche tourism' as well as more recent research into the interdisciplinary applications of the sociological concept of neo-tribes. It promotes a shift in perspective away from special interest tourism understood as a sum of similarly motivated individuals, to a collective view of special interest tourists who share common characteristics (e.g., shared values, beliefs and mutual interests) and group structures. This approach provides a better understanding of groupings that are not unified by a common tourism motivation, but brought together by otherwise conditioned commonalities in actual behavior triggered by supply-side contexts (e.g., Airbnb). The book considers tourism micro-segments as consumer tribes (i.e., as symbolic communities) in which individuals are embedded and loosely bound together. As there is limited research on the collectivist perspective on special interest tourism consumption, in the first part the book's conceptual/theoretical discourse contributes to a better understanding of 'groupings' in tourism behavior but also collectives that are not unified by a common tourism motivation. Presenting international examples, the book explores in Part 2 the group culture of a range of tourist tribes by describing emerging tourism micro-segments, identifying shared identities, and analyzing their collective mechanisms.

By Different Paths to Common Outcomes Marie M. Clay 2014

"This book captures the essence of Marie's work. It is fundamentally practical and theoretically rich. Marie is revered for her contributions to the field of literacy and for her wisdom and deep commitment to children and their teachers. That wisdom and commitment is evident everywhere in this book. Savor it." -Peter Johnston, author of Choice Words Not all children walk the same path towards literacy. Discerning teachers recognize one destination, but many differing journeys. "If we notice children taking different paths," writes Marie Clay, "we can interact with their different journeys just as we would alter our talking to adapt to our listeners, and in about three years expect them to arrive at common outcomes." Teacher-centered, practical, and research-based, this collection of articles by Marie draws on her lifelong passion for children's literacy and teacher education. She demonstrates: how understanding what children know becomes the key to effective teaching how teachers need to look at early literacy learning through children's eyes, and to listen to children as they converse how writing should be the powerful partner of reading. In these pages, teachers and educators of teachers will find: research evidence to raise their awareness of how young minds learn to work with the printed word help to observe and build on what children already know before they first enter school how to focus on and interact with what each child can do (not what they can't) how to set each individual learner on their own pathway to literary success, so there need be no wasted time, no discouragement for teacher or student. Above all, diversity is to be welcomed and accommodated, and independence fostered. Marie Clay's classic text has stood the test of time. In this new edition its central message lives on as an aid and
