Roman Coins and Their Values Property Crime Michelle D. Fabiani 2022-08-11
Volume 1 - David Sear
2000-12-31

This book provides transnational insight into cultural property crimes and the cutting-edge work tackling issues ranging from currency crimes to innovative research methods. The volume brings together authors from a number of fields to address contemporary issues and advances in the fight against cultural property crime. It

The original edition of Sear's Roman Coins and Their Values was published by Seaby thirty-six years ago and has been through four revisions (1970, 1974, 1981 and 1988). However, the publication of the 'Millennium Edition' of this popular work makes a radical departure from previous editions.

Global Perspectives on Cultural Property Crime combines the perspectives of

law enforcement officials, researchers, journalists, lawyers, and scholars, with specialities in the disciplines of criminology, law, archaeology, museum studies, political science, and economics, from countries all around the globe. This allows for a more comprehensive examination of issues facing these professionals and highlights similarities between the challenges encountered in different disciplines as well as in diverse locations. It seeks to disseminate the most current work in this field from a broad array of viewpoints in order to further facilitate an exchange of ideas and lay the groundwork to inspire future collaborations. Most significantly, it provides more specific suggestions for moving forward that could help assist stakeholders to connect and work directly with each other, despite international borders and discipline-related boundaries. The book will be a valuable resource for researchers, practitioners, and policymakers working in the

area of cultural property crime.

Byzantine Coins and Their Values - David Sear 1987-12-31

The Byzantine Empire lasted for almost a thousand years after the fall of the Roman Empire in the West. The period covered by this catalogue is from the reign of Anastasius I

(491518) until the capture of Constantinople by the Turks in 1453. When this catalogue was first published in 1974 it was hailed as containing more information in a concise form than any other single volume on the Byzantine series.

Medallic Art of the American Numismatic Society, 1865-2014 - Scott Miller 2022-03

During the past 150 years, the American Numismatic Society has been a leader in the publication of art medals in the United States. Generally employing the finest medalists available, the Society has set an example few can match. In addition, with the exception of the United States Mint, no U.S. entity can boast so long and distinguished a contribution in this area. Founded in 1858, the American Numismatic and Archaeological Society, as it was known from 1864-1907, believed the issuance of medals to be a part of its mission from the earliest years of its existence. Author Scott H. Miller includes 60 medals issued by the ANS between

1865 and 2014 along with two COAC medals and the 1910 Actors' Fund Medal, all accompanied by color photographs. Many entries are supplemented by artist's sketches and archival photographs as well as the stories behind each issue. Four appendixes include recipients of some of these medals as well as the list of dies, hubs, galvanos, and casts of ANS medals in the ANS's own collection.

Over the concluding decades of
the twentieth century, the
historic preservation
community increasingly turned
its attention to modern
buildings, including bungalows
from the 1930s, gas stations
and diners from the 1940s, and
office buildings and
architectural homes from the
1950s. Conservation efforts,
however, were often hampered
by a lack of technical
information about the products
used in these structures, and to
fill this gap Twentieth-Century
Building Materials was
developed by the U.S.

Department of the Interior's
National Park Service and first
published in 1995. Now, this
invaluable guide is being
reissued—with a new preface
by the book's original editor.
With more than 250
illustrations, including a full-
color photographic essay, the
volume remains an
indispensable reference on the

history and conservation of modern building materials. Thirty-seven essays written by leading experts offer insights into the history, manufacturing processes, and uses of a wide range of materials, including glass block, aluminum, plywood, linoleum, and gypsum board. Readers will also learn about how these materials perform over time and discover valuable conservation and repair techniques.

Bibliographies and sources for further research complete the volume. The book is intended for a wide range of conservation professionals including architects, engineers, conservators, and material scientists engaged in the conservation of modern buildings, as well as scholars in related disciplines.
