Dark Horse - Gen. Larry O. Spencer, USAF (Ret.)
2021-11-15

Gen. Larry Spencer, USAF (Ret.) was born and

raised on the Horseshoe—a tough inner-city street in southeast Washington D.C. Both parents lived in the rural south under Jim Crow and “separate but equal” laws. Spencer’s father was a career Army soldier who lost his left hand during the Korean War, suffered from post-traumatic stress disorder, and worked two jobs. His mother completed tenth grade, had no driver’s license, and was left alone during the week to raise their six children. The Horseshoe was a hard neighborhood where fights were common, and the school systems were second-rate. The expectations of living in an all-Black neighborhood were to be good at sports while shunning academic prowess. Spencer met those expectations: he struggled in school, but teachers who did not want to see him repeat their class would pass him to the next grade. That environment resulted in poor self-esteem and a bleak outlook for the future. Quite by chance, Spencer enlisted in the U.S. Air Force where he continued to struggle with the racial turmoil of the 1970s. A senior non-commissioned officer saw promise in Spencer and guided him to obtain a college degree and apply for Officer Training School where he excelled. As a very young first lieutenant, he was assigned to a tough job in the Pentagon, but Spencer earned an early reputation as a fast burner. In 1990 he took command of a squadron that won accolades and awards for its performance during Operation Desert Shield/Storm. Spencer went on to serve at the White House, and then successfully commanded a Group and a Wing

before being assigned as the chief financial officer (comptroller) for Air Combat Command, the largest command in the Air Force. During that assignment, Spencer was promoted to brigadier general and was tasked to set up a new Directorate at Air Force Materiel Command. Spencer later returned to the Pentagon where he led Air Force Budget. He ultimately became the Air Force's thirty-seventh vice chief of staff, making him one of only nine African Americans promoted to four stars. Spencer concludes his historic climb with life lessons learned on his journey from the inner city to the Pentagon.

The 48 Laws Of Power - Robert Greene
2010-09-03

THE MILLION COPY INTERNATIONAL BESTSELLER Drawn from 3,000 years of the history of power, this is the definitive guide to help readers achieve for themselves what Queen Elizabeth I, Henry Kissinger, Louis XIV and Machiavelli learnt the hard way. Law 1: Never outshine the master Law 2: Never put too much trust in friends; learn how to use enemies Law 3: Conceal your intentions Law 4: Always say less than necessary. The text is bold and elegant, laid out in black and red throughout and replete with fables and unique word sculptures. The 48 laws are illustrated through the tactics, triumphs and failures of great figures from the past who have wielded - or been victimised by - power.

(From the Playboy interview with Jay-Z, April 2003)
PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In The 48 Laws of Power, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he's my friend, and he told me that one of my records, Volume Three, was wack. People set higher standards for me, and I love it.

Devised and Directed by Mike Leigh - Bryan Cardinale-Powell 2013-07-22

Renowned for making films that are at once sly domestic satires and heartbreaking 'social realist' dramas, British writer-director Mike

Leigh confronts his viewers with an unromanticized dramatization of modern-day society in the hopes of inspiring them to strive for greater self-awareness and compassion for others. This collection features new, interdisciplinary essays that cover all phases of the BAFTA-award-winner's film career, from his early made-for-television film work to his theatrical releases, including *Life is Sweet* (1990), *Naked* (1993), *Secrets & Lies* (1996), *Career Girls* (1997), *Topsy-Turvy* (1999), *All or Nothing* (2002), *Vera Drake* (2004), *Happy-Go-Lucky* (2008) and *Another Year* (2010). With contributions from international scholars from a variety of fields, the essays in this collection cover individual films and the recurring themes and motifs in several films, such as representations of class and gender, and overt social commentary and political subtexts. Also covered are Leigh's visual stylizations and storytelling techniques ranging from explorations of the costume design to set design to the music and camerawork and editing; the collaborative process of 'devising and directing' a Mike Leigh film that involves character-building, world-construction, plotting, improvisations and script-writing; the process of funding and marketing for these seemingly 'uncommercial' projects, and a survey of Leigh's critical reception and the existing writing on his work.

Going There - Katie Couric 2021-10-26

This heartbreaking, hilarious, and brutally honest memoir shares the deeply personal life story of a girl next door and her transformation into a household name. For more than forty years, Katie Couric has been an iconic presence in the media world. In her brutally honest, hilarious, heartbreaking memoir, she reveals what was going on behind the scenes of her sometimes tumultuous personal and professional life - a story she's never shared, until now. Of the medium she loves, the one that made her a household name, she says, "Television can put you in a box; the flat-screen can flatten. On TV, you are larger than life but smaller, too. It is not the whole story, and it is not the whole me. This book is." Beginning in early childhood, Couric was inspired by her journalist father to pursue the career he loved but couldn't afford to stay in. Balancing her vivacious, outgoing personality with her desire to be taken seriously, she

overcame every obstacle in her way: insecurity, an eating disorder, being typecast, sexism . . . challenges, and how she dealt with them, setting the tone for the rest of her career. Couric talks candidly about adjusting to sudden fame after her astonishing rise to co-anchor of the TODAY show, and guides us through the most momentous events and news stories of the era, to which she had a front-row seat: Rodney King, Anita Hill, Columbine, the death of Princess Diana, 9/11, the Iraq War . . . In every instance, she relentlessly pursued the facts, ruffling more than a few feathers along the way. She also recalls in vivid and sometimes lurid detail the intense pressure on female anchors to snag the latest "get"—often sensational tabloid stories like Jon Benet Ramsey, Tonya Harding, and OJ Simpson. Couric's position as one of the leading lights of her profession was shadowed by the shock and trauma of losing her husband to stage 4 colon cancer when he was just 42, leaving her a widow and single mom to two daughters, 6 and 2. The death of her sister Emily, just three years later, brought yet more trauma—and an unwavering commitment to cancer awareness and research, one of her proudest accomplishments. Couric is unsparing in the details of her historic move to the anchor chair at the CBS Evening News—a world rife with sexism and misogyny. Her "welcome" was even more hostile at 60 Minutes, an unrepentant boys club that engaged in outright hazing of even the most established women. In the wake of the MeToo movement, Couric shares her clear-eyed reckoning with gender inequality and predatory behavior in the workplace, and downfall of Matt Lauer—a colleague she had trusted and respected for more than a decade. Couric also talks about the challenge of finding love again, with all the hilarity, false-starts, and drama that search entailed, before finding her midlife Mr. Right. Something she has never discussed publicly—why her second marriage almost didn't happen. If you thought you knew Katie Couric, think again. *Going There* is the fast-paced, emotional, riveting story of a thoroughly modern woman, whose journey took her from humble origins to superstardom. In these pages, you will find a friend, a confidante, a role model, a survivor whose lessons about life will enrich your own.

The Immortal Life of Henrietta Lacks Rebecca Skloot 2010-02-02

#1 NEW YORK TIMES BESTSELLER • “The story of modern medicine and bioethics—and, indeed, race relations—is refracted beautifully, and movingly.”—Entertainment Weekly NOW A MAJOR MOTION PICTURE FROM HBO® STARRING OPRAH WINFREY AND ROSE BYRNE • ONE OF THE “MOST INFLUENTIAL” (CNN), “DEFINING” (LITHUB), AND “BEST” (THE PHILADELPHIA INQUIRER) BOOKS OF THE DECADE • ONE OF ESSENCE’S 50 MOST IMPACTFUL BLACK BOOKS OF THE PAST 50 YEARS • WINNER OF THE CHICAGO TRIBUNE HEARTLAND PRIZE FOR NONFICTION NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • Entertainment Weekly • O: The Oprah Magazine • NPR • Financial Times • New York • Independent (U.K.) • Times (U.K.) • Publishers Weekly • Library Journal • Kirkus Reviews • Booklist • Globe and Mail Her name was Henrietta Lacks, but scientists know her as HeLa. She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the

stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences. *Play Nice But Win* Michael Dell 2021-10-05 WALL STREET JOURNAL BESTSELLER From Michael Dell, renowned founder and chief executive of one of America’s largest technology companies, the inside story of the battles that defined him as a leader In 1984, soon-to-be college dropout Michael Dell hid signs of his fledgling PC business in the bathroom of his University of Texas dorm room. Almost 30 years later, at the pinnacle of his success as founder and leader of Dell Technologies, he found himself embroiled in a battle for his company’s survival. What he’d do next could ensure its legacy—or destroy it completely. *Play Nice But Win* is a riveting account of the three battles waged for Dell Technologies: one to launch it, one to keep it, and one to transform it. For the first time, Dell reveals the highs and lows of the company’s evolution amidst a rapidly changing industry—and his own, as he matured into the CEO it needed. With humor and humility, he recalls the mentors who showed him how to turn his passion into a business; the competitors who became friends, foes, or both; and the sharks that circled, looking for weakness. What emerges is the long-term vision underpinning his success: that technology is ultimately about people and their potential. More than an honest portrait of a leader at a crossroads, *Play Nice But Win* is a survival story proving that while anyone with technological insight and entrepreneurial zeal might build something great—it takes a leader to build something that lasts.

Ghana's New Christianity - Paul Gifford 2004

In sub-Saharan Africa over the last two decades there has been an explosion of Christianity. This

book sets out to identify its particular character, focusing on a particular place: Greater Accra, the capital of Ghana. Paul Gifford examines a wide range of Accra's new churches, giving priority to mega-churches. Every dimension -- discourse, theological vision, worship, rituals, music, media involvement, use of the Bible, conventions, finances, clientele -- is analysed. Gifford argues that this Christianity is not otherworldly: its emphasis is on success, achievement, wealth here and now. Yet within this general orientation there is diversity. At one end of the spectrum are churches that, building on the traditional religious imagination, see demonic forces everywhere blocking personal success. In the churches the key factor is the special 'man of God' who is understood to have the 'anointing' to conquer these forces, to 'reverse the curse' that is holding the believer back. At the other end is a strain of this new Christianity that discounts spiritual forces and sees victory resulting from the believer's own education and skills, and from transforming culture. The book also joins the debate over the role of this Christianity in modernizing economic and political structures. It sets the scene by describing Ghana's political and economic situation in the decades when these churches were proliferating, and outlines the current debate on the reasons for Africa's economic plight. It is argued that although focusing on success and wealth can provide motivation in circumstances where it is so easy to despair, the pervasive emphasis on miracles militates against any natural fostering of a new work ethic. As for their political role, some churches are easily co-opted; others challenge the government, but for 'spiritual' reasons that provide little incentive to grapple with issues of governance; by contrast, Gifford finds one important church encouraging change of the entire political culture. No other book has set forth the complex nature of Africa's new Christianity with such clarity, or offered such a searching analysis of its power to tackle Africa's predicament.

Sequenci ng - Michael Metzger 2010-04

Watson and Crick discovered the human DNA. What made the difference was deciphering it. Like the human body, every organization has a DNA. What will make the difference is not seeing it, but sequencing it. It's the key to long-term

success at innovation. Sequencing, written by business consultant Michael Metzger, explores what is required for a company to develop a culture that promotes innovation for the long haul. Harvard's Clayton Christensen reports that few companies have the capacity to innovate. The more success a company achieves, the harder it is for the company to innovate. And yet the reality is that companies innovate or die. Metzger outlines the steps necessary to sustain innovation - the culture, conscience, and C-level leadership required. It begins by having an accurate assessment of human nature and reality. Institutional leaders ignore this book at their peril.
