**Writings on Art** - Mark Rothko 2006-01-01  
The first collection of Mark Rothko's writings, which range the entire span of his career While the collected writings of many major 20th-

century artists, including Barnett Newman, Robert Motherwell, and Ad Reinhardt, have been published, Mark Rothko's writings have only recently come to light, beginning with the critically acclaimed *The Artist's Reality: Philosophies of Art*. Rothko's other written works have yet to be brought together into a major

publication. Writings on Art fills this significant void; it includes some 90 documents--including short essays, letters, statements, and lectures--written by Rothko over the course of his career. The texts are fully annotated, and a chronology of the artist's life and work is also included. This provocative compilation of both published and unpublished writings from 1934--69 reveals a number of things about Rothko: the importance of writing for an artist who many believed had renounced the written word; the meaning of transmission and transition that he experienced as an art teacher at the Brooklyn Jewish Center Academy; his deep concern for meditation and spirituality; and his private relationships with contemporary artists (including Newman, Motherwell, and Clyfford Still) as well as journalists and curators. As was revealed in Rothko's *The Artist's Reality*, what emerges from this collection is a more detailed picture of a sophisticated, deeply knowledgeable, and philosophical artist who was also a passionate

and articulate writer.

**Leonardo** - Carlo Pedretti 1973

Artist and scientist, draughtsman and inventor, these were the varied occupations of Leonardo. Carlo Pedretti concentrates on the paintings and drawings and tackles the problem of their complexity by tracing chronologically a number of the themes that run through Leonardo's work.--[book jacket].

Corot - Vincent Pomarède 1996

Corot has been considered many things: a precursor of Impressionism, with his sophisticated plays of light; a Romantic for his lyrical landscapes; a Realist, since he painted directly from nature. His devotion to nature brought him close to the Realists, and his sensitive studies of light and shade, often painted in the open air, and the freedom of his brushwork has a marked influence on the Impressionists. There is more to Corot than

landscape - his poetic evocation of classical myth, the sensuous charm of his portraits of women and his dream-like vision of women. This study of Corot includes extracts from journals and newspapers.

**Renaissance Characters** - Eugenio Garin  
1997-05-09

Compared to the Middle Ages, the Renaissance is brief—little more than two centuries, extending roughly from the mid-fourteenth century to the end of the sixteenth century—and largely confined to a few Italian city states. Nevertheless, the epoch marked a great cultural shift in sensibilities, the dawn of a new age in which classical Greek and Roman values were "reborn" and human values in all fields, from the arts to civic life, were reaffirmed. With this

volume, Eugenio Garin, a leading Renaissance scholar, has gathered the work of an international team of scholars into an accessible account of the people who animated this decisive moment in the genesis of the modern mind. We are offered a broad spectrum of figures, major and minor, as they lived their lives: the prince and the military commander, the cardinal and the courtier, the artist and the philosopher, the merchant and the banker, the voyager, and women of all classes. With its concentration on the concrete, the specific, even the anecdotal, the volume offers a wealth of new perspectives and ideas for study.
