The most effective leader behaves more like a coach. Authors Bill Eckstrom and Sarah Wirth have spent a decade researching the activities, behaviors, and performance of leaders. After studying more than 100,000 coaching interactions in the workplace, primarily of sales teams, they have been able to determine how coaching affects team outcomes and growth. The authors share three critical performance drivers, along with the four high-growth activities that coaches must execute to build a team that is motivated to achieve at the highest levels. Through both hard data and rich stories, Eckstrom and Wirth demonstrate how leaders

can measure and improve their coaching to lead their teams to better results. The Coaching Effect will help leaders at all levels understand the necessity of challenging people out of their comfort zone to create a high-growth organization.

Leaders will learn how they can develop trust relationships, drive accountability and leverage growth experiences to propel their team members to the highest levels of success.

Coaching Self-Organising

Teams - Ro Gorell 2021-12-22

There is a tendency to assume that teams will naturally know how to self-organise and optimise their collective talents. This thoughtful and engaging book explores the practicalities of coaching teams and some of the challenges that naturally occur because of who we are as human beings.

Part of The Professional Coaching Series, this book challenges the assumption that self-organising teams will work in all settings, answering some of the recurring questions and challenges observed in many organisations. How do we

connect with each other, so we create trust? How do we work through conflict and see it as part of a natural ebb and flow in relationships? How do we create meaningful work in the context of an ever-changing environment? The opening chapter lays out some basic team coaching principles to help set the stage for coaching people in teams and there are coaching questions in each chapter to engage the reader, as well as tools they can use immediately. Coaching teams is more than just applying coaching skills. It requires a deep understanding of how people behave and an adaptive approach to coaching. This book provides both research references and practical tools to help team coaches start their team coaching journey.

The Coaching Habit - Michael Bungay Stanier 2016-02-29
Coaching is an essential skill for leaders. But for most busy, overworked managers, coaching employees is done badly, or not at all. They're just too busy, and it's too hard to change. But what if managers could coach their people in 10 minutes or less? In Michael Bungay Stanier's *The Coaching Habit*, coaching becomes a regular, informal part of your day so managers and their teams can work less hard and have more impact. Coaching is an art and it's far easier said than done. It takes courage to ask a question rather than offer up advice, provide an answer, or unleash a solution. Giving another person the opportunity to find their own way, make their own mistakes, and create their own wisdom is both brave and vulnerable. It can also mean unlearning our "fix it"

habits. In this practical and inspiring book, Michael shares seven transformative questions that can make a difference in how we lead and support. And, he guides us through the tricky part - how to take this new information and turn it into habits and a daily practice. - Brené Brown, author of *Rising Strong* and *Daring Greatly*
Drawing on years of experience training more than 10,000 busy managers from around the globe in practical, everyday coaching skills, Bungay Stanier reveals how to unlock your peoples' potential. He unpacks seven essential coaching questions to demonstrate how--by saying less and asking more--you can develop coaching methods that produce great results. - Get straight to the point in any conversation with *The Kickstart Question* - Stay on track during any interaction with *The AWE Question* - Save hours of time for yourself with *The Lazy Question*, and hours of time for others with *The Strategic Question* - Get to the heart of any interpersonal or external

challenge with The Focus Question and The Foundation Question - Finally, ensure others find your coaching as beneficial as you do with The Learning Question A fresh, innovative take on the traditional how-to manual, the book combines insider information with research based in neuroscience and behavioural economics, together with interactive training tools to turn practical advice into practiced habits. Dynamic question-and-answer sections help identify old habits and kick-start new behaviour, making sure you get the most out of all seven chapters. Witty and conversational, The Coaching Habit takes your work--and your workplace--from good to great.
