Zoo Culture - Robert Mullan 1999

Why do people go to zoos? Is the role of zoos to entertain or to educate? In this provocative book, the authors demonstrate that zoos tell us as much about humans as they do about animals and suggest that while animals may not need zoos, urban societies seem to. A new introduction takes note of dramatic changes in the perceived role of zoos that have occurred since the book's original publication. our own ideas about the exotic, the foreign." -- Tess Lemmon, BBC Wildlife Magazine "A thoughtful and entertaining guided tour." -- David White, New Society "[An] unusual and intriguing combination of historical survey, psychological enquiry, and compendium of fascinating facts." -- Evening Standard

Art, Culture, and National Identity in Fin-

de-siècle Europe - Michelle Facos 2003

At the turn of the twentieth century, nations, both sovereign and aspiring, feverishly worked to define, foster, and promote national identity. While historians have recognized the significance of this moment for modern identity formations, it has largely been neglected by art historians. *Art, Culture and National Identity in Fin-de-Siècle Europe* examines the phenomenon of politicized art and its connections to modernism. In eleven essays that focus on as many nations, an international team of authors explore the complex issues facing artists who helped to form a distinct national identity to audiences at home and abroad. The detailed case studies unravel the matrix of circumstances that fostered nationalistic developments, thereby offering a more nuanced understanding of European art and culture around 1900.

Venetians - Dale Chihuly 2001

This book presents the most flamboyant and whimsical of all Chihuly's series. The voluptuous glass pieces, shown in full-colour, were inspired

by Art Deco Venetian glass during Chihuly's Fullbright scholarship in Venice. With collaboration between Chihuly and glass master Lino Tagliapietra, the series evolved over a period of only seven blowing sessions. Though at their core, the Venetians are vessels of some sort, they explode outward when wrapped with spiralling coils, leaves, feathers, and claws in startling colour combinations. Chihuly chronicles the evolution of the series in his reflective essay included in this volume. His bold and colourful drawings illustrate how the artist guided his team to make these pieces. This oversized book offers a breathtaking view of Chihuly's Venetians, which, more than any other of his series, embody personality and individual character. This book begins with an essay by Ron Glown.

Hurting Distance - Sophie Hannah 2008-10-01
A psychological thriller from the New York Times–bestselling author: “No one writes twisted, suspenseful novels quite like Sophie Hannah” (Liane Moriarty). Naomi Jenkins, a successful professional woman prone to panic attacks, has a terrible secret she’s been keeping for three years. Also secret is Naomi’s current relationship with Robert Haworth, who is married, albeit unhappily. When Robert doesn’t show up for one of their trysts, Naomi fears for him—but the police don’t take it seriously, since Robert’s wife claims he isn’t missing. Naomi is desperate, and comes up with a plan: If she convinces the police that Robert is a danger to others, they will have to track him down. Using details from her own troubled past, she spins a story for them—but twists and turns lie ahead that she never expected. “Naomi’s concern for her married lover’s well-being grows when his wife insists he is fine, just away. Naomi uses the story of a rape from her past to get the police to sit up and take notice. What makes this novel work so well is that more than one character has a bit of a screw loose—even the detectives on the case are grappling with some crippling personal issues—and it takes the full ride of the novel to find out who is playing whom.” —Time Out

With Speed and Violence - Fred Pearce 2007-03-15

Nature is fragile, environmentalists often tell us.

But the lesson of this book is that it is not so. The truth is far more worrying. Nature is strong and packs a serious counterpunch . . . Global warming will very probably unleash unstoppable planetary forces. And they will not be gradual. The history of our planet's climate shows that it does not do gradual change. Under pressure, whether from sunspots or orbital wobbles or the depredations of humans, it lurches-virtually overnight. —from the Introduction Fred Pearce has been writing about climate change for eighteen years, and the more he learns, the worse things look. Where once scientists were concerned about gradual climate change, now more and more of them fear we will soon be dealing with abrupt change resulting from triggering hidden tipping points. Even President Bush's top climate modeler, Jim Hansen, warned in 2005 that "we are on the precipice of climate system tipping points beyond which there is no redemption." As Pearce began working on this book, normally cautious scientists beat a path to his door to tell him about their fears and their latest findings. *With Speed and Violence* tells the stories of these scientists and their work-from the implications of melting permafrost in Siberia and the huge river systems of meltwater beneath the icecaps of Greenland and Antarctica to the effects of the "ocean conveyor" and a rare molecule that runs virtually the entire cleanup system for the planet. Above all, the scientists told him what they're now learning about the speed and violence of past natural climate change-and what it portends for our future. *With Speed and Violence* is the most up-to-date and readable book yet about the growing evidence for global warming and the large climatic effects it may unleash.

Rape - Mithu Sanyal 2019-05-14

A bold, honest and unflinching look at the way we talk and think about rape Thanks to Title IX cases, #MeToo, and #Times Up, the issue of rape seems to be constantly in the news. But our thinking on the subject has a long history, one that cultural critic Mithu Sanyal elegantly reconstructs. She narrates a history spanning from Lucretia—whose legendary rape and suicide was said to be the downfall of the last Roman king—to second-wave feminism, Tarzan, and Roman Polanski. Sanyal demonstrates that the way we understand rape is remarkably (and

alarmingly) consistent across the ages, even though the world has changed beyond recognition. It is high time for a new and informed debate about sexual violence, sexual boundaries, and consent. Mithu Sanyal shows that our comprehension of rape is closely connected to our understanding of sex, sexuality, and gender. Why is it that we expect victims to be irreparably damaged? When we think of rapists, why do we think of strangers rather than uncles, husbands, priests, or boyfriends? And in the era of #MeToo, what should "justice" look like? *Rape: From Lucretia to #MeToo* examines the role of race and the recurrent image of the black rapist, the omission of male victims, and what we mean when we talk about "rape culture." Sanyal takes on every received opinion we have about rape, arguing with liberals, conservatives, and feminists alike.

Harry Potter and the Cursed Child - J. K. Rowling 2017-07-25

The official playscript of the original West End production of Harry Potter and the Cursed Child. It was always difficult being Harry Potter and it isn't much easier now that he is an overworked employee of the Ministry of Magic, a husband, and father of three school-age children. While Harry grapples with a past that refuses to stay where it belongs, his youngest son Albus must struggle with the weight of a family legacy he never wanted. As past and present fuse ominously, both father and son learn the uncomfortable truth: sometimes, darkness comes from unexpected places. The playscript for Harry Potter and the Cursed Child was originally released as a 'special rehearsal edition' alongside the opening of Jack Thorne's play in London's West End in summer 2016. Based on an original story by J.K. Rowling, John Tiffany and Jack Thorne, the play opened to rapturous reviews from theatregoers and critics alike, while the official playscript became an

immediate global bestseller. This revised paperback edition updates the 'special rehearsal edition' with the conclusive and final dialogue from the play, which has subtly changed since its rehearsals, as well as a conversation piece between director John Tiffany and writer Jack Thorne, who share stories and insights about reading playscripts. This edition also includes useful background information including the Potter family tree and a timeline of events from the wizarding world prior to the beginning of Harry Potter and the Cursed Child.

Positive Sociology of Leisure - Shintaro Kono 2020-06-24

This edited collection explores Positive Sociology of Leisure (PSL) as a subfield relating to leisure studies, sociology of leisure, and sociology of happiness. Defined as an area of research that examines social aspects of leisure life with a focus on the optimal functioning of relationship, group, community, organization, and other social units, PSL differs from more critical forms of sociology in that its starting point is social positives. The contributions draw on a range of diverse disciplinary backgrounds to consider various meanings of leisure across themes such as: ageing; sex, sexuality and family; community, youth, and education; and arts and creativity. Positive Sociology of Leisure will be a key reference within the field of sociology of leisure, as well as an important introductory book for those interested in leisure studies.
