Triumph - Mick Walker 2004

The name Triumph has been among the famous names in motorcycling for over a century. This is the story of Triumph's racing history and its pedigree from the Isle of Man TT in 1907.

Velocette - Mick Walker 2009-05-01

In 1961 a production 500cc Velocette Venom Clubman Veeline achieved a world record, twenty-four hours at a speed of 100.05mph. It was the first motorbike of any size to perform the feat, and to this date no other motorbike of comparable size has equaled or bettered its record. It was the culmination of almost fifty-five years of technological excellence from the Birmingham factory, a time that had seen the company win both the Junior and Senior TT numerous times, as well as many other races throughout Europe and the UK. Motorcycle historian Mick Walker tells the story of the various Velocette racing bikes and their riders from 1905 to the winding up of the company in 1971. Velocettes have always had a loyal following and the KTT and Thruxton especially are among the most desirable of classic bikes, especially with a racing pedigree. Riders like Stanley Wood, Neil Kelly, E.A. Mellors and Bertie Goodman all feature in the book too. Famous models such as the KTT, MAC, Venom and Thruxton are looked at in depth, while the story of Velocette's racing heritage is told in great detail in Velocette: The Racing Story.

Book Parts - Dennis Duncan 2019-06-27

What would an anatomy of the book look like? There is the main text, of course, the file that the author proudly submits to their publisher. But around this, hemming it in on the page or enclosing it at the front and back of the book, there are dozens of other texts—page numbers and running heads, copyright statements and errata lists—each possessed of particular conventions, each with their own lively histories. To consider these paratexts—recalling them from the margins, letting them take centre stage—is to be reminded that no book is the sole work of the author whose name appears on the cover; rather, every book is the sum of a series of collaborations. It is to be reminded, also, that not everything is intended for us, the readers. There are sections that are solely directed at others—binders, librarians, lawyers—parts of the book that, if they are working well, are working discreetly, like a theatrical prompt, whispering out of the audience's ear-shot *Book Parts* is a bold and imaginative intervention in the fast growing field of book history: it pulls the book apart. Over twenty-two chapters, *Book Parts* tells the story of the components of the book: from title pages to endleaves; from dust jackets to indexes—and just about everything in between. *Book Parts* covers a broad historical range that runs from the pre-print era to the digital, bringing together the expertise of some of the most exciting scholars working on book history today in order to shine a new light on these elements hiding in plain sight in the books we all read.

Classic Motorcycle Electrics Manual - James Smith 2015-08-31

Even the most hands-on of classic bike enthusiasts will often shy away from working on their bike's electrical system, believing they have neither the skill nor the knowledge for such work. Dr James Smith explains in *Classic Motorcycle Electrics Manual* that this need not be the case. Starting with basic electrical theory, the book demonstrates a wealth of electrical tips and techniques, providing a progressive and detailed guide to tasks ranging from simple repairs and upgrades, through to completely rewiring a classic motorcycle. Illustrated profusely with full-colour photographs and easy-to-follow wiring diagrams, this book will be an invaluable resource for all classic bike owners and restorers. The book covers: basic electrical theory; correct usage of a multimeter; comprehensive fault-finding techniques; making good electrical connections; fuses and circuit protection; dynamo and alternator charging systems; correct battery selection and maintenance; improving lighting and installing LEDs; selecting the right spark plug, and much more. Fully illustrated with 420 colour photographs and 167 CAD easy-to-follow wiring diagrams, this is an essential reference work for all classic bike owners.

Triumph Experimental - Mick Duckworth 2015-02

The Art of the Racing Motorcycle - Phillip Tooth 2011-03-22

A lavishly illustrated and definitive look at the design evolution of the racing motorcycle. The dynamic between competition and design has always fueled the evolution of racing motorcycles and inspired astonishing feats of design and engineering. This book traces the development of the sport bike, from the earliest French motorcycles to the dominance of British machinery in the 1930s, the exotic Italian motorcycles of the 1950s and 1960s, the influence of American racing in the 1970s and 1980s, and today's Japanese superbikes. More than fifty classic motorcycles—from Harley-Davidsons to Peugeots, Velocettes, Moto Guzzis, BMWs, Kawasakis, and Ducatis—are presented chronologically illustrated with stunning studio photographs that present the machines as works of art and wonders of design in themselves, accompanied by rare and beautiful archival images that place the subjects in the contexts of classic races, rallies, and motorcycle shows, and accompanied by essays revealing the legends behind the machines. Some of the championship motorcycles featured include the 1902 Manon, the 1922 Harley Davidson 8-valve, the 1935 Terrot 500, the 1948 AJS Porcupine, the 1954 Moto Guzzi V8, the 1965 Honda GP 250, The 1976 Suzuki RK67, the 1986 Cagiva GP, and the 1990 Ducati Supermono.

Ace Times - Mick Duckworth 2011-03-01

This book by Mick Duckworth, centres on the definitive history of London's Ace Cafe, the roadside pull-in that became the most famous haunt of motorcycle riding Ton-up kids in the Fifties and Rockers in the Sixties. The book also tells the story of other lively bikers haunts of the past, like the 59 Club, the Busy Bee and other cafes around the country. A substantial high-quality volume packed with personal recollections and evocative photos, *Ace Times* also looks at the fastest motorcycles, the loudest music, the iconic movies and the distinctive clothing of the cafe-racing era. Burn-ups, press hysteria, rock'n'roll riots, police-baiting, Mods and Rockers, pirate radio and loads more besides are all portrayed in a true-to-life, unembroidered way.

Mick Walker - Mick Walker 2012

Mick Walker has written about most of the world's classic marques and many of the sport's greatest riders, but the onset of a life-threatening illness persuaded him to pen this book through his own huge variety of experiences as a rider, dealer, importer, tuner, team boss, and author. Despite being an intensely personal story, *The Ride of My Life* is a wide-ranging look at motorcycling that will resonate with every enthusiast. For those who share Mick's passion for the Italian marques of the last half century, the book is required reading, but there is much, too, about machines from Britain, Japan, Germany and elsewhere. Mick has also packed the pages with characters he has known personally, including some of the all-time greats; Barry Sheene, Mike Hailwood, Carl Fogarty, Fabio Taglioni, Alejandro de Tomaso and Derek Minter - whose relationship with Mick is recalled.

Classic British Motorcycles Andy Tallone 2022-05-19

Illustrated with over 150 photographs, this book explores the rise and fall of the British motorcycle industry, detailing its history over the years as well as each brand, giving the complete story of these amazing machines.

AJS and Matchless Post-War Singles and Twins - Matthew Vale 2016-08-31

Associated Motor Cycles (AMC) produced some of the most iconic British bikes of the 1940s and 1950s. Badged as either AJS or Matchless, the range covered everything from plodding ride-to-work four-stroke singles, weekend racers, two-stroke motocrossers and full-blown Grand Prix contenders. Illustrated with over 200 photographs, this comprehensive account looks at the history and development of the single and twin-cylinder ranges; the racing bikes; technical details of all major models, and owning and riding AJS and Matchless bikes today. An invaluable resource for the AMC enthusiast and motorcycle historians, superbly illustrated with over 200 colour and black & white photographs.

My Life in Bikes Dave Richardson 2020-05-30

Dave Richardson bought his first motorcycle at 14. He wasn't much of a racer but wanted motorcycles to be his life. After a few odd jobs, he became a partner in newly-forming Moto International, and in no time, was thrust into running it. "It's a motorcycle shop. How hard can it be?" How hard indeed. Dave thought the hard part would be attracting customers. He never dreamed of the unexpected challenges. In these pages, the author of Guzziology tells the surprising story of dealing with banks, motorcycle manufacturers and distributors, defense contractors, finance companies, the public, and the EPA. He tells of fixing problems ignored by manufacturers, advocating for improvements in bikes, and trying to get distributors to fix customer's bikes. His career in motorcycle shops spanned 34 years, representing at various times Aprilia, Cagiva, Ducati, Husqvarna, Hyosung, KTM, Laverda, MuZ, and Ural. But always, Moto Guzzi. Recommendation: During the 1990's, I was in Mandello del Lario, Italy as part of the Moto Guzzi design team and Dave was in Seattle Washington trying to keep his Moto Guzzi shop solvent. Despite the distance, our paths crossed often. Dave was frequently invited to the Guzzi factory and became an advisor to the management. Dave is a great storyteller and this one is fascinating. It's about five decades of a life dedicated to motorcycles, starting as a kid drooling over the bikes in a motorcycle shop and ending as a savvy businessman using all his skills to keep his motorcycle shop alive. It's about a love for the sport bordering on obsession, about adversity and perseverance. If you have ever thought that the owner of your local bike shop selling those gorgeous, expensive Italian motorcycle might be stuffing money under his mattress then this tale could change your thinking. If you have ever wondered what it might be like to be a motorcycle shop owner then this book is for you too. Dr. John Wittner US middleweight/open Endurance and Pro Twins Champion, Motorcycle engineer, and former Moto Guzzi technical consultant

Motorcycle Engineering - P. E. Irving 2017-01-07

328 pages, 186 black & white illustrations, size 5.5 x 8.5 inches. This is a faithful reproduction of the 1962 Floyd Clymer U.S.A. Edition of the same title. While the primary focus of this publication utilizes 1960's and prior motorcycles as examples, the reader is reminded that engineering theory and the laws of physics do not change and as such, the information it contains is still relevant today. Consequently, this publication is indispensable to those either contemplating modification to a current model or the construction of a 'special' for any form of motorcycle competition. Predominantly a technical work, it is written in terms easily understood by the layman. While it includes geometry and math formulae the reader will be aptly rewarded if they take a moment to comprehend the significance of the examples. Consequently, 'Motorcycle Engineering' is considered by many knowledgeable motorcycle enthusiasts to be the best book ever written on how to construct, improve, modify and fine tune a motorcycle from the 'ground up'. It is our pleasure to offer this reprint to all motorcycle enthusiasts worldwide.
