Dreaming in Cuban - Cristina García 2011-06-08

"Impressive . . . [Cristina García's] story is about three generations of Cuban women and their separate responses to the revolution. Her special feat is to tell it in a style as warm and gentle as the 'sustaining aromas of vanilla and almond,' as rhythmic as the music of Beny Moré."—Time Cristina García's acclaimed book is the haunting, bittersweet story of a family experiencing a country's revolution and the revelations that follow. The lives of Celia del Pino and her husband, daughters, and grandchildren mirror the magical realism of Cuba itself, a landscape of beauty and poverty, idealism and corruption. Dreaming in Cuban is "a work that possesses both the intimacy of a Chekov story and the hallucinatory magic of a novel by Gabriel García Márquez" (The New York Times). In celebration of the twenty-fifth anniversary of the novel's original publication, this edition features a new introduction by the author. Praise for Dreaming in Cuban "Remarkable . . . an intricate weaving of dramatic events with the supernatural and the cosmic . . . evocative and lush."—San Francisco Chronicle "Captures the pain, the distance, the frustrations and the dreams of these family dramas with a vivid, poetic prose."—The Washington Post "Brilliant . . . With tremendous skill, passion and humor, García just may have written the definitive story of Cuban exiles and some of those they left behind."—The Denver Post

A wealth of examples and exercises develop students' intuition, and demonstrate the subject's practical applications to important everyday problems in math, computing, engineering, and physical science disciplines. The first book of its kind built from the ground up to serve a diverse undergraduate audience, three decades later Burden and Faires remains the definitive introduction to a vital and practical subject. The Story of My Life - Helen Keller 2021-07-20

When she was 19 months old, Helen Keller (1880-1968) suffered a severe illness that left her blind and deaf. Not long after, she also became mute. Her tenacious struggle to overcome these handicaps — with the help of her inspired and inspiring teacher, Anne Sullivan — is one of the great stories of human courage and dedication. The Story of My Life, first published in 1903, is Helen Keller's classic autobiography detailing the first 22 years of her life, including the magical moment at a water pump when, recognizing the connection between the word "water" and the cold liquid flowing over her hand, she realized that objects had names. She had many experiences which were equally thrilling and noteworthy including her joy at eventually learning to speak so that by the time she was 16, she could speak well enough to attend preparatory school followed by her education at Radcliffe, from which she graduated cum laude, and of course, her extraordinary relationship with Miss Sullivan who had shown a remarkable gift and genius for communicating with her eager and quick-to-learn pupil. Keller also writes of her friendships with Oliver Wendell Holmes, Edward Everett Hale and other notables. Keller first began to write The Story of My Life in 1902, when she was still a student at Radcliffe College. The book is dedicated to inventor Alexander Graham Bell, and the dedication reads, "To ALEXANDER GRAHAM BELL Who has taught the deaf to speak and enabled the listening ear to hear speech from the Atlantic to the Rockies, I dedicate this Story of My Life."

Although the explanations are given in English, the aim of this work is not to provide English equivalents but to explain Cebuano forms in terms of themselves. It is meant as a reference work for Cebuano speakers and as a tool for students of the Cebuano language. There is a total of some 25,000 entries and an addenda of 700 forms which were prepared after the dictionary had been composed. This dictionary is the product of eleven years work by more than a hundred persons. Pre-Incident Indicators of Terrorist Incidents - Brent L. Smith 2011-01

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

Padre Pro Fanchon Royer 2018-10-01

There are two doorways into the life of the gallant Mexican priest Padre Pro. One doorway begins at the end, during an intense period of anti-Catholicism in Mexico, in the high public drama of a daring young priest's use of disguises and audacious risks to secretly carry communion to the faithful, with his subsequent capture and courageous death. The other doorway starts in the heart of Miguel's closely knit, devout family. Born in 1891, by fifteen, Miguel is at once a beloved son and a mischievous rascal. Rather than attending school far away from the affectionate society of his sisters and brothers, he assists his father, an agent assigned to a remote mining camp in Zacatecas. His family begins to worry when at twenty the generous, yet often moody, young man still has no idea about the direction his future should take. Then he knows. Miguel's journey to the priesthood is plagued by difficulties and setbacks that temper and transform the mischievous youth into Padre Pro, a man ready to lay down his life for Christ his King. Blessed Miguel Pro dies before a firing squad in Mexico City in 1927, this last unforgettable triumph-in-death photographed for posterity by his very enemies. Padre Miguel Pro was beatified in 1988 by Pope John Paul II. Historical Insight article by Daria Sockey Revised edition Ages 9-14; about 189 pages

Historical Linguistics - Lyle Campbell 2004

This accessible, hands-on text not only introduces students to the important topics in historical linguistics but also shows them how to apply the methods described and how to think about the issues; abundant

examples and exercises allow students to focus on how to do historical linguistics. Distinctive to this text is its integration of the standard topics with others now considered important to the field, including syntactic change, grammaticalization, sociolinguistic contributions to linguistic change, distant genetic relationships, areal linguistics, and linguistic prehistory. Examples are taken from a broad range of languages; those from the more familiar English, French, German, and Spanish make the topics more accessible, while those from non-Indo-European languages show the depth and range of the concepts they illustrate. This second edition features expanded explanations and examples as well as updates in light of recent work in linguistics, including a defense of the family tree model, a response to recent claims on lexical diffusion/frequency, and a section on why languages diversify and spread.
