Peace and Rural Development in Colombia - Andrés García Trujillo 2020-09-25

In Peace and Rural Development in Colombia Andrés García Trujillo investigates whether peace agreements geared toward terminating internal armed conflicts trigger rural distributive changes. Combining academic rigor with an insider's perspective, García Trujillo shows that the peace agreement in Colombia opened an exceptional window for addressing rural inequality. Yet, despite some progress, he argues that the agreement's leverage to stir change was severely constrained by opposing actors within and outside the government. García Trujillo later applies the framework developed for the Colombian case to explain key dynamics of other post-conflict societies that have dealt with agrarian issues under a transitional context, like El Salvador or South Africa. The original theoretical framework and empirically rich analysis make Peace and Rural Development in Colombia an indispensable read for scholars and practitioners who wish to gain an understanding on the political economy of peacemaking, policy change, and rural development in Colombia and beyond.

Classical Buddhism, Neo-Buddhism and the Question of Caste - Pradeep P. Gokhale 2020-10-22

This book examines the interface between Buddhism and the caste system in India. It discusses how Buddhism in different stages, from its early period to contemporary forms—Theravāda, Mahāyāna, Tantrayāna and Navayāna—dealt with the question of caste. It also traces the intersections between the problem of caste with those of class and gender. The volume reflects on the interaction between Hinduism and Buddhism: it looks at critiques of caste in the classical Buddhist tradition while simultaneously drawing attention to the radical challenge posed by Dr B. R. Ambedkar's Navayāna Buddhism or neo-Buddhism. The essays in the book further compare approaches to varṇa and caste developed by modern thinkers such as M. K. Gandhi and S. Radhakrishnan with Ambedkar's criticisms and his departures from mainstream appraisals. With its interdisciplinary methodology, combining insights from literature, philosophy, political science and sociology, the volume explores contemporary critiques of caste from the perspective of Buddhism and its historical context. By analyzing religion through the lens of caste and gender, it also forays into the complex relationship between religion and politics, while offering a rigorous study of the textual tradition of Buddhism in India. This book will be useful to scholars and researchers of Indian philosophy, Buddhist studies, Indology, literature (especially Sanskrit and Pāli), exclusion and discrimination studies, history, political studies, women studies, sociology, and South Asian studies.
