**The Moral Project of Childhood** - Daniel Thomas Cook 2020-02-18  
Examines the Protestant origins of motherhood and the child consumer Throughout history, the responsibility for children's moral well-being has fallen into the laps of mothers. In *The Moral Project of Childhood*, the noted childhood studies scholar Daniel Thomas

Cook illustrates how mothers in the nineteenth-century United States meticulously managed their children's needs and wants, pleasures and pains, through the material world so as to produce the "child" as a moral project. Drawing on a century of religiously-oriented child care advice in women's periodicals, he examines how children

ultimately came to be understood by mothers—and later, by commercial actors—as consumers. From concerns about taste, to forms of discipline and punishment, to play and toys, Cook delves into the social politics of motherhood, historical anxieties about childhood, and early children’s consumer culture. An engaging read, *The Moral Project of Childhood* provides a rich cultural history of childhood.

**The Search for Meaning and Identity in American Modernism** - Nicole Erdmann  
2018-05-30

Seminar paper from the year 2017 in the subject American Studies - Literature, grade: 1,7, University of Duisburg-Essen,

language: English, abstract: This paper examines selected literature of the Modernist Era and the search for identity in and outside of the United States during this time. One of the characteristics of Modernism in America is the development of changing attitudes towards religion, and in particular Christianity, which was seen as the traditional religion that had, up until then, been a pillar of American beliefs. These changed attitudes ranged anywhere from questioning one's religion or faith to having flat out aversions to even the idea of (any) God. (my emphasis) In the late 1800's, under the influence of the idea of successful Manifest Destiny, and major advances in sciences and technology, people were generally high-spirited, grounded in their beliefs. They minded their own business, followed their goals and dreams. They witnessed, or even experienced abundance, and paid little attention to things that they felt did not concern them, including

foreign affairs.

In a broad sweep of America's triumphant progress. Brogan explores the period leading to Independence from both the American and the British points of view, touching on permanent features of 'the American character' - both the good and the bad. He provides a masterly synthesis of all the latest research illustrating America's rapid growth from humble beginnings to global dominance.

*Memorial Tributes* National  
Academy of Engineering

2013-01-28

This is the 16th Volume in the series Memorial Tributes compiled by the National Academy of Engineering as a personal remembrance of the lives and outstanding achievements of its members and foreign associates. These volumes are intended to stand as an enduring record of the many contributions of engineers and engineering to the benefit of humankind. In most cases, the authors of the tributes are contemporaries or colleagues who had personal knowledge of the interests and the engineering accomplishments of the deceased. Through its members and foreign associates, the Academy carries out the responsibilities for which it was established in 1964. Under the charter of the National Academy of Sciences, the National Academy of Engineering was formed as a parallel organization of outstanding engineers. Members are elected on the basis of significant contributions to engineering

theory and practice and to the literature of engineering or on the basis of demonstrated unusual accomplishments in the pioneering of new and developing fields of technology. The National Academies share a responsibility to advise the federal government on matters of science and technology. The expertise and credibility that the National Academy of Engineering brings to that task stem directly from the abilities, interests, and achievements of our members and foreign associates, our colleagues and friends, whose special gifts we remember in this book.

## **Immigration and Assimilation in a Multicultural Society -**

Tamara Schaub 2008

Seminar paper from the year 2005 in the subject American Studies - Culture and Applied Geography, grade: 2,0, University of Mannheim (Amerikanistik), course: A survey of contemporary America, 7 entries in the bibliography, language: English, abstract: The USA is sometimes called "land of the immigrants" or "the promised land". In early times immigrants from different origins and nationalities immigrated to the USA. That's why the USA developed to a multicultural society. There is the great idea of all people from different nations living together. America is designated as a "melting pot". This term tries to describe the assimilation of immigrants into American life. Its literal meaning is a chemical one: several different elements melted together to form a new product. The idea was that immigrants would fuse

together with the "old" Americans, giving up their old lifestyles and cultures to form one American nation. The motto "e pluribus unum" which still appears on American coins today, has been used since 1782, reflecting how even the early Americans saw their country. But does a multicultural society system like this really work? That's the main point I will try to work out in my research paper. To get through this topic it needs to be defined very clearly what immigration means in general and to describe briefly the immigration process from the early times till nowadays. This should be explained with some facts and figures to build the foundation of the following analysis. I will also show the reasons and problems of illegal immigration which is an important topic in the American society. That brings us to the next point the Hispanic Americans, which representativ for American immigrants. I will use The Hispanic Americans as an example to mark the

assimilation problem of immigrants in the USA. Furthermore you can use this group of immigrants to explain the multicultural situation in the USA today. I will round off my work with the part of the conclusion and I

When Scotland Was Jewish - Elizabeth Caldwell Hirschman 2015-05-07

The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to

affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.

Modern South Asia - Sugata Bose 2004-07-31

The South Asian subcontinent is home to nearly a billion people and has been the site of fierce historical contestation. It is a panoply of languages and religions with a rich and complex history and culture. Drawing on the newest and most sophisticated historical research and scholarship in the field, *Modern South Asia* is written in an accessible style for all those with an intellectual curiosity about the region. After sketching the pre-modern history of the subcontinent, the book concentrates on the last three centuries from c.1700 to the present. Jointly written by two leading Indian and Pakistani historians, it offers a rare depth of historical understanding of the politics, cultures and economies that shape the lives of more than a fifth of humanity. In this comprehensive study, the authors debate and challenge the striking developments in contemporary South Asian history and historical writing. The book provides new insights into the structure and ideology

of the British raj, the meaning of subaltern resistance, the refashioning of social relations along lines of caste, class, community and gender, the different strands of anti-colonial nationalism and the dynamics of decolonization. This book is a work of synthesis and interpretation covering the entire spectrum of modern South Asian history - social, economic and political. The authors offer an understanding of this strategically and economically vital part of the world.

*Ancient Greek Civilization*

David Sansone 2016-10-31

The third edition of *Ancient Greek Civilization* is a concise, engaging introduction to the history and culture of ancient Greece from the Minoan civilization to the age of the Roman Empire. **Argument in Composition -**

John Ramage 2009  
ARGUMENT IN COMPOSITION provides access to a wide range of resources that bear on the teaching of writing and argument. The ideas of major theorists of classical and contemporary rhetoric and argument—from Aristotle to Burke, Toulmin, and Perelman—are explained and elaborated, especially as they inform pedagogies of argumentation and composition. John Ramage, Micheal Callaway, Jennifer Clary-Lemon, and Zachary Waggoner present methods of teaching informal fallacies and analyzing propaganda, while also providing a rationale for preferring an argument approach over other available approaches to the teaching of writing. The authors also identify the role of argument in pedagogies that are not overtly called argument, including pedagogies that foreground feminism, liberation, critical cultural studies, writing across the curriculum, genre, service learning, technology, and visual rhetoric. The lists of

further reading and the annotated bibliography provide opportunities for learning more about the approaches presented in this indispensable guide. JOHN RAMAGE is Emeritus Professor at Arizona State University and the author of numerous books, including *Rhetoric: A User's Guide* (2005) and (with John Bean and June Johnson) *Writing Arguments*. MICHEAL CALLAWAY is Residential Faculty at Mesa Community College in Mesa, Arizona, where he focuses on teaching and developing curriculum for developmental writing courses. ZACHARY WAGGONER teaches courses in rhetoric, composition, videogame theory, and new teaching assistant education at Arizona State University. He is the author of *My Avatar, My Self: Identity in Video Role-Playing Games* (McFarland, 2009). JENNIFER CLARY-LEMON is Assistant Professor of Rhetoric at the University of Winnipeg. She is co-editor, with Peter Vandenberg and Sue Hum, of *Relations, Locations, Positions:*

*Composition Theory for Writing Teachers* (NCTE, 2006) and has published work in *Composition Studies*, *American Review of Canadian Studies*, and (with Maureen Daly Goggin and Duane Roen) the *Handbook of Research on Writing*. [In Between Communication Theories Through One Hundred Questions](#) - Tomas Kačerauskas 2020-03-02

This book takes the form of a

dialogue. It presents two authors, specialized in the phenomenology, posing questions to each other and offering complex answers for critical discussion. The book includes both presentation of different communication schools and philosophizing on the issues of communication. The authors debate numerous topics by providing the definition and etymology of communication, examining the limits of communication, and using a poli-logical base of communication. The issue which pervades all domains is that of mediation: how things, such as identities, styles, and bodies are mediated by culture, history, and tradition, and what the limits are of such mediation. This question leads to more complex issues of "mediated mediations" such that an explication of one medium is framed by another medium, leading to a question of meta-language as a fundamental, unmediated medium. This involves some fine points of mediation: perspectivity, discursivity,

ethics of communication, ideology, private and public. Throughout the mutual, interrogative dialogue, the authors touch upon, but avoid the daunting commitment to, a theory of metacommunication, as well as the "transcendental" problematic of accessing the numerous theoretical, thematic, and historical aspects of communication.

*English for Academic Purposes in Neoliberal Universities: Critical Grounded Theory*  
Gregory Hadley 2014-10-28  
The critical grounded theory presented in this book offers valuable insights on the social processes and strategies used

by Blended English for Academic Purposes Professionals (BLEAPs) at higher education institutions, as they struggle to negotiate the challenges arising from a new focus on recruiting international students and hunting for other resources for their universities. Drawing from in-depth interviews with numerous research participants at over eleven higher educational institutions in the UK, Japan and the United States, this work focuses on those who have been precariously placed as middle manager at many EAP and TESOL programs. Lacking in both positional power or permanence, these 'BLEAPs' are faced with many challenges as they seek to understand their changing role in higher educational institutions, and engage in strategies that can help them gain greater control over issues in their profession.

Gerontological Nursing: Competencies for Care -

Kristen L. Mauk 2010-10-25

Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition. Gerontological Nursing: Competencies for Care, Second Edition is a comprehensive and student-accessible text that offers a holistic and interdisciplinary approach to caring for the elderly. The framework for the text is built around the Core Competencies set forth by the American Association of Colleges of Nursing (AACN) and the John A. Hartford Foundation Institute for Geriatric Nursing. Building upon their knowledge in prior medical surgical courses, this text gives students the skills and theory needed to provide outstanding care for the

growing elderly population. It is the first of its kind to have more than 40 contributing authors from many different disciplines. Some of the key features include chapter outlines, learning objectives, discussion questions, personal reflection boxes, and case studies.

It presents an overview of relevant research on reading and how it can best be used to support and enhance writing instruction.

*The History of India, as Told by Its Own Historians* Sir Henry Miers Elliot 1867

**A New Civil Right** - Karen Peltz Strauss 2006

Shift of telephone companies and others from a charitable or "social services" perspective to one that such access is a civil right to which deaf and hard-of-hearing people are entitled. Strauss covers the gamut of the legal movement toward access--from the initial use of modems with teleprinters of the 1960s to the current wireless world. As a hearing person with many deaf friends and contacts, she personally experienced the frustrations of using telecommunications access services--and these experiences provided a motivating force for her own involvement in the battles to implement laws. Chapters on the development and implementation of relay services outline comprehensively one of the greatest triumphs for deaf people in the United States. The chapter titled "In Case of Emergency" is particularly moving.
