Now Open Your Eyes - Oliver Masters
2020-02-07

MIA. It was so close, I'd tasted it-the freedom. But the only thing I could taste now was the end. Over the last two years, I'd let all outside forces dictate my life, my feelings, my head. I'd allowed everyone to control what my punishment should be for all my wrong-doings. I'd been tested and learned my lesson. I'd paid my dues and suffered long enough. Because in the end, even the once-upon-a-damned deserved to be happy too. OLLIE. How far are you willing to go? I'd asked myself this very question countless times. But never in my wildest dreams thought I'd go back in time, chasing ghosts from my past for a chance to save our future. So, there was no limit. No boundaries. I'd cross time, the world, my morals. Yes, I'd even double-cross myself. So, how far would I go? The answer had always been simple. I'd go an eternity plus a day past crestfallen.

Protecting Caroline: A Navy SEAL Military Romantic Suspense - Susan Stoker 2014-09-30
How far will one man go to save the life of a stranger? More importantly to Caroline, will he do it twice? Matthew "Wolf" Steel hated flying commercial. Luckily his job as a Navy SEAL meant he didn't have to do it very often. He'd been unlucky enough to be assigned a middle seat on the cramped jet, but fortunately for him, the woman next to him was willing to switch seats with him. Hoping for a relaxing flight, Wolf was pleasantly surprised at the good conversation and sense of humor the woman had as they flew 36,000 feet over the countryside. When Caroline boarded the plane to Virginia to move across the country for her new job she never expected to be seated next to the hottest guy she'd ever seen. She also never expected he'd be so easy to talk to. She knew he'd never be interested in talking to her if he hadn't been trapped in the seat next to her, but it was a nice way to spend a long plane ride. Neither Wolf nor Caroline were prepared for a terrorist hijacking of their plane, but if Caroline thought that would be the last time she'd see, or need, Wolf, she'd be sorely mistaken. **Protecting Caroline is a stand-alone love story. Women, Race, & Class - Angela Y. Davis 2011-06-29

From one of our most important scholars and civil rights activist icon, a powerful study of the women's liberation movement and the tangled knot of oppression facing Black women. "Angela Davis is herself a woman of undeniable courage. She should be heard."—The New York Times
Angela Davis provides a powerful history of the social and political influence of whiteness and elitism in feminism, from abolitionist days to the present, and demonstrates how the racist and classist biases of its leaders inevitably hampered any collective ambitions. While Black women were aided by some activists like Sarah and Angelina Grimke and the suffrage cause found unwavering support in Frederick Douglass, many women played on the fears of white supremacists for political gain rather than take an intersectional approach to liberation. Here, Davis not only contextualizes the legacy and pitfalls of civil and women's rights activists, but also discusses Communist women, the murder of Emmitt Till, and Margaret Sanger's racism. Davis shows readers how the inequalities between Black and white women influence the contemporary issues of rape, reproductive freedom, housework and child care in this bold and indispensable work.

Defending Air Bases in an Age of

Insurgency - Shannon Caudill 2014-08

This anthology discusses the converging operational issues of air base defense and counterinsurgency. It explores the diverse challenges associated with defending air assets and joint personnel in a counterinsurgency environment. The authors are primarily Air Force officers from security forces, intelligence, and the office of special investigations, but works are included from a US Air Force pilot and a Canadian air force officer. The authors examine lessons from Vietnam, Iraq, Afghanistan, and other conflicts as they relate to securing air bases and sustaining air operations in a high-threat counterinsurgency environment. The essays review the capabilities, doctrine, tactics, and training needed in base defense operations and recommend ways in which to build a strong, synchronized ground defense partnership with joint and combined forces. The authors offer recommendations on the development of combat leaders with the depth of knowledge, tactical and operational skill sets, and counterinsurgency mind set necessary to be effective in the modern asymmetric battlefield.

A second chance at happiness is rare, but they will stop at nothing for love and family. At just ten years old, Tommy has already been through more horror than most people suffer their entire lives. So when he's placed in his latest foster home, under the gentle care of Abe and Alabama Powers, he lashes out. It'll take all of Alabama and Abe's love, the sibling adoration of his foster sisters, Brinique and Davisa, and Abe's entire extended SEAL family to prove to Tommy that being nice, being respectful, and opening his heart to love are things he can choose. Even still, despite so much support, it's hard for Tommy to believe he deserves a loving family, and a second chance at happiness. Until one of the most unexpected friends arrives, just when Tommy needs him the
