TEACHING OF SOCIAL STUDIES - S. K. MANGAL 2008-08-25

Written in an easy-to-understand style, this text provides a thorough coverage of the essential topics related to the teaching of social studies in secondary and elementary schools. Reflecting on the theoretical knowledge and practical skills required to teach social studies in an effective manner, the text first introduces its readers to the various components, study material, scope and importance of social studies. It then teaches the formulation of instructional objectives in social studies, and brings out the principles of social studies curriculum as well as its relationship with other subjects of the school curriculum. The book focuses mainly on improving the methodological concepts of the social studies teacher, and in doing so, discusses various methods of teaching; evaluation and planning of lessons, units and courses; organization of social studies room and the equipment to be kept in it; utilization of community resources; and implementation of various co-curricular activities. It also examines certain innovative methods of teaching such as team-teaching, micro-teaching and individualized instruction. KEY FEATURES □ Incorporates chapter outline at the beginning and chapter summary at the end of each chapter to help readers review the important topics. □ Provides chapter-end questions for students to drill the topics discussed. □ Discusses various topics with the help of a number of figures and tables that facilitates easy-understanding of the concepts. This book is suitable for a course on Teaching of Social Studies for the students of B.Ed. and M.A. (Education). It can also be used for the in-service teacher education programmes organized by the Central and State education boards.

Textbook of Environmental Studies for Undergraduate Courses - Erach Bharucha 2005-11

The Importance Of Environmental Studies Cannot Be Disputed Since The Need For Sustainable Development Is A Key To The Future Of Mankind. Recognising This, The Honourable Supreme Court Of India Directed The Ugc To Introduce A Basic Course On Environmental Education For Undergraduate Courses In All Disciplines, To Be Implemented By Every University In The Country. Accordingly, The Ugc Constituted An Expert Committee To Formulate A Six-Month Core Module Syllabus For Environmental Studies. This Textbook Is The Outcome Of The Ugc S Efforts And Has Been Prepared As Per The Syllabus. It Is Designed To Bring About An Awareness On A Variety Of Environmental Concerns. It Attempts To Create A Pro-Environmental Attitude And A Behavioural Pattern In Society That Is Based On Creating Sustainable Lifestyles And A New Ethic Towards Conservation. This Textbook Stresses On A Balanced View

Of Issues That Affect Our Daily Lives. These Issues Are Related To The Conflict Between Existing `Development Strategies And The Need For `Conservation . It Not Only Makes The Student Better Informed On These Concerns, But Is Expected To Lead The Student Towards Positive Action To Improve The Environment. Based On A Multidisciplinary Approach That Brings About An Appreciation Of The Natural World And Human Impact On Its Integrity, This Textbook Seeks Practical Answers To Make Human Civilization Sustainable On The Earth S Finite Resources. Attractively Priced At Rupees One Hundred And Fifteen Only, This Textbook Covers The Syllabus As Structured By The Ugc, Divided Into 8 Units And 50 Lectures. The First 7 Units, Which Cover 45 Lectures Are Classroom Teaching-Based, And Enhance Knowledge Skills And Attitude To Environment. Unit 8 Is Based On Field Activities To Be Covered In 5 Lecture Hours And Would Provide Students With First Hand Knowledge On Various Local Environmental Issues.

Teaching Aptitude & Teaching Attitude - Rph Editorial Board 2020-10

This comprehensive book is specially developed for the candidates of CTET, Teachers (AT, TGT,

PGT)/J.B.T./N.T.T./B.Ed./B.El.Ed./DSSSB/Navodaya Vidyalaya/Kendriya Vidyalayas & Others Kendriya Vidyalaya & Other National Level Schools/Colleges. We have described the qualities of the teacher in general in the proceeding text. However teaching aptitude is much more vital than these qualities: it would be described in this book at a later stage.

Democracy, Politics & Governance - A. Surya Prakash 2021-11-29

This book is a collection of articles published by the author over a period of time. Much of his writing reflects the social, political and economic issues that have emerged over the years and impacted India's politics and governance. Given his special interest in the working of the constitution, and the march of democracy since independence, the book contains chapters which specifically deal with constitutional issues, the working of parliament, the system of justice, the executive and the media. The author feels that negating the facts of history has been a major pastime of the Nehruvian and Marxist schools and that the distortions introduced by these schools need to be challenged and corrected in the current phase of national politics. This is reflected in his articles which deal with the running secular versus pseudo-secular debate as also the political battles being fought on what is 'national' and what is 'anti-national'. In any case, whatever the issue and however intense the debate, he is firmly of the view that it must all happen within the parameters of the constitution.

Objective General English - SP Bakshi 2021-07-17

1. 'Objective General English' help in revising & preparing the concepts of English of many competitive exams 2. It is divided into four parts; 3. TOC Part A: Foundation Module, Part B: Verbal Ability, Part C: Sequence of Sentences, Objective Comprehension, Part D: Practical Grammar.

Tabakat - i - Nāsi fī Minhāj Sirāj Jūzjānī 2006

What is an Emotion? Dr. William James 2013-03-25

I should say first of all that the only emotions I propose expressly to consider here are those that have a distinct bodily expression. That there are feelings of pleasure and displeasure, of interest and excitement, bound up with mental operations, but having no obvious bodily expression for their consequence, would, I suppose, be held true by most readers. Certain arrangements of sounds, of lines, of colours are agreeable, and others the reverse, without the degree of the feeling being sufficient to quicken the pulse or breathing, or to prompt to movements of either the body or the face. Certain sequences of ideas charm us as much as others tire us. It is a real intellectual delight to get a problem solved, and a real intellectual torment to have to leave it unfinished. The first set of examples, the sounds, lines, and colours, are either bodily sensations, or the images of such. The second set seem to depend on processes in the ideational centres exclusively. Taken together, they appear to prove that there are pleasures and pains inherent in certain forms of nerve-action as such, wherever that action occur. The case of these feelings we will at present leave entirely aside, and confine our attention to the more complicated cases in which a wave of bodily disturbance of some kind accompanies the perception of the interesting sights or sounds, or the passage of the exciting train of ideas. Surprise, curiosity, rapture, fear, anger, lust, greed, and the like, become then the names of the mental states with which the person is possessed. The bodily disturbances are said to be the

"manifestation" of these several emotions, their "expression" or "natural language;" and these emotions themselves, being so strongly characterized both from within and without, may be called the standard emotions. --William James

The Behavior of Organisms - B. F. Skinner 1990

Heredity & Environment - A. H. Halsey 1977

A Prisoner's Scrap-Book - L.K. ADVANI 2014-05-16

Focus on Educational Psychology - Alea V. Mittel 2006

The field of educational psychology is primarily concerned with teaching and learning. Educational psychology has a long historical past and an extensive record of conducting empirical research into the teaching/learning process. Educational psychology has also been involved with the topics of motivation, intelligence, memory, cognition, intellectual development and evaluation and assessment. Over the past 50 years, educational psychology has been predominantly involved with the learning processes of the normal, average student. However, over the past 20 years, mainstreaming and later inclusion has presented an additional challenge for educational psychologists and classroom teachers. This new book presents leading research from around the globe in all areas of educational psychology.

Basic Interviewing Skills - Raymond L. Gorden 1998-05-22

Interviewing skills are not simple motor skills. Rather, they involve a high-order combination of observation, empathic sensitivity, and intellectual judgment. This guidebook, now available from Waveland Press, provides a process model and a corresponding set of classroom-tested exercises designed to improve basic interviewing skills. The model called the Skill Learning Cycle provides an initial, guided experience for the complete interview-learning process, including planning, doing, and analyzing phases. It also stands as a model for the student to use in the future for continued growth in interviewing skills. In order to focus on the most basic interviewing skills, only the information-gathering function, which is common to all

interviews, is discussed.

Indian Unrest - Sir Valentine Chirol 1910

The Answer Key - Jane Carver 2021-08-24

When life presents problems, all a heroine really wants is an answer key to fix them. Shannon Waller lives a paycheck-to-paycheck existence in far north Montana. A missing husband. Not even a pet. Alone. Suddenly life hands her the kind of money she only dreams of—an amount that starts with a B. A move to Ithaca, New York and into a home she inherits plus new friends—what more can she ask for? Private investigator Michael Silver is determined to find out who might want to kill Shannon. While his life seems safe, hers is one 'accident' after another, each hurting her worse. When a bullet barely misses Shannon, she and Michael have to discover who, what and why she's a target for murder. And do it fast before the next attempt succeeds!

Kailash Mansarovar : A Divine Exploration Exotic Destination - Swarn Anurag 2009

The book takes you to the highest spiritual platform on its earth located in Tibet, Kailash Mansarovar. It is compiled from the pages of my diary that unveils the unique visuals of spiritual, cultural and everyday life of the Tibetan people. It was fascinating to experience this rich heritage on the authors journey and to unearth the significance of facts that reveals one into the realms of mythology.

Language and Language Acquisition - F. Lowenthal 2012-12-06

F. LOWENTHAL University of Mons Mons, Belgium In September 1980, researchers from many different countries and working in disciplines as varied as philosophy, psychology, neurology, mathematics, education, linguistics, sociology, and others we forget to mention, again met in Mons to discuss problems concerning Language and Language Acquisition. Conflicting opinions among researchers not only from different disciplines, but also within a same discipline, led to many a lively discussion. This book attempts to recreate the atmosphere of the conference, by reproducing the different papers, some of which were rewritten after the initial presentation and discussion-session, and by giving a summary of each discussion session to enable the reader to understand how each participant reacted. Obviously, we accept full responsibility for these summaries: we hope we have understood correctly what each participant meant. This also holds for the special session devoted to an attempt to define the concept of "language". We suggest that further meetings should study language and context simultaneously, within the framework of a "CONTEXTUAL LINGUISTICS".

Objective Computer Science - Rph Editorial Board 2020-10

Mathematics Assessment and Evaluation Thomas A. Romberg 1992-01-01

Are current testing practices consistent with the goals of the reform movement in school mathematics? If

not, what are the alternatives? How can authentic performance in mathematics be assessed? These and similar questions about tests and their uses have forced those advocating change to examine the way in which mathematical performance data is gathered and used in American schools. This book provides recent views on the issues surrounding mathematics tests, such as the need for valid performance data, the implications of the Curriculum and Evaluation Standards for School Mathematics for test development, the identification of valid items and tests in terms of the Standards, the procedures now being used to construct a sample of state assessment tests, gender differences in test taking, and methods of reporting student achievement.
