The Indo-Aryan Languages - Danesh Jain 2007-07-26

The Indo-Aryan languages are spoken by at least 700 million people throughout India, Pakistan, Bangladesh, Nepal, Sri Lanka and the Maldives. They have a claim to great antiquity, with the earliest Vedic Sanskrit texts dating to the end of the second millennium B.C. With texts in Old Indo-Aryan, Middle Indo-Aryan and Modern Indo-Aryan, this language family supplies a historical documentation of language change over a longer period than any other subgroup of Indo-European. This volume is divided into two main sections dealing with general matters and individual languages. Each chapter on the individual language covers the phonology and grammar (morphology and syntax) of the language and its writing system, and gives the historical background and information concerning the geography of the language and the number of its speakers.

Language and Literacy in Social Practice - Open University 1993

Compiled for use in the Open University MA course E825. The 15 articles sample the ideas over the past decade on the importance of social factors in language and literacy development. They include theoretical and ethnographic accounts, cross-cultural and historical perspectives, and explorations of the political aspects and the discourses within which language and literacy are discussed. **Contemporary Corpus Linguistics** - Paul Baker 2012-03-15

Corpus linguistics uses large electronic databases of language to examine hypotheses about language use. These can be tested scientifically with computerised analytical tools, without the researcher's preconceptions influencing their conclusions. For this reason, corpus linguistics is a popular and expanding area of study. Contemporary Corpus Linguistics presents a comprehensive survey of the ways in which corpus linguistics is being used by researchers. Written by internationally renowned linguists, this volume of seventeen introductory chapters aims to provide a snapshot of the field of corpus linguistics. The contributors present accessible, yet detailed, analyses of recent methods and theory in Corpus Linguistics, ways of analysing corpora, and recent applications in translation, stylistics, discourse analysis and language teaching. The book represents the best of current practice in Corpus

Linguistics, and as a one volume reference will be invaluable to students and researchers looking for an overview of the field.

**Vishnu's Crowded Temple** - Maria Misra 2008-01-01

As it enters its sixtieth year of independence, India stands on the threshold of superpower status. Yet India is strikingly different from all other global colossi. While it is the world's most populous democracy and enjoys the benefits of its internationally competitive high-tech and software industries, India also contends with extremes of poverty, inequality, and political and religious violence. This accessible and vividly written book presents a new interpretation of India's history, focusing particular attention on the impact of British imperialism on Independent India. Maria Misra begins with the rebellion against the British in 1857 and tracks the country's advance to the present day. India's extremes persist, the author argues, because its politics rest upon a peculiar foundation in which traditional ideas of hierarchy, difference, and privilege coexist to a remarkable degree with modern notions of equality and democracy. The challenge of India's leaders today, as in the last sixty years, is to weave together the disparate threads of the nation's ancient culture, colonial legacy, and modern experience.

Advertising in Developing and Emerging Countries - Professor Emmanuel C Alozie 2012-08-28

This indispensable study offers an in-depth analysis of advertising in developing and emerging economies as they join the global market and seek to improve the socio-economic condition of their citizens. Advertising in Developing and Emerging Countries illustrates the challenges and opportunities for advertising in these countries, and explores their critical relationship with developed economies with a multifaceted analysis of the role of advertising in an interdependent global economy. The contributors, academic and professional, with world wide experiences, examine the unique political, cultural and religious systems that affect advertising in a country, in both Western and non-Western contexts, and chart the consequences of its development from democratization to privatization to cultural hegemony. Emmanuel C. Alozie has put together an essential and unique book for scholars and students of public relations, advertising, marketing, media and international studies, as well as practitioners, those teaching and undertaking professional courses, and researchers in this critical field.

*Globalization and the Marginalized* - Grant 2002-09-06

Globalization has become one of the dominant ideas of recent times. However, is the debate on globalization as global as it ought to be? In this book Grant and Rennie Short have brought together prominent experts in the field to consider how globalization affects marginalized countries and groups. A variety of case studies provide a unique assessment of the issue of globalization and offer a new look at the relationship between the global and the local.

**Thinking Social Science in India** - Alice Thorner 2002-05-23

This festschrift to Alice Horner is primarily concerned with the thematic concerns that motivated Horner and her late husband in their scholarly work: work and labor, industrialization and capitalism, family and household, demography and culture, and politics. Thirty-one essays, presented by Patel (sociology, U. of Pune, India), Bagchi (women's studies, Jadavpur U., India) and Raj (editor, The Economic and Political Weekly), are divided into four sections that explore themes and methodologies used by Horner in analyzing agrarian Indian and gender, elaborate aspects of economic change since Indian independence, explore cultural assessment of contemporary India, and relate the colonial heritage to the contemporary political process. Also includes an appreciation of Horner and a bibliography of her writings. Annotation copyrighted by Book News, Inc., Portland, OR

*Geography of the South Asian Subcontinent* - Aijazuddin Ahmad 2009

This book attempts to explore the possibility of discovering the roots of unity of the South Asian countries. Describing the nations, nationalities and nationalism in Afghanistan, Pakistan, Bangladesh, Nepal, Bhutan, Srilanka, Maldives and India. It makes a comprehensive study of their geographical features, shared history and political evolution. Taking a close look at their shifting identities, it also presents a detailed account of their society and social formations, ethnic antecedents, race and caste, regions and regionalism, culture realms, languages, and economic as well as human development

*Radio for the Millions* - Isabel Huacuja Alonso 2023-01-03

From news about World War II to the broadcasting of music from popular movies, radio played a crucial role in an increasingly divided South Asia for more than half a century. Radio for the Millions examines the history of Hindi-Urdu radio during the height of its popularity from the 1930s to the 1980s, showing how it created transnational communities of listeners. Isabel Huacuja Alonso argues that despite British, Indian, and Pakistani politicians' efforts to usurp the medium for state purposes, radio largely escaped their grasp. She demonstrates that the medium enabled listeners and broadcasters to resist the cultural, linguistic, and political agendas of the British colonial administration and the subsequent independent Indian and Pakistani governments. Rather than being merely a tool of nation building in South Asia, radio created affective links that defied state agendas, policies, and borders. It forged

an enduring transnational soundscape, even after the 1947 Partition had made a united India a political impossibility. Huacuja Alonso traces how people engaged with radio across news, music, and drama broadcasts, arguing for a more expansive definition of what it means to listen. She develops the concept of "radio resonance" to understand how radio relied on circuits of oral communication such as rumor and gossip and to account for the affective bonds this "talk" created. By analyzing Hindi film-song radio programs, she demonstrates how radio spurred new ways of listening to cinema. Drawing on a rich collection of sources, including newly recovered recordings, listeners' letters to radio stations, original interviews with broadcasters, and archival documents from across three continents, Radio for the Millions rethinks assumptions about how the medium connects with audiences.

*Landmarks in the History of Modern Indian Education, 7th Edition* Aggarwal J.C. 2010

This book, Landmarks in the History of Modern Indian Education, has now entered its silver jubilee year. Over the years and through the six editions it has undergone thus far, it has become a student's favourite. The book retraces the development of education in India since 1813 to the present day. Arranged chronologically, it also provides a progressive record of the thinking of policy makers who have been responsible for laying down the guidelines for future educational programmes and plans of action. The documents included in the book are rich in content and significant in the objectives that form the core of educational thought in India. They cater to the needs of trainee teachers, supervisors, educators and policy makers in education.

**THE INDIAN LISTENER** - All India Radio (AIR), New Delhi 1951-02-18

The Indian Listener (fortnightly programme journal of AIR in English) published by The Indian State Broadcasting Service, Bombay, started on 22 December, 1935 and was the successor to the Indian Radio Times in English, which was published beginning in July 16 of 1927.
