Advances in Groundwater Governance - Karen G. Villholth 2017-12-14

This book addresses groundwater governance, a subject internationally recognized as crucial and topical for enhancing and safeguarding the benefits of groundwater and groundwater-dependent ecosystems to humanity, while ensuring water and food security under global change. The multiple and complex dimensions of groundwater governance are captured in 28 chapters, written by a team of leading experts from different parts of the world and with a variety of relevant professional backgrounds. The book aims to describe the state-of-the-art and latest developments regarding each of the themes addressed, paying attention to the wide variation of conditions observed around the globe. The book consists of four parts. The first part sets the stage by defining groundwater governance, exploring its emergence and evolution, framing it through a socio-ecological lens and describing groundwater policy and planning approaches. The second part discusses selected key aspects of groundwater governance. The third part zooms in on the increasingly important linkages between groundwater and other resources or sectors, and between local groundwater systems and phenomena or actions at the international or even global level. The fourth part, finally, presents a number of interesting case studies that illustrate contemporary practice in groundwater governance. In one volume, this highly accessible text not only familiarizes water professionals, decision-makers and local stakeholders with groundwater governance, but also provides them with ideas and inspiration for improving groundwater governance in their own environment.

Social Movements - David S. Meyer 2002

"Why do social movements take the forms they do? How do activists' efforts and beliefs interact with the cultural and political contexts in which they work? Why do activists take particular strategic paths, and how do their strategies affect the course and impact of the movement? Representing a new generation of social movement theory, the contributors to this volume build bridges between political opportunities and collective identity paradigms, between analyses of movements' internal dynamics and their external contexts, between approaches that emphasize structure and those that emphasize culture. Case studies range from civil rights and religious movements in North American and Western Europe to revolutionary movements in Burma, the Philippines, and Indonesia; labor campaigns in England and South Africa; and feminist movements in India. Combining a variety of perspectives on a wide range of topics, the contributors' synthetic approach shifts the field of social movements forward in important new directions."-- Back cover

The Hardest Core - Vol- Eleah Kavayah 2014-09-23

These five volumes are designed to bring to light, the original meaning of courtship. How to understand the core of its designated fundamental personality and character? Why dating or courtship is no longer the foundation of marriage? Why the true meaning of courtship is misrepresented, violated and abused? What are the best implements to be used for having a successful courtship? What is the purpose of the bridge of courtship? Why should we understand, respect and apply the divine connotation of courtship? How can we use the true reflection of courtship based on the effectuality of respectfulness and sensibleness? Why should we keep understanding as well as building our personality and character, before or during courtship and marriage? These volumes are designed for all ages and groups of people, how to fortify the frontiers of their mental, moral, and emotional character, even before taking any step toward dating or courtship. The

author is empathizing with the reader not only based on moral standards, but with regard to the inborn weaknesses emerging with constancy from our imperfection and the condemnation of our irrational high expectations. Thus, he has brought to light the unique wisdom, of how to come out from a weak enslaving position, and to head forward toward a powerful lasting disposition.

Autonomy in Education - Walter Berka 2000-04-13

The push towards greater autonomy is one of the three main trends in every modern educational policy, alongside quality assurance and quality evaluation techniques and the need to devote attention to special — and often disadvantaged — target groups. It is, however, difficult to derive a unified concept of 'autonomy' from the comparative indicators which are published on a regular basis and it has emerged that there are significant differences depending on the specific area and the administrative organisation of education in the country in question. During the discussions of the annual Congress of the European Association for Education Law and Policy (ELA) in Salzburg (1998) it was apparent that autonomy has to be considered in its various applications. Autonomy for school boards is realised through management, administrative mechanisms, management of staff and pedagogical options. Autonomy of administration requires competence, the willingness to establish an autonomous administration and awareness of each party's responsibility in the educational process. The contents of this Yearbook are an answer to the question of how legislatures are responding to the trend towards greater responsibility, decentralisation and autonomy. It is an overview of the efforts made by the Member States of the European Union to apply the principle of subsidiarity.

Guidelines for the Programmatic Management of Drug-Resistant Tuberculosis - World Health Organization 2015-04-20

This 2011 update of Guidelines for the programmatic management of drug-resistant tuberculosis is intended as a tool for use by public health professionals working in response to the Sixty-second World Health Assembly's resolution on prevention and control of multidrug-resistant tuberculosis and extensively drug-resistant tuberculosis. Resolution WHA62.15, adopted in 2009, calls on Member States to develop a comprehensive framework for the management and care of patients with drug-resistant TB. The recommendations contained in these guidelines address the most topical questions concerning the programmatic management of drug-resistant TB: case-finding, multidrug resistance, treatment regimens, monitoring the response to treatment, and selecting models of care. The guidelines primarily target staff and medical practitioners working in TB treatment and control, and partners and organizations providing technical and financial support for care of drug-resistant TB in settings where resources are limited.

Marcel Dzama and Raymond Pettibon - Marcel Dzama 2016-10-05

Pandeymonium - Piyush Pandey 2016-01-27

What makes Piyush Pandey an extraordinary advertising man, friend, partner and leader of men? How does he manage to exude childlike enthusiasm, and bring such deep commitment to his work? You've seen most of the things that Piyush Pandey has seen in his life. You've seen cobblers, carpenters, cricketers, trains, villages, towns and cities. What makes Piyush different is the perspective from which he views the same things you've seen, his ability to store all that he sees into some recesses of his brain and then retrieve them at short notice when he needs to. That ability combined with his love, passion and understanding of advertising and of consumers make him the master storyteller that he is. In *Pandeymonium*, Piyush talks about his influences, right from his childhood in Jaipur and being a Ranji cricketer, to his philosophy, failures and lessons in advertising in particular and life in general. Lucid, inspiring and unputdownable, this memoir gives you an inside peek into the mind and creative genius of the man who defines advertising in India.

Modern Art in America 1908-68 William C. Agee 2017-09-18

A radical re-evaluation of American modernism through four generations of artists and their work - now in paperback. "That rarity of rarities, an opinionated but not eccentric scholarly history by a veteran museum curator whose every page crackles with original thinking and bears the stamp of a preternaturally sharp eye? Excellent reproductions and crisp typography complement the lucid prose." —Wall Street Journal Twentieth-century art in America has long been understood in two very separate distinct halves: pre-World War II, often considered as inferior and provincial; and the triumphant, international post-war work that made a complete break with everything that went before. Agee discovers exciting new connections between artists and artworks, which strongly suggest that 1945 was not such a dividing line in art history after all. His fresh research offers an innovative approach and a brilliant take on art history.

South African Foreign Policy Review: Volume 2 - Masters, Lesley 2015-07-13

The first two decades of South Africa's democracy have seen a growing breadth and depth in the analysis of South Africa's foreign policy. This second volume of the South African Foreign Policy Review considers the continuity and change in South Africa's foreign policy over the course of two decades, with a particular focus on the more recent approach under the Zuma administration. This includes a closer look at the principles, practices and partnerships that shape South Africa's international relations and is aimed at supporting knowledge for reflection on South Africa's conduct internationally and for anticipating ways in which the country may approach international relations and foreign policy going forward. It discusses the foreign policy making and the nature of South Africa's diplomatic relations with Africa, Asia, the Middle East and North Africa, Latin America, Europe and North America, as well as the country's participation in multilateral diplomacy in Africa, the global South and at the United Nations (UN) to expand the discussion and deepen the debate on the future shape and direction of South Africa's foreign policy.

Procurement of Works - 2000

These Standard Prequalification Documents serve as a guide for those wanting to prequalify to bid on large contracts for projects financed by the World Bank. Qualifying as a bidder is separate from the bid evaluation process. Before invitations to bid on large or especially complex works projects are issued, a process of prequalification is required to select competent bidders. This document helps bidders through the prequalification process. To simplify presentation by applicants for prequalification, standard forms have been prepared for the submission of relevant information. Guidance notes and examples are provided for the implementing agency making the evaluation. Annexes give information about prequalification that are likely to be of interest to potential bidders on World Bank projects. NOTE: This replaces Standard Prequalification Document: Procurement of Works (September 1999), Stock no. 14601 (ISBN 0-8213-4601-6).

The Philosophy of Psychology - George Botterill 1999-08-19

What is the relationship between common-sense, or 'folk', psychology and contemporary scientific psychology? Are they in conflict with one another? Or do they perform quite different, though perhaps complementary, roles? George Botterill and Peter Carruthers discuss these questions, defending a robust form of realism about the commitments of folk psychology and about the prospects for integrating those commitments into natural science. Their focus throughout the book is on the ways in which cognitive science presents a challenge to our common-sense self-image - arguing that our native conception of the mind will be enriched, but not overturned, by science. *The Philosophy of Psychology* is designed as a textbook for upper-level undergraduate and beginning graduate students in philosophy and cognitive science, but as a text that not only surveys but advances the debates on the topics discussed, it will also be of interest to researchers working in these areas.

India Book of Records 2021 - Team Book India 2021-08-02

Young or old, rich or poor, Hindu or Muslim, all unite at one platform; it's the India Book of Records 2021. The year 2021 can be called the year of record making as more records are created and even more records are attempted than any other year in the past, leading to the breaking of our own boundaries to present you a bigger and thicker India Book of Records 2020. Arguably this is the biggest national book of records ever produced by any country, which in itself can be called a record. Truly, Indians create more records than anyone else on the planet. While many of the Indian record holders achieved a place in Asia Book of Records and World Record Union, more than 50 Indian record holders featured in a platform created by the initiative of three countries that produce the India Book of Records, Viet-nam Book of Records and Indonesia Book of Records to showcase the top record holders at the global stage. As you are holding 'India

Book of Records 2021', surely some of the records will inspire you to challenge yourself to create a record and see your name in India Book of Records 2021.

United Nations E-government Survey 2014 - United Nations 2014-09-30

The UN E-Government Survey 2008: From E-Government to Connected Governance assesses the e-government readiness of the 192 Member States of the UN according to a quantitative composite index of e-readiness based on website assessment, telecommunication infrastructure, and human resource endowment. ICTs can help reinvent government in such a way that existing institutional arrangements can be restructured and new innovative arrangements can flourish, paving the way for a transformed government. The focus of the report this year, in Part 2, is e-government initiatives directed at improving operational efficiency through the integration of back-office functions. Whilst such initiatives, if successful, will deliver benefits to citizens, the primary purpose is to improve the effectiveness of government and governmental agencies. Models of back-office integration, irrespective of the delivery mode, fall into three broad categories: single function integration, cross functional integration, and back-office to front-office integration. The level of complexity, expressed in terms of the number of functions within the scope and number of organizations involved, is the primary factor influencing a successful outcome - with a tendency amongst the more ambitious projects to fail to deliver the full anticipated benefits. The key variables involved in the delivery of back-office integration are the people, processes and technology required. Whilst the technology is increasingly resilient and 'fit for purpose', the evidence indicates that success or failure is less a technological issue and more a people issue - in particular, the ability to change public service cultures and motivate public sectorworkers to new ways of working, address trade union concerns, and provide adequately skilled and competent management
