Paul Auster's Writing Machine - Evija Trofimova 2014-08-28

Paul Auster is one of the most acclaimed figures in American literature. Known primarily as a novelist, Auster's films and various collaborations are now gaining more recognition. Evija Trofimova offers a radically different approach to the author's wider body of

work, unpacking the fascinating web of relationships between his texts and presenting Auster's canon as a rhizomatic factio-fictional network produced by a set of writing tools. Exploring Auster's literal and figurative use of these tools ? the typewriter, the cigarette, the doppelgänger figure, the city ? Evija Trofimova discovers Auster's "writing machine", a device that works both as a means to write and as a construct that manifests the emblematic writer-figure. This is a book about assembling texts and textual networks, the writing machines that produce them, and the ways such machines invest them with meaning. Embarking on a scholarly quest that takes her from between the lines of Auster's work to between the streets of his beloved New York and finally to the man himself, Paul Auster's Writing Machine becomes not just a critical investigation but a critical collaboration, raising important questions about the ultimate meaning of Auster's work, and about the relationship between texts, their authors, their readers and their critics.

New Perspectives on Aspect and Modality in Chinese Historical Linguistics - Barbara Meisterernst 2018-12-28

This book presents new perspectives on the study of Aspect and Modality in Chinese Historical Linguistics. Based on the international Workshop on Aspect and Modality in Chinese, the book includes the latest research findings in the field to make them available not only to specialists in Classical and Buddhist Chinese, but also to researchers and students of general

linguistics and of the universals of language. It also discusses different aspects of the AM (Aspect-Modality) and the TAM (Tense-Aspect-Modality) system of Chinese. It provides a comprehensive overview of both of the universally related systems of aspect and modality. The first part of the book focuses on aspectual features of Chinese; these include basic studies on the syntactic representation of the aspectual structure of the verb phrase in Archaic Chinese, the aspectual function of different object constructions and their development, temporal features of the verb phrase, and the aspectual functions of nominalization processes. The second part includes articles highlighting different aspects of the modal system or the interplay between tense, aspect and modality in Chinese, including a survey on the history of studies on modality in Chinese and the modal and temporal aspectual/markers indicating future meanings, a specialized study on modal deontic verbs in the Buddhist Vinaya texts, the modal function of rhetorical questions in Buddhist Chinese, and a study on the diachronic development of the aspectual and modal system in Chinese.

Advanced Reading Instruction in Middle School - Janice I. Robbins 2021-09-03

Addressing the needs of academically advanced young adolescents in reading is a tall order. *Advanced Reading Instruction in Middle School* offers teachers a structured process for guiding students in preparing for collaborative discussions about books. Structured discussions enable students to examine the author's work together as they respond to essential questions, using evidence from the reading. Students are directed to make personal connections to story characters, plots, and settings. They are asked to explore the writer's craft through the examination of selected words, structures, settings, and literary devices incorporated in the novels. This guide includes specific literary analysis activities suitable for the six types of fiction presented and offers annotated lists of recommended advanced-level books of each type, including those recommended in the CCSS. The guide also supports the social and emotional issues of early adolescents, offering specific works suitable for a range of common topics such as identity, friendships, high expectations, and feelings of isolation. Grades 6-8

Reading the Bible outside the Church -

David G. Ford 2018-07-12

In many places in the Western world, churchgoing is in decline and it cannot be

assumed that people have a good grasp of the Bible's content. In this evolving situation, how would "the person on the street" read the Bible? *Reading the Bible Outside the Church* begins to answer this question. David Ford spent ten months at a chemical industrial plant providing non-churchgoing men with the opportunity to read and respond to five different biblical texts. Using an in-depth qualitative methodology, he charts how their prior experiences of religion, sense of (non)religious identity, attitudes towards the Bible, and beliefs about the Bible all shaped the readings that occurred.

Critical Reading Across the Curriculum -

Robert DiYanni 2017-02-06

Powerful strategies, tools, and techniques for educators teaching students critical reading skills in the humanities. Every educator understands the importance of teaching students how to read critically. Even the best teachers, however, find it challenging to translate their own learned critical reading practices into explicit strategies for their students. *Critical Reading Across the Curriculum: Humanities, Volume 1* presents exceptional insight into what educators require to facilitate critical and creative thinking skills. Written by scholar-educators from across the humanities, each of the thirteen essays in this volume describes strategies educators have successfully executed to develop critical reading skills in students studying the humanities. These include ways to help students: focus actively re-read and reflect, to re-think, and re-consider understand the close relationship between reading and writing become cognizant of the critical importance of context in critical reading and of making contextual connections learn to ask the right questions in critical reading and reasoning appreciate reading as dialogue, debate, and engaged conversation In addition, teachers will find an abundance of innovative exercises and activities encouraging students to practice their critical reading skills. These can easily be adapted for and applied across many disciplines and course curricula in the humanities. The lifelong benefits of strong critical reading skills are undeniable. Students with properly developed critical reading skills are confident learners with an enriched understanding of the world around them. They advance academically

and are prepared for college success. This book arms educators (librarians, high school teachers, university lecturers, and beyond) with the tools to teach a most paramount lesson.

"You Gotta BE the Book" - Jeffrey D. Wilhelm
2016

This award-winning book continues to resonate with teachers and inspire their teaching because it focuses on the joy of reading and how it can engage and even transform readers. In a time of next generation standards that emphasize higher-order strategies, text complexity, and the reading of nonfiction, "You Gotta BE the Book" continues to help teachers meet new challenges including those of increasing cultural diversity. At the core of Wilhelm's foundational text is an in-depth account of what highly motivated adolescent readers actually do when they read, and how to help struggling readers take on those same stances and strategies. His work offers a robust model teachers can use to prepare students for the demands of disciplinary understanding and for literacy in the real world. The Third Edition includes new commentaries and tips for using visual techniques, drama and action strategies, think-aloud protocols, and symbolic story representation/reading manipulatives. Book Features: A data-driven theory of literature and literary reading as engagement. A case for undertaking teacher research with students. An approach for using drama and visual art to support readers' comprehension. Guidance for assisting students in the use of higher-order strategies of reading (and writing) as required by next generation standards like the Common Core. Classroom interventions to help all students, especially reluctant ones, become successful readers. "This book points the way for us to cast our students as experts and collaborators in the educational enterprise." —From the Foreword by Michael W. Smith, Temple University, College of Education "Simply put, it is a classic—timeless in its basic approach and yet full of relevant ideas and strategies for the era of Common Core."

—Deborah Appleman, Carleton College On the Second Edition: "This important book remains on the must-read list for literacy teachers working with adolescent learners." —CHOICE "I hope this book is read and considered by all the stakeholders who can make a difference in education by following Wilhelm's lead of improving instruction to enhance students' lives." —Journal of Adolescent and Adult Literacy

Santi 2015-03-04

This volume focuses on our understanding of the reading comprehension of adolescents in a high stakes academic environment. Leading researchers share their most current research on each issue, covering theory and empirical research from a range of specializations, including various content areas, English language learners, students with disabilities, and reading assessment. Topics discussed include: cognitive models of reading comprehension and how they relate to typical or atypical development of reading comprehension, reading in history classes, comprehension of densely worded and symbolic mathematical texts, understanding causality in science texts, the more rigorous comprehension standards in English language arts classes, balancing the practical and measurement constraints of the assessment of reading comprehension, understanding the needs and challenges of English language learners and students in special education with respect to the various content areas discussed in this book. This book is of interest to researchers in literacy and educational psychology as well as curriculum developers.

Saving Images - Gordon W. Lathrop 2017-11-15
Gordon W. Lathrop explores the place of the Bible as the subject of critical exegesis in

contemporary liturgy. The text is grounded in the life of the assembly and the role of intertextuality in its creation. Lathrop finds patterns in biblical narratives that suggest revising our models of the "shape" of liturgy (Dix, Schmemmann) and our understanding of baptism, preaching, Eucharist, and congregational prayer. *Saving Images* calls for a new, reconceived biblical-liturgical movement that takes seriously both biblical scholarship and the mystery at the heart of worship.

Spiritual Reading Angela Lou Harvey
2015-10-23

Reading Scripture is a spiritual practice at the very heart of the Christian faith. But how is it possible to encounter God in reading the words of the Bible? Does reading the Christian Bible require a different approach from how one may read other texts or writings? What is required of the spiritual reader to read well? Seeking to answer such questions, Angela Lou Harvey provides a theological exploration of the idea of "spiritual reading" in the context of the Western church today. Drawing upon insights of theologians such as Karl Barth, Henri de Lubac, and Ellen F. Davis, the author suggests that the particulars of Christian belief profoundly shape the distinctive practice of the spiritual reading of the Bible.

The End of the Timeless God - R. T. Mullins
2016-01-07

The claim that God is timeless has been the majority view throughout church history. However, it is not obvious that divine timelessness is compatible with fundamental Christian doctrines such as creation and incarnation. Theologians have long been aware of the conflict between divine timelessness and Christian doctrine, and various solutions to these conflicts have been developed. In contemporary thought, it is widely agreed that new theories on the nature of time can further help solve these conflicts. Do these solutions actually solve the conflict? Can the Christian God be timeless? The End of the Timeless God sets forth a thorough investigation into the Christian understanding of God and the God-world relationship. It argues that the Christian God cannot be timeless.

Pastoral Care - Karen D. Scheib 2016-02-16
Christian pastoral care is a narrative, ecclesial, theological practice (NET). As a narrative practice, pastoral care attends to the inseparable interconnection between our own lifestories, others' stories, the larger cultural stories, and God's story. As a ministry of the church, pastoral care is an ecclesial practice that derives its motivation, purpose, and identity from the larger mission of the church to bear witness to and embody God's mission of love that extends beyond the church for the transformation of the world. As a theological practice, pastoral care is grounded in God's love story. God's profound love for humankind heals our brokenness when human love fails and

invites us into an ongoing process of growth in love of God, self, and neighbor. Intended for those who provide care with and on behalf of religious communities, author Karen Scheib focuses on listening and "restorying" practices occurring in the context and setting of congregations. By coauthoring narratives that promote healing and growth in love, pastoral caregivers become cocreators and companions who help others revise and construct life-stories reshaped by the grace of God. What Karen Scheib has done in this book is to reposition pastoral care as a theological activity performed in the context of the church. She draws deeply upon her Wesleyan theological heritage, upon an understanding of life in its fullness as growth in love and grace, and upon a "communion ecclesiology" undergirded by a communal understanding of the Trinitarian life of God. Thus grounded, she envisions pastoral care first as a rhythm of the life of the whole church and secondarily as a work of trained pastors. In her vision, pastoral care is rescued from a narrow understanding of it as exceptional acts of intervention performed only in moments of dire crisis. Instead, it becomes a "daily practice of pastoral care," an attending, in love, to the stories of others and a "listening for ways God is already present in a life story." Solidly theological, grounded in the life of the church, and eminently teachable - Karen Scheib has given us a great gift in this book." from the Foreword -Thomas G. Long, Bandy Professor of Preaching, Emeritus, Candler School of Theology, Emory University, Atlanta, GA. "In a wonderfully engaging, reflective, and useful way, Karen Scheib captures something absolutely essential to pastoral care and yet often overlooked—the utter centrality of storytelling/listening, the power of stories to heal, and their vital connection to bigger stories told within religious communities. This book is a real milestone, reclaiming the importance of "narrative knowing" and grounding care not only in community but also within a comprehensive theological framework." --Bonnie J. Miller-McLemore, E. Rhodes and Leona B. Carpenter Professor of Religion, Psychology, and Culture, The Divinity School and Graduate Department of Religion, Vanderbilt University Divinity School, Nashville, TN "Implementing narrative

personality and therapy theories and anchored in ecclesiology and Wesleyan theology (NET), Karen Scheib's book advances a long awaited and holistic approach to pastoral care. Her NET approach presents the embodiment of pastoral care by emphasizing both narrative and paradigmatic knowing, proposes the subjectivity of our stories in pastoral care by pointing out the interchangeability between us and our stories as subject and object, and underscores the dynamic process of pastoral care through the interconnection of the storyteller, listener, and context. Scheib's image of story companion contributes to the field as a new paradigm of pastoral care and promises to be a significant resource in generating hope and growth in love for both pastoral caregiver and receiver."

—Angella Son, Associate Professor, Drew University, Madison, NJ "Pastoral theologian Scheib describes a narrative, ecclesial, and theological approach for listening to people's life stories in such a way as to engender spiritual formation and growth in love. Scheib clarifies the connections between caring conversations and Christian theology. Clear and accessible prose as well as helpful exercises and discussion starters make this a fine teaching text." -The Christian Century, Sept. 29, 2016.

The Lie That Tells a Truth: A Guide to Writing Fiction - John Dufresne 2004-08-17

"This is the most practical, hard-nosed, generous, direct, and useful guide to writing fiction." —Brad Watson Finally, a truly creative—and hilarious—guide to creative writing, full of encouragement and sound advice. Provocative and reassuring, nurturing and wise, *The Lie That Tells a Truth* is essential to writers in general, fiction writers in particular, beginning writers, serious writers, and anyone facing a blank page. John Dufresne, teacher and the acclaimed author of *Love Warps the Mind* a Little and *Deep in the Shade of Paradise*, demystifies the writing process. Drawing upon the wisdom of literature's great craftsmen, Dufresne's lucid essays and diverse exercises initiate the reader into the tools, processes, and techniques of writing: inventing compelling characters, developing a voice, creating a sense of place, editing your own words. Where do great ideas come from? How do we recognize them? How can language capture them? In his signature comic voice, Dufresne answers these questions and more in chapters such as "Writing Around the Block," "Plottery," and "The Art of Abbreviation." Dufresne demystifies the writing process, showing that while the idea of writing may be overwhelming, the act of writing is simplicity itself.

More Than Guided Reading - Cathy Mere
2005

Is there too much emphasis on guided reading in primary classrooms? It's a question that many educators, like kindergarten teacher and literacy coach Cathy Mere, are starting to ask. Guided reading provides opportunities to teach students the strategies they need to learn how to read increasingly challenging texts, but Cathy found that she needed to find other ways to help students gain independence. While maintaining guided reading as an important piece of their reading program, teachers need to offer students opportunities during the day to develop as readers, to learn to choose books, to find favorite genres and authors, and to talk about their reading. In *More Than Guided Reading*, Cathy shares her journey as she moved from focusing on guided reading as the center of her reading program to placing children at the heart of literacy learning?not only providing more time for students to discover their reading lives, but also shaping instruction to meet the needs of the

diverse learners in her classroom. By changing the structure of the day, Cathy found she was better able to adjust the support she was providing students, allowing time for whole-class focus lessons, conferences, and opportunities to share ideas, as well as reading from self-selected texts using the strategies, skills, and understandings acquired in reader's workshop. The focus lesson is the centerpiece of the workshop. It is often tied to a read-aloud and connected to learning from the previous day, helping to build skills, extend thinking, and develop independence over time. This thoroughly practical text offers numerous sample lessons, questions for conferences, and ideas for revamping guided reading groups. It will help teachers tweak the mix of instructional components in their reading workshops, and provoke school-wide conversations about the place of guided reading in a complete literacy curriculum.

Better Reading Now - Larry Swartz 2021-04-26

Reading Poverty in America Patrick Shannon 2014-03-14

In this book Shannon's major premise remains the same as his 1998 *Reading Poverty: Poverty has everything to do with American public schooling—how it is theorized, how it is organized, and how it runs. Competing ideological representations of poverty underlie school assumptions about intelligence, character, textbook content, lesson formats, national standards, standardized achievement tests, and business/school partnerships and frame our considerations of each. In this new edition, Shannon provides an update of the ideological struggles to name and respond to poverty through the design, content, and pedagogy of reading education, showing how, through their representations and framing, advocates of liberal, conservative, and neoliberal interpretations attempt the ideological practice of teaching the public who they are, what they should know, and what they should value about equality, civic society, and reading. For those who decline these offers, Shannon presents radical democratic interpretations of the relationship between poverty and reading education that position the poor, the public, students, and teachers as agents in redistribution of economic, cultural, and political capital in the United States.*
