Sociological Abstracts - Leo P. Chall 2001

CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences. The database provides abstracts of journal articles and citations to book reviews drawn from over 1,800+ serials publications, and also provides abstracts of books, book chapters, dissertations, and conference papers.

Rethinking Society in the 21st Century, Fourth Edition - Kate Bezanson 2016-09-01

Rethinking Society in the 21st Century is a critical collection of readings that provides students with a foundational knowledge base in sociology. The fourth edition has been thoroughly updated to include significant Canadian content, with a greater focus on indigeneity, gender, and sexuality and a new section dedicated to social movements, social change, and emerging fields. This anthology introduces students to the fundamental elements of sociology with a balance of classical theory—Marx, Weber, Durkheim, Mills—and more contemporary approaches found in the works of Michel Foucault and Dorothy Smith. Building on this theoretical grounding, the text outlines core concepts in sociology as well as major social institutions such as families, the economy and labour, education, health care, and media. Covering a wide breadth of topics, including chapters on animals, the environment, crime, trans issues, class, ethnicity, and race, this new edition explores critical debates in Canadian society with an emphasis on intersectional approaches to social inequalities. This volume is rich with pedagogical features that promote critical understanding, including detailed introductions that speak to the contextual history of the source material and discussion questions for each section. Uniquely designed for introductory courses, Rethinking Society in the 21st Century is the ideal reader for Canadian students of sociology.

Introduction to Sociology 2e - Heather Griffiths 2017-12-31

Introduction to Sociology 2e adheres to the scope and sequence of a typical, one-semester introductory sociology course. It offers comprehensive coverage of core concepts, foundational scholars, and emerging theories, which are supported by a wealth of engaging learning materials. The textbook presents detailed section reviews with rich questions, discussions that help students apply their knowledge, and features that draw learners into the discipline in meaningful ways. The second edition retains the book's conceptual organization, aligning to most courses, and has been significantly updated to reflect the latest research and provide examples most relevant to today's students. In order to help instructors transition to the revised version, the 2e changes are described within the preface. The images in this textbook are grayscale. Authors include: Heather Griffiths, Nathan Keirns, Eric Strayer, Susan Cody-Rydzewski, Gail Scaramuzzo, Tommy Sadler, Sally Vyain, Jeff Bry, Faye Jones

The Sociology of Gender - Amy S. Wharton 2009-02-04

Gender is one of the most important topics in the field of sociology, and as a system of social practices it inspires a multitude of theoretical approaches. The Sociology of Gender offers an introductory overview of gender theory and research, offering a unique and compelling approach. Treats gender as a multilevel system operating at the individual, interactional, and institutional levels. Stresses conceptual and theoretical issues in the sociology of gender. Offers an accessible yet intellectually sophisticated approach to current gender theory and research. Includes pedagogical features designed to encourage critical thinking and debate. Closer Look readings at the end of each chapter give a unique perspective on chapter topics by presenting relevant articles by leading scholars.

Ways of Social Change - Garth Massey 2015-07-13

"Ways of Social Change is very readable and has great discussion questions and suggested activities. It is one of the few books where I

have had students volunteer praise for the book!" - Connie Robinson, Central Washington University The world is at our fingertips, but understanding what is going on has never been more daunting. Ways of Social Change is a primer for making sense of both rapidly moving events and the cultural and structural forces on which social life is built, while teaching critical thinking skills needed to understand social change. With an approach that is fresh, timely, challenging, and engaging, Ways of Social Change shows students how social change is both a lived experience and the result of our actions in the world. It invites the reader into the realm of social science, where clarification, understanding, and inquiry provide for both informed opinions and a path to effective involvement. The core of the book focuses on five forces that powerfully influence the direction, scope and speed of social change: science and technology, social movements, war and revolution, large corporations, and the state. A concluding chapter encourages students to examine their own perspectives and offers ways to engage in social change, now and in their lifetime.

Race in America - Matthew Desmond 2020-07

With a groundbreaking intersectional approach framed around social spheres, Race in America gives students the tools to think critically about race, racism, and white privilege. In this thoroughly updated Second Edition, students will find relevant examples drawn from the headlines and their own experiences. New features in the text and online help students see the "big picture"—and how they can participate in the fight for racial equality.

Breaking Ranks - Matthew C. Gutmann 2010-08-04

"Breaking Ranks eloquently documents the many ways that militarism infiltrates ordinary lives, and is a powerful reminder of the personal costs of war. A model of sensitive and perceptive analysis of oral history interviews, Breaking Ranks reaches its audience on many levels. It is essential reading for anyone concerned about better connecting intellectually and humanly with the current political moment."—Robert A. Rubinstein, The Maxwell School of Syracuse University "Breaking Ranks is extraordinarily well written, lively and compelling. This is the first book to combine gripping, personal stories of anti-war Iraq and Afghanistan veterans with rigorous academic analysis."—Aaron Glantz, author of The War Comes Home: Washington's Battle Against America's Veterans "As Matthew Gutmann and Catherine Lutz show in this timely and important book, soldiers can and do think on their own and come to political and ethical conclusions that often run contrary to what the military might want, expect, or portray. In Breaking Ranks, Gutmann and Lutz give us a valuable addition to our understanding of soldiers, politics, and ethics."—Andrew Bickford, George Mason University

Society - John J. Macionis 2002

Placing an emphasis on global perspectives and current research, this wide praised and adopted sociology textbook introduces the reader to the field of sociology. & John Macionis, like many people, took a college course that shaped his life. His first sociology course helped him make sense of the world. John shares his enthusiasm, excitement, and teaching experience through a clear and engaging writing style and emphasis on sociology's relevance to everyday life.

Children's Books in Print, 2007 - 2006

Teaching Transformations 2010 - Mohammad H. Tamdgidi 2010-03-01

The Spring 2010 (VIII, 1) issue of Human Architecture: Journal of the Sociology of Self-Knowledge includes faculty and student papers and contributions from the 2010 Annual Conference of the Center for the Improvement of Teaching at UMass Boston on topics: "Constructing the Innocence of the First Textual Encounter," "Examining a First Amendment Court Case to Teach Argument Analysis to Freshman Writers at an Art College," "The Absent Professor: Rethinking Collaboration in Tutorial Sessions," "Visual Literacy for the Enhancement

of Inclusive Teaching," "When Literature Is Evangelical: Pedagogies of Passion," "Creating Networking Communities Beyond the Classroom," "Framing Cultural Diversity Courses Post U.S. 2008 Presidential Elections," "The Difference Between You and Me: Faculty Identities at Play in the Classroom," "Toward a Non-Eurocentric Social Psychology: The Contribution of the Yogacara," "Service-Learning and Authenticity Achievement," "Academic Achievement of Turkish and American Students," "The Miseducation of Ms. M," "Culturelessness and Culture Shock: An American-Asian Experience," "From Construction to Social Work: Finding Value in Helping Others," "My Work Utopia: Pursuing A Satisfactory Work Life Amid an Alienating World," and "The Loss of a Culture with an Accent: A Sociological Reflection on My Assimilation into the American Culture." Contributors: Alex Mueller, Cheryl Nixon, Rajini Srikanth, Angelika Festa, Arianne Baker, Kristi Girdharry, Meghan Hancock, Rebecca Katz, Meesh McCarthy, Jesse Priest, Megan Turilli, Mary Ball Howkins, J. Ken Stuckey, Apostolos Koutropoulos, Marjorie Jones, Suzanne M. Buglione, James William Coleman, John W. Murphy, Dana Rasch, Eyyup Esen, Melanie Robinson, Tara Cianfrocca, Albert Marks, Irene Hartford, Dora Joseph, Anna Beckwith (also as journal issue guest editor), Vivian Zamel (also as journal issue guest editor), and Mohammad H. Tamdgidi (also as journal editor-in-chief). Human Architecture: Journal of the Sociology of Self-Knowledge is a publication of OKCIR: The Omar Khayyam Center for Integrative Research in Utopia, Mysticism, and Science (Utopystics). For more information about OKCIR and other issues in its journal's Edited Collection as well as Monograph and Translation series visit OKCIR's homepage.

The Economic Sociology of Immigration - Alejandro Portes 1995-06-22
 "Portes suggests that immigration constitutes an especially appropriate Mertonian 'strategic research site' for economic sociology in that it provides very good opportunities for investigating the embeddedness of economic relationships in social situations....the contributors expand the conventional domain of economic sociology quite literally in both time and space."—Contemporary Sociology "Alejandro Portes and his splendid band of collaborators make clear that the causes, processes, and consequences of migration vary dramatically from group to group, that a group's history makes a profound difference to its fate in the American economy. They have produced a sinewy book, a book worth arguing with."—Charles Tilly, Columbia University
 The Economic Sociology of Immigration forges a dynamic link between the theoretical innovations of economic sociology with the latest empirical findings from immigration research, an area of critical concern as the problems of ethnic poverty and inequality become increasingly profound. Alejandro Portes' lucid overview of sociological approaches to economic phenomena provides the framework for six thoughtful, wide-ranging investigations into ethnic and immigrant labor networks and social resources, entrepreneurship, and cultural assimilation. Mark Granovetter illustrates how small businesses built on the bonds of ethnicity and kinship can, under certain conditions, flourish remarkably well. Bryan R. Roberts demonstrates how immigrant groups' expectations of the duration of their stay influence their propensity toward entrepreneurship. Ivan Light and Carolyn Rosenstein chart how specific metropolitan environments have stimulated or impeded entrepreneurial ventures in five ethnic populations. Saskia Sassen provides a revealing analysis of the unexpectedly flexible and vital labor market networks maintained between immigrants and their native countries, while M. Patricia Fernandez Kelly looks specifically at the black inner city to examine how insular cultural values hinder the acquisition of skills and jobs outside the neighborhood. Alejandro Portes also depicts the difference between the attitudes of American-born youths and those of recent immigrants and its effect on the economic success of immigrant children.

Readings for Sociology - Garth Massey

You May Ask Yourself - Dalton Conley 2017

Seven Moralities of Human Resource Management - T. Klikauer 2014-10-28

Seven Moralities of Human Resource Management analyses morality of HRM from the perspective of American psychologist Laurence Kohlberg. This book examines and makes value judgements on whether or not HRM is moral from the viewpoint of Kohlberg's seven stages of morality as a follow-up study of the author's 2012 book, Seven Management Moralities.

Sociology in Modules - Richard T. Schaefer 2017-02-14

Sociology in Modules offers approachable content in a well-organized, flexible teaching format. The comprehensive program allows instructors

to choose the content they'd like to present and introduce it in a layout that students can manage. Connect, the proven online experience, adapts to student's learning needs, enhancing the understanding of topics and developing their sociological imagination.

The Age of Migration - Hein de Haas 2019-11-21

Long established as the leading textbook on migration and used by students and scholars alike all over the world, this fully revised and updated sixth edition continues to offer an authoritative and cutting-edge account of migration flows, why they occur, and their consequences for both origin and destination societies. International migration is one of the most emotive issues of our times, reforging societies around the world and shaping debates on security, national identity and sovereignty in profound ways. The expert authors of this book provide a truly global and interdisciplinary introduction to this perennially important topic, with chapters covering all of the world's regions and spanning the nineteenth century to the present day. Exploring the significance of migration in relation to recent events and emerging trends, from the policies of the European Union to the Great Recession, this text helps to shed light on the often large gap between the rhetoric and realities of migration. For students of migration studies in disciplines as wide ranging as politics, sociology, geography, area studies, anthropology and history this is an indispensable guide, whether already familiar with the subject matter or approaching the topic for the first time. New to this Edition: - Charts the contemporary politics of migration, including the latest statistical data, summary of policy developments and shifts toward anti-immigrant politics and Islamophobia - A brand new chapter on Categories of Migration used to describe migrants and analyse migration, including a discussion on the topical issue of 'climate refugees' - Extended discussion of the impacts of migration and development in origin countries in a new separate chapter at the end of the book - Improved coverage of migration trends in the former Soviet Union and Eastern Europe and Central Asia - Offers a better balance between Western and non-Western regions and perspectives on migration - Draws on up-to-date global data on migration and migration policies - A 'Migration Policy Toolbox', providing a comprehensive overview of different types of migration policies - A new glossary with definitions of key terms in migration, which are also highlighted throughout the text
 Accompanying online resources for this title can be found at bloomsburyonlineresources.com/the-age-of-migration-6th-edition. These resources are designed to support teaching and learning when using this textbook and are available at no extra cost. The Age of Migration is published by Bloomsbury Academic. In the United States and its dependencies, Canada, Mexico and the Philippines, it is distributed under licence by Guildford Press.

An Introduction to Sociology - Anthony Giddens 2000-04-01

The Second Media Age - Mark Poster 2018-03-08

This book examines the implications of new communication technologies in the light of the most recent work in social and cultural theory and argues that new developments in electronic media, such as the Internet and Virtual Reality, justify the designation of a "second media age".

Annotated Instructors Edition - John J. Macionis 2002-01-10

The Basics of Sociology - Kathy S. Stolley 2005

Provides an introduction to core concepts in sociology. Presents both classic studies and current references to illustrate sociological concepts. Examines what sociology is, why sociology is important, and why we study it. Demonstrates how various social forces impact our lives and form our social experiences.

Contemporary Readings in Sociology - Kathleen Odell Korgen 2008-02-29

Contemporary Readings in Sociology selects some of the most contemporary, engaging, and esteemed journal articles in the field and presents them in a well-edited format, making them perfect for undergraduate students. Giving students access to the important topics in sociology through the words of original authors, this comprehensive reader provides an opportunity for students to explore important topics in depth. Key Features and Benefits Focuses on teaching the "sociological eye," or sociological perspective, to undergraduate students so they can learn more about the activities of actual sociologists Features rigorous research in an edited format, making important articles more accessible for-and still challenging to-undergraduate students Offers an emphasis on contemporary readings to introduce students to cutting-edge sociology research Includes more than 30 readings, including articles on social interaction, social institutions, the media, deviance,

social stratification, race and ethnicity, sex and gender, global issues, and social movements, providing a well-rounded collection of original material on core topics. Combines an array of unique pedagogy to make the reader even more valuable and user-friendly, including a topics guide to help instructors choose the best readings for specific course subjects, a detailed list of Internet resources, and discussion questions for each article. Intended Audience: With a large number of readings, this affordable, supplemental reader is flexible and appropriate for Introduction to Sociology, Principles of Sociology, Social Problems, or Special Topics courses in sociology. Learn more about SAGE & Pine Forge's Contemporary Readings in *Series* at www.pineforge.com/contemporaryreadings.

The Sociology of Space - Martina Löw 2016-09-09

In this book, the author develops a relational concept of space that encompasses social structure, the material world of objects and bodies, and the symbolic dimension of the social world. Löw's guiding principle is the assumption that space emerges in the interplay between objects, structures and actions. Based on a critical discussion of classic theories of space, Löw develops a new dynamic theory of space that accounts for the relational context in which space is constituted. This innovative view on the interdependency of material, social, and symbolic dimensions of space also permits a new perspective on architecture and urban development.

The Real World - Kerry Ferris 2018

"In every chapter, Ferris and Stein use examples from everyday life and pop culture to draw students into thinking sociologically and to show the relevance of sociology to their relationships, jobs, and future goals. Data Workshops in every chapter give students a chance to apply theoretical concepts to their personal lives and actually do sociology.

The Inequality Reader David Grusky 2018-04-19

Oriented toward the introductory student, *The Inequality Reader* is the essential textbook for today's undergraduate courses. The editors, David B. Grusky and Szonja Szelenyi, have assembled the most important classic and contemporary readings about how poverty and inequality are generated and how they might be reduced. With thirty new readings, the second edition provides new materials on anti-poverty policies as well as new qualitative readings that make the scholarship more alive, more accessible, and more relevant. Now more than ever, *The Inequality Reader* is the one-stop compendium of all the must-read pieces, simply the best available introduction to the stratification canon.

Sociology - John J. Macionis 2012

This textbook provides a survey of sociology. As the scientific study of society, sociology is a social science which uses various methods of empirical investigation and critical analysis to develop a body of knowledge about human social activity. It focuses on the influence of our relationships around us and how they affect our behaviors and attitudes. The author approaches this subject with a desire to help students find and use sociology in everyday life.

Introducing Sociology Using the Stuff of Everyday Life - Josee Johnston 2017-01-06

The challenges of teaching a successful introductory sociology course today demand materials from a publisher very different from the norm. Texts that are organized the way the discipline structures itself intellectually no longer connect with the majority of student learners. This is not an issue of pandering to students or otherwise seeking the lowest common denominator. On the contrary, it is a question of again making the practice of sociological thinking meaningful, rigorous, and relevant to today's world of undergraduates. This comparatively concise, highly visual, and affordable book offers a refreshingly new way forward to reach students, using one of the most powerful tools in a sociologist's teaching arsenal—the familiar stuff in students' everyday lives throughout the world: the jeans they wear to class, the coffee they drink each morning, or the phones their professors tell them to put away during lectures. A focus on consumer culture, seeing the strange in the familiar, is not only interesting for students; it is also (the authors suggest) pedagogically superior to more traditional approaches. By engaging students through their stuff, this book moves beyond teaching about sociology to helping instructors teach the practice of sociological thinking. It moves beyond describing what sociology is, so that students can practice what sociological thinking can do. This pedagogy also posits a relationship between teacher and learner that is bi-directional. Many students feel a sense of authority in various areas of consumer culture, and they often enjoy sharing their knowledge with fellow students and with their instructor. Opening up the sociology classroom to discussion of these topics validates students' expertise on their own life-worlds.

Teachers, in turn, gain insight from the goods, services, and cultural expectations that shape students' lives. While innovative, the book has been carefully crafted to make it as useful and flexible as possible for instructors aiming to build core sociological foundations in a single semester. A map on pages ii-iii identifies core sociological concepts covered so that a traditional syllabus as well as individual lectures can easily be maintained. Theory, method, and active learning exercises in every chapter constantly encourage the sociological imagination as well as the "doing" of sociology.

Sociology, Work and Industry - Tony Watson 2002-09-11

First published in 2002. Routledge is an imprint of Taylor & Francis, an informa company.

Readings for Sociology - Garth Massey 2015-02-24

The perfect mix of classic and contemporary readings.

The Protestant Ethic and the Spirit of Capitalism - Max Weber 2012-04-19

Author's best-known and most controversial study relates the rise of a capitalist economy to the Puritan belief that hard work and good deeds were outward signs of faith and salvation.

Sociology - Joan Ferrante 2011

SOCIOLOGY: A GLOBAL PERSPECTIVE, Enhanced International Edition, introduces you to the concepts and theories of sociology, demonstrates how they can be used to think about the most significant and pressing global issues of our day, and uses powerful visual images to illustrate their impact on individuals, local communities, and society. The enhanced seventh edition has been substantially updated to reflect the current global economic crisis.

You May Ask Yourself - Dalton Conley 2021-02-19

The bestselling "untextbook" that makes the familiar strange

Essentials of Sociology Richard P. Appelbaum 2017-07

With a combination of up-to-the minute examples, cutting-edge research, and the latest available data, *Essentials of Sociology* gets students thinking sociologically about what they're seeing in the news and on their screens. Highlighting the macro social forces at work in our everyday lives, the authors move students beyond their individual experiences and cultivate their sociological imaginations. Innovative pedagogy promotes active reading and helps students master core sociological concepts. This strong in-text pedagogical program is now supported by InQuizitive, Norton's new formative, adaptive learning tool.

Individual and Society - Lizabeth Crawford 2013-12-17

Unlike other texts for undergraduate sociological social psychology courses, this text presents the three distinct traditions (or "faces") in sociological social psychology (symbolic interactionism, social structure and personality, and group processes and structures) and emphasizes the different theoretical frameworks within which social psychological analyses are conducted within each research tradition. With this approach, the authors make clear the link between "face" of sociological social psychology, theory, and methodology. Thus, students gain an appreciably better understanding of the field of sociological social psychology; how and why social psychologists trained in sociology ask particular kinds of questions; the types of research they are involved in; and how their findings have been, or can be, applied to contemporary societal patterns and problems. Great writing makes this approach successful and interesting for students, resulting in a richer, more powerful course experience. A website offers instructors high quality support material, written by the authors, which you will appreciate and value."

SAGE Readings for Introductory Sociology Kimberly McGann 2021-03-03

This brief anthology for introductory sociology is a collection of 24 short readings that illustrate key concepts in sociology, relate to the everyday lives of students, and spark good classroom discussions. The selections represent four theoretical traditions in sociology (functionalism, symbolic interaction, conflict theory, feminism) and show the range and diversity of sociology and the people who practice it. The book is designed for instructors who want to expose students to some original scholarship in their first sociology course, but who do not want to adopt a comprehensive reader along with the core text they are using.

World City - Doreen Massey 2013-04-23

Cities around the world are striving to be 'global'. This book tells the story of one of them, and in so doing raises questions of identity, place and political responsibility that are essential for all cities. *World City* focuses its account on London, one of the greatest of these global cities. London is a city of delight and of creativity. It also presides over a country increasingly divided between North and South and over a neo-

liberal form of globalisation - the deregulation, financialisation and commercialisation of all aspects of life - that is resulting in an evermore unequal world. *World City* explores how we can understand this complex narrative and asks a question that should be asked of any city: what does this place stand for? Following the implosion within the financial sector, such issues are even more vital. In a new Preface, Doreen Massey addresses these changed times. She argues that, whatever happens, the evidence of this book is that we must not go back to 'business as usual', and she asks whether the financial crisis might open up a space for a deeper rethinking of both our economy and our society.

Color Behind Bars: Racism in the U.S. Prison System [2 volumes] - Scott Wm. Bowman 2014-08-11

A diverse, critical analysis of racial and ethnic disparities within the American criminal justice system that encourages critical thinking by providing various sides to the issues. • Presents a historical examination of racial and ethnic influences in the early formation of the criminal justice system • Allows readers to identify the ways in which our prison system has changed throughout history regarding racism—and the ways in which it has remained the same • Provides a critical analysis of the current race- and ethnicity-based criminal justice system • Identifies intersectionalities of race/ethnicity and socioeconomic status within the criminal justice system

Our Social World Jeanne H. Ballantine 2011-10-26

In this brief text, two leaders of the Teaching Sociology movement encourage students' development of their sociological imaginations through role-taking. Assuming the role of a child living in poverty in India or of a member of an African tribe, students learn to re-envision their global society. An innovative, integrated framework provides core sociological concepts, while features such as Contributing to Our Social World enable students to "do" public sociology. *Our Social World: Condensed Version* presents the perspective of students living in the larger global world.

Seven Management Moralities - T. Klikauer 2012-09-18

For the first time, *Seven Management Moralities* delivers a comprehensive overview of all forms of moral and immoral behaviour displayed by management. Utilising Kohlberg's ascending scale of seven moralities, the book includes the ethics of Aristotle, Kant, Utilitarianism, Bauman, Habermas, and Singer.

The Content Analysis Guidebook Kimberly A. Neuendorf 2017

Content analysis is a complex research methodology. This book provides an accessible text for upper level undergraduates and graduate students, comprising step-by-step instructions and practical advice.

New Faces in New Places - Douglas S. Massey 2008-02-01

Beginning in the 1990s, immigrants to the United States increasingly bypassed traditional gateway cities such as Los Angeles and New York to settle in smaller towns and cities throughout the nation. With immigrant communities popping up in so many new places, questions about ethnic diversity and immigrant assimilation confront more and more Americans. *New Faces in New Places*, edited by distinguished sociologist Douglas Massey, explores today's geography of immigration and examines the ways in which native-born Americans are dealing with their new neighbors. Using the latest census data and other population surveys, *New Faces in New Places* examines the causes and consequences of the shift toward new immigrant destinations. Contributors Mark Leach and Frank Bean examine the growing demand for low-wage labor and lower housing costs that have attracted many immigrants to move beyond the larger cities. Katharine Donato, Charles Tolbert, Alfred Nucci, and Yukio Kawano report that the majority of Mexican immigrants are no longer single male workers but entire families, who are settling in small towns and creating a surge among some rural populations long in decline. Katherine Fennelly shows how opinions about the growing immigrant population in a small Minnesota town are divided along socioeconomic lines among the local inhabitants. The town's leadership and professional elites focus on immigrant contributions to the economic development and the diversification of the community, while working class residents fear new immigrants will bring crime and an increased tax burden to their communities. Helen Marrow reports that many African Americans in the rural south object to Hispanic immigrants benefiting from affirmative action even though they have just arrived in the United States and never experienced historical discrimination. As Douglas Massey argues in his conclusion, many of the towns profiled in this volume are not equipped with the social and economic institutions to help assimilate new immigrants that are available in the traditional immigrant gateways of New York, Los Angeles, and Chicago. And the continual replenishment of the flow of immigrants may adversely affect the nation's perception of how today's newcomers are assimilating relative to previous waves of immigrants. *New Faces in New Places* illustrates the many ways that communities across the nation are reacting to the arrival of immigrant newcomers, and suggests that patterns and processes of assimilation in the twenty-first century may be quite different from those of the past. Enriched by perspectives from sociology, anthropology, and geography *New Faces in New Places* is essential reading for scholars of immigration and all those interested in learning the facts about new faces in new places in America.
