The Garden Next Door - José Donoso 1994-01

A Chilean writer named Julio and his wife, Gloria, are at a low point in their lives. Constantly bickering, the pair are beset by worries about money, their writing, and their son (who may or may not be plying the oldest profession in Marrakesh). When Julio's boyhood best friend, now a famous artist, lends the couple his luxurious Madrid apartment for the summer, it is an escape for both - but in particular for Julio, who fantasizes about the garden next door and the erotic life of the lovely young aristocratic woman who inhabits it. But Julio's life - and career - unravel in Madrid: he is rebuffed by a famous literary agent, Nuria Monclus, who detests him and his novel; his son's friend from Marrakesh moves in and causes havoc; and Gloria begins to drink. In the face of pitiless adversity, Julio's talent inexorably begins to fade. The garden next door, however, is also Gloria, who has been doing some creating of her own. It is this twist that transforms Donoso's brilliant satire of the writer's life into something even greater: a carefully crafted and bitingly comic meditation on gardens, deceit, and the nature of a writer's muse.

The Best Intentions - Ingmar Bergman 1994-06

In this original, extraordinarily moving, and highly personal novel, world-renowned stage and film director Ingmar Bergman goes back to the time of his parents and grandparents, to the years shortly before, during, and

just after World War I. Set in the decade beginning in 1908, *The Best Intentions* is, ultimately, a love story on many different levels: a man and woman in love; parents and children; and love as miracle, that love which is overriding and, so often, inexplicable. Bergman was inspired to write this loosely biographical novel when he began rummaging through the voluminous family picture albums. That, plus family letters and records, and his own memories and unique imagination, helped him recreate this lost world in evocative and graphic detail. Henrik is a poor divinity student. Anna is the much loved but slightly pampered daughter of bourgeois parents. They fall in love and, after a long and tortuous courtship, marry, despite the objections of Anna's parents - especially of Anna's mother, Karin. Karin uses everything in her power, including deceit, first to prevent the marriage, then to break it up. Yet, even her basest actions are never monstrous but filled with good intentions. In fact, all the characters act with the "best intentions", however wrongheaded their behavior. "That Bergman can extend sympathy to such behavior is a great and generous gesture, one that allows him to create characters of astonishing depth", wrote Caryn James in the *New York Times*. Incorporating some of the elements of stage and screen, including filmic dialogues and personal "asides", which he weaves artfully into the narrative flow, Bergman has written a novel of great beauty and uncompromising honesty, a work filled with joy and sadness, sacrifice and reconciliation - and above all, abiding love.

Classic Set Theory - D.C. Goldrei 2017-09-06

Designed for undergraduate students of set theory, *Classic Set Theory* presents a modern perspective of the classic work of Georg Cantor and Richard Dedekind and their immediate successors. This includes: The definition of the real numbers in terms of rational numbers and ultimately in terms of natural numbers Defining natural numbers in terms of sets The potential paradoxes in set theory The Zermelo-Fraenkel axioms for set theory The axiom of choice The arithmetic of ordered sets Cantor's two sorts of transfinite number - cardinals and ordinals - and the arithmetic of these. The book is designed for students studying on their own, without access to lecturers and other reading, along the lines of the internationally renowned courses produced by the Open University. There are thus a large number of exercises within the main body of the text designed to help students engage with the subject, many of which have full teaching solutions. In addition, there are a number of exercises without answers so students studying under the guidance of a tutor may be assessed. *Classic Set Theory* gives students sufficient grounding in a rigorous approach to the revolutionary results of set theory as well as pleasure in being able to tackle significant problems that arise from the theory.

200 - Four Hundred Images Are Worth More Than Four Hundred Thousand - Horacio González 2010

Celebrating Argentina's bicentennial, and curated by Guido Indij, *200* resembles a museum in book form. It presents images of Argentina from 1851 to the present day; each year is represented by a single image of its two most extraordinary events. By focusing on only two graphic representations per year, the publication seeks to expose Argentina as it really is: a country of extremes and contrasts. Consequently, an image of an early stock exchange meeting might be juxtaposed against one of street merchants; a vision of a mother dying of typhoid fever might appear alongside a photograph of the equatorial telescope; an image of a lone poetess contrasts a Nazi protest and a cartoon of Mafalda sets off a photograph of the sexy starlet Isabel Sarli. Through this record of unique perspectives, *200* attests to the varied voices that have built the country's

common lore.
