Folk Devils and Moral Panics Stanley Cohen 2011

'Richly documented and convincingly presented' -- New Society Mods and Rockers, skinheads, video nasties, designer drugs, bogus asylum seekers and hoodies. Every era has its own moral panics. It was Stanley Cohen's classic account, first published in the early 1970s and regularly revised, that brought the term 'moral panic' into widespread discussion. It is an outstanding investigation of the way in which the media and often those in a position of political power define a condition, or group, as a threat to societal values and interests. Fanned by screaming media headlines, Cohen brilliantly demonstrates how this leads to such groups being marginalised and vilified in the popular imagination, inhibiting rational debate about solutions to the social problems such groups represent. Furthermore, he argues that moral panics go even further by identifying the very fault lines of power in society. Full of sharp insight and analysis, *Folk Devils and Moral Panics* is essential reading for anyone wanting to understand this powerful and enduring phenomenon. Professor Stanley Cohen is Emeritus Professor of Sociology at the London School of Economics. He received the Sellin-Glueck Award of the American Society of Criminology (1985) and is on the Board of the International Council on Human Rights. He is a member of the British Academy.

Fred & Rose - Howard Sounes 2017-03-14

The definitive account of one of Britain's most notorious killer couples, who loved, tortured, and slayed together as husband and wife. Updated with a new afterword from the author on the twenty-fifth anniversary of the arrests. From the outside, 25 Cromwell Street in Gloucester, England, looked as commonplace as the married couple who lived there. But in 1994, Fred and Rose West's home would become infamous as a "house of horrors" when the remains of nine young women—many of them decapitated, dismembered, and showing evidence of sexual torture—were found interred under its cellar, bathroom floor, and garden. And this wasn't the only burial ground: Fred's first wife and nanny were unearthed miles away in a field, while his eight-year-old stepdaughter was found entombed under the Wests' former residence. Yet, for more than twenty years, the twosome maintained a façade of normalcy while abusing and murdering female boarders, hitchhikers, and members of their own family. Howard Sounes, who first broke the story about the Wests as a journalist and covered the murder trial, has written a comprehensive account of the case. Beginning with Fred and Rose's bizarre childhoods, Sounes charts their lives and crimes in forensic detail, constructing a fascinating and frightening tale of a marriage soaked in blood. Indeed, the total number of the Wests' victims may never be known. A case reminiscent of the "Moors Murders" committed in the 1960s in Manchester by Myra Hindley and

Ian Brady—as if Hindley and Brady had married and kept on killing for decades—Fred & Rose "is a story of obsessive love as well as obsessive murder" (The Times, London).

Farrington 2008-10-08

After decades of rigorous study in the United States and across the Western world, a great deal is known about the early risk factors for offending. High impulsiveness, low attainment, criminal parents, parental conflict, and growing up in a deprived, high-crime neighborhood are among the most important factors. There is also a growing body of high quality scientific evidence on the effectiveness of early prevention programs designed to prevent children from embarking on a life of crime. Drawing on the latest evidence, *Saving Children from a Life of Crime* is the first book to assess the early causes of offending and what works best to prevent it. Preschool intellectual enrichment, child skills training, parent management training, and home visiting programs are among the most effective early prevention programs. Criminologists David Farrington and Brandon Welsh also outline a policy strategy--early prevention--that uses this current research knowledge and brings into sharper focus what America's national crime fighting priority ought to be. At a time when unacceptable crime levels in America, rising criminal justice costs, and a punitive crime

policy have spurred a growing interest in the early prevention of delinquency, Farrington and Welsh here lay the groundwork for change with a comprehensive national prevention strategy to save children from a life of crime.
