Study Guide for Wong's Nursing Care of Infants and Children - E-Book - Marilyn J. Hockenberry 2015-01-01

Master pediatric nursing concepts and apply them to the practice setting! Corresponding to the chapters in Wong's Nursing Care of Infants and Children, 10th Edition, by Marilyn Hockenberry and David Wilson, this study guide reinforces your understanding of pediatric nursing with learning activities, review questions, and case studies with critical thinking questions. A variety of question types includes multiple-choice, matching, fill-in-the-blank, short answer, and true/false questions.

Critical thinking case studies apply concepts to real-world practice. An answer key is included in the back of the study guide. Perforated pages allow you to submit assignments to your instructor. Key terms are accompanied by definitions and help you learn important terminology.

Wong's Nursing Care of Infants and Children - Marilyn J. Hockenberry 2011

A most trusted authority in pediatric nursing, this book provides unmatched, comprehensive coverage of pediatric growth, development and conditions. Its unique 'age and stage' approach covers child development and health promotion as well as specific health problems organised by age groups and body systems.

Wong's Essentials of Pediatric Nursing - Marilyn J. Hockenberry 2020-09-03

Wong's Nursing Care of Infants and Children - Marilyn J. Hockenberry 2014-09-25

The leading text in pediatric nursing, Wong's Nursing Care of Infants and Children takes a unique, easy-to-understand developmental approach to describe the care of children at each age and stage of development. Childhood diseases and disorders are organized by age groups and body systems, and described through the nursing process framework. This edition includes updates on topics such as the new CPR guidelines, immunizations, and pain assessment and management. Written by pediatric experts, Dr. Marilyn Hockenberry and David Wilson, each with nearly 30 years of hands-on experience, this bestseller provides an evidence-based, clinical perspective that shows how the quality of nursing care can impact quality patient outcomes. A developmental approach addresses the differences at each stage of the child's growth and enables you to individualize care at the appropriate level for each child. UNIQUE! Quality Patient Outcomes are discussed for major childhood diseases and disorders, showing how nursing care directly impacts patient outcomes. Nursing Care Plans provide models for planning patient care, with rationales explaining why specific nursing interventions have been chosen, and include nursing diagnoses, patient/family goals, nursing interventions/rationales, expected outcomes, and NIC and NOC guidelines. A focus on family-centered care

emphasizes the role and influence of the family in health and illness with a separate chapter and Family-Centered Care boxes. Critical thinking exercises use case studies to help you test and develop your own analytical skills. Nursing Care Guidelines provide clear, step-by-step, detailed instructions on performing specific skills or procedures. Nursing Tips include helpful hints and practical, clinical information, and Nursing Alerts provide critical information that must be considered in providing care. An emphasis on wellness includes principles of health promotion and injury prevention for each age group. Drug Alerts highlight important drug-related information for safe, appropriate care. Pathophysiology Reviews explain complicated disease processes with illustrated summary boxes. Complementary & Alternative Therapy boxes include timely information on alternative medicine as a part of complete, comprehensive care. Atraumatic Care boxes contain techniques for care that minimize pain, discomfort, or stress, and provide guidance for performing procedures in a caring manner. Emergency Treatment boxes serve as a quick reference in critical situations. NEW! NCLEX® exam-style review questions allow you to test your understanding of text content and practice answering application-based NCLEX questions. NEW! Translating Evidence into Practice and Applying Evidence to Practice boxes help you apply research to support, guide, and improve the outcomes of nursing care. UPDATED content includes the new CPR guidelines, pain assessment and management, immunizations, asthma, and updated interventions. NEW! Community and Home Health Considerations boxes focus on wellness information and illness-related topics.

Study Guide for Wong's Nursing Care of Infants and Children - Marilyn J. Hockenberry 2018-10

Corresponding chapter by chapter to the completely reorganized and revised Wong's Nursing Care of Infants and Children, 11th Edition, this study guide helps you apply pediatric nursing concepts to real-world practice. It assesses, reinforces, and strengthens your understanding of pediatric nursing with learning activities, review questions, and case studies with critical thinking questions. Learning Key Terms - consisting

of matching and fill-in-the-blank questions - test your ability to define all key terms highlighted in each textbook chapter. An answer key for the review questions and learning activities is included in the back of the study guide. Pages are perforated, so submitting assignments is easy. Reviewing Key Concepts and Content includes questions in various formats to provide you ample opportunity to assess your knowledge and comprehension of information covered in the text. Activities include matching, fill-in-the-blank, true/false, short answer, and multiple choice to help you identify the core content of the chapter - and test your understanding upon completion of reading the chapter. Thinking Critically case-based activities require you to apply the concepts found in the chapters to solve problems, make decisions concerning care management, and provide responses to patient questions and concerns. Learning Key Terms consists of matching and fill-in-the-blank questions that let you test your ability to define all key terms highlighted in the corresponding textbook chapter. An answer key is included at the end of the Study Guide. Perforated pages allow you to submit assignments to your instructor. NEW! Updated chapter organization and content matches revised and reorganized text.

Wong's Essentials of Pediatric Nursing - Marilyn J Hockenberry
2016-10-03

BOPOD - Wong's Nursing Care of Infants and Children - Marilyn J. Hockenberry 2014-01-30

The most trusted authority in pediatric nursing, Wong's Nursing Care of Infants and Children provides unmatched, comprehensive coverage of pediatric growth, development, and conditions. Its unique 'age and stage' approach covers child development and health promotion as well as specific health problems organized by age groups and body systems. Leading pediatric experts Dr. Marilyn Hockenberry and David Wilson provide an evidence-based, clinical perspective based on nearly 30 years of hands-on experience. Easy to read and extensively illustrated, this edition focuses on patient-centered outcomes and includes updates on topics such as the late preterm infant, immunizations, the H1N1 virus,

and childhood obesity. A clear, straightforward writing style makes content easy to understand. Unique Evidence-Based Practice boxes help you apply both research and critical thought processes to support and guide the outcomes of nursing care. Unique Atraumatic Care boxes contain techniques for care that minimize pain, discomfort, or stress. Unique Critical Thinking exercises help you test and develop your own analytical skills. A unique focus on family content emphasizes the role and influence of the family in health and illness with a separate chapter, discussions throughout the text, and family-centered care boxes. Nursing Care Guidelines provide clear, step-by-step, detailed instructions on performing specific skills or procedures. Unique Emergency Treatment boxes serve as a quick reference for critical situations. Unique Cultural Awareness boxes highlight ways in which variations in beliefs and practices affect nursing care for children. A developmental approach identifies each stage of a child's growth. Health promotion chapters emphasize principles of wellness and injury prevention for each age group. Student-friendly features include chapter outlines, learning objectives, key points, references, and related topics and electronic resources to help you study and review important content. A community focus helps you care for children outside the clinical setting. Nursing Care Plans include models for planning patient care, with nursing diagnoses, patient/family goals, nursing interventions/rationales, expected outcomes, and NIC and NOC guidelines. Nursing Tips include helpful hints and practical, clinical information, and Nursing Alerts provide critical information that must be considered in providing care.

The Roy Adaptation Model Callista Roy 1999

Compact and consistent, this book focuses on the essentials of nursing practice and theory while integrating the conceptual framework of the Model into contemporary practice. Standardized nursing NANDA diagnoses are used consistently throughout the book.

Study Guide for Wong's Essentials of Pediatric Nursing - E-Book Marilyn J. Hockenberry 2013-12-27

valuable review of essential concepts and skills. Hands-on learning exercises and practical activities allow you to apply your knowledge to real-world scenarios. Learning exercises include key terms, multiple-choice questions, case studies, and critical thinking activities. Perforated pages offer flexibility and ease of use. Answers for review questions and learning activities at the back of the guide allow you to assess your mastery of the material. Completely updated content matches the textbook and provides a comprehensive review of essential pediatric nursing concepts and skills.

Core Curriculum for Neonatal Intensive Care Nursing - E-Book - AWHONN 2014-04-22

Perfect as a resource in the field or for exam preparation, this authoritative reference from the Association of Women's Health, Obstetric, and Neonatal Nurses (AWHONN) includes in-depth coverage of the most common neonatal disorders and their management. The concise outline format highlights the essentials of each condition including definition, etiology, pathophysiology, signs and symptoms, diagnostic tests, treatments, and outcomes to help you find important information quickly. This new edition also features an increased focus on evidence-based practice, new CAMTS and AAMS guidelines, new techniques for PICC placement, and changes to the Neonatal Resuscitation Program. All necessary information to prepare for the neonatal intensive care nursing certification examination is included. Concise outline format provides access to important nursing considerations associated with the management of the most common conditions in the neonate. Text provides a collaborative effort between the three most authoritative associations in neonatal intensive care nursing - AWHONN, AACN, and NANN. Information on families, ethics, legal issues, research, case management, and the transition to home acknowledge the full scope of neonatal nursing practice. NEW! CAMTS and AAMS guidelines, techniques for PICC placement, and changes to the Neonatal Resuscitation Program are just a few of the updates that reveal the importance the new edition places on safety practices and procedures. NEW! Updated chapter on Patient Safety includes selected

improvement strategies and resources for neonatal nurses to build a patient safety toolkit, discusses TeamSTEPPS (Team Strategies and Tools to Enhance Performance and Patient Safety), and recognizes human issues, such as shift work and fatigue. NEW! Increased focus on evidence-based practice for preterm infants, medications, and antepartum-intrapartum complications sets the standard for neonatal nursing practice. NEW! Strategies to promote inclusionary care better reflect nursing care today by focusing on family-centered care, comprehensive perinatal records, health care teams in the NICU, and best practices in the care of the late preterm infant. NEW! Comprehensively revised chapter on Immunology identifies risk factors for infection associated with term and preterm infants, distinguishes clinical symptoms and therapies associated with TORCHES CLAP spectrum infections, and includes prevention strategies for hospital-acquired infections. NEW! Thoroughly updated content and references reflect currency and technologic advances. NEW! Refocused chapter on Developmental Care guides the nurse to use assessment within the context of the environment and situation to initiate interventions in the moment or use patterns of responses for developing plans of care and presents core measures on evaluating developmental care practices in the NICU.

Whaley and Wong's Nursing Care of Infants and Children - Anne Rath Rentfro 1998-11-01

Test student retention and clinical decision making skills with a variety of well-crafted chapter questions and realistic pediatric case studies designed to enhance student learning through application. Chapters in this study guide directly correlate with the text of Whaley & Wong's Nursing Care of Infants and Children, 6th Edition. Answers are provided. 1999. 352 pp.

Maternal Child Nursing Care in Canada - E-Book - Lisa Keenan-Lindsay 2021-12-17

Featuring the most accurate, current, and clinically relevant information available, Perry's Maternal Child Nursing Care in Canada combines essential maternity and pediatric nursing information in one text.

Comprehensive coverage includes promotion of wellness and the care for persons experiencing common health concerns throughout the lifespan, care in childbearing, as well as the health care of children and child development in the context of the family. Health concerns, including physiological dysfunctions and special needs and illnesses, are also featured. This text provides a family-centred care approach that recognizes the importance of collaboration with families when providing care. Medication Alerts stress medication safety concerns for better therapeutic management. Safety Alerts highlighted and integrated within the content draw attention to developing competencies related to safe nursing practice. Research Focus boxes identify best practices by presenting evidence and how to apply the knowledge learned. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, supply resources and guidance, and illustrate nursing care in a variety of settings. Clinical reasoning case studies offer you opportunities to test and develop your analytical skills and apply knowledge in various settings. Cultural Awareness boxes explore beliefs and practices about pregnancy, childbirth, parenting, women's health concerns, and caring for sick children. Evidence-Informed Practice boxes highlight findings that confirm effective practices or that identify practices with unknown, ineffective, or harmful effects. Emergency boxes alert you to emergency situations and guide you step-by-step through emergency procedures. Family-Centred Care boxes highlight the needs or concerns of families that you should consider in providing family-centred care. Guidelines boxes outline nursing procedures in an easy-to-follow format. Home Care boxes detail important information that you need to deliver care to patients and families in the home setting. Medication Guide boxes include key information about medications used in maternity and newborn care, including their indications, adverse effects, and nursing considerations. Patient Teaching boxes assist you in helping patients and families become involved in their own care with optimal outcomes.

Essentials of Pediatric Nursing Targi Kyle 2014-06-15

Wong's Clinical Manual of Pediatric Nursing - E-Book - David Wilson 2014-04-14

Portable and convenient, Wong's Clinical Manual of Pediatric Nursing, 8th Edition is your "go-to" clinical guide for the care of children and their families, whether in the hospital, clinic, community setting, or home. It includes assessment tools that may be used in practice, nursing care plans for specific disorders, and new information on pediatric pain assessment and management. Evidence-based guidelines are updated and also include patient teaching instructions, so you'll find all information on a specific procedure in one location. Written by leading pediatric experts David Wilson and Marilyn Hockenberry, this reference includes a companion Evolve website with nursing care plans that may be customized and printed for use with individual patients. Complete, concise assessment data on general health, specific problems, nutrition, sleep, and growth and development is easy to access in the clinical setting. UNIQUE! Evidence-based interventions include guidelines for treating pediatric patients and providing information to their families and caregivers, with new interventions added on phototherapy and asthma inhalers. UNIQUE! Safety Alerts highlight safety information throughout the book. UNIQUE! Atraumatic Care boxes contain techniques for care that minimize pain, discomfort, and stress. Nursing Care Plans include guidelines and examples for developing care plans for patients, and a companion Evolve website allows you to modify, customize, and print these care plans. UNIQUE! A community focus includes guidelines to interventions, patient teaching, and home care, along with Community Focus boxes throughout book. Tables and charts for health promotion summarize nutrition, immunizations, safety and injury prevention, and parental guidance. Common laboratory test data is provided at your fingertips. UNIQUE! Modifiable Nursing Care Plans for 24 pediatric conditions are included in the care plan constructor on the companion Evolve website. UNIQUE! Patient teaching instructions on Evolve allow you to print and disseminate sets of easy-to-understand

instructions to caregivers, with 15 translated into Spanish. NEW Pain Assessment and Management unit presents pain management strategies for the neonate, child, and adolescent. NEW! Full-color photos of dermatologic conditions help you diagnose the pediatric dermatologic problems most commonly seen in practice.

Olds' Maternal-newborn Nursing and Women's Health Across the Lifespan - Michele R. Davidson 2012

Nurses working with childbearing families face a variety new challenges, including shortened lengths of hospital stay, the trend toward greater use of community-based and home care, and downsizing and mergers of health-care systems. This book is not only important reading for maternity nurses, but also can be used as an invaluable reference tool. the Eighth Edition of this popular book not only continues to emphasize the central role played by maternity nurses working with today's childbearing families, but also includes a global perspective, covering culture as a factor in relating to the wom

Study Guide for Perry's Maternal Child Nursing Care in Canada, E-Book - Lisa Keenan-Lindsay 2021-10-21

Wong's Essentials of Pediatric Nursing - Binder-Ready J. Hockenberry 2016-09-26

Binder-Ready Edition: This loose-leaf copy of the full text is a convenient, accessible, and customizable alternative to the bound book. With this binder-ready edition, you can personalize the text to match your unique study needs! Known for its accuracy, evidence-based focus, and engaging writing style, Wong's Essentials of Pediatric Nursing, 10th Edition has been the #1 title in the pediatric nursing market since it first published in 1980! Thoroughly revised to equip you with the latest research and guidelines for treating children today, it encourages a whole-body approach by beginning with child development and health promotion to better understand the later chapters on specific health problems. A new chapter featuring all systems cancers provides comprehensive information in one place. Nursing Care Plans now incorporate additional case studies to personalize interventions and promote critical thinking. A developmental approach clearly identifies key tasks, influences, and differences at each stage of a child's growth to help students provide appropriate, individualized care for each child. UNIQUE! Critical thinking case studies allow you to test and develop your analytical skills

in a variety of clinical situations. UNIQUE! Quality Patient Outcomes content in Nursing Care Management discussions for major diseases and disorders helps you understand how the care you provide directly impacts patient safety and promotes positive outcomes. Updated genetic content in the Developmental and Genetic Influences on Children chapter addresses rapidly changing and important information as it relates to children in health and illness. UNIQUE! Family focus includes a separate chapter on the role of the family in child health, family content throughout the text, and Family-Centered Care boxes that highlight information on patient teaching, home care, and incorporating the family in the child's care. UNIQUE! Translating Evidence into Practice boxes focus your attention on the application of research and critical thought processes to support and guide the outcomes of nursing care. UNIQUE! Atraumatic Care boxes guide you through performing procedures in a caring manner, promoting more positive experiences for children, families, and nurses. Drug Alerts throughout the text emphasize important drug information and point out potential safety issues. An emphasis on wellness offers health promotion and injury prevention strategies for each age group. Community Focus boxes provide resources and guidance on caring for children outside the clinical setting. Nursing Care Plans, including Nursing Diagnoses, Patient/Family Goals, Nursing Interventions/Rationales, and Expected Outcomes, provide you with a model for planning patient care. Research Focus boxes help you remain abreast of current studies that impact pediatric nursing today. Cultural content, integrated throughout the text and highlighted in Cultural Considerations boxes, exposes you to customs and beliefs of different cultures that influence child care, enhancing your ability to provide quality nursing care to ALL children and their families. Nursing Tips throughout the text offer helpful hints and practical, clinical information of a non-emergency nature. Nursing Alerts throughout the text provide you with critical information that must be considered in providing care. UNIQUE! Emergency Treatment boxes serve as a quick reference in critical situations. Nursing Care Guidelines boxes provide you with clear, step-by-step, detailed instructions for

performing specific skills or procedures. NEW! Updated content throughout, notably methods of measuring competency and outcomes (QSEN and others), ambiguous genitalia, pediatric measurements, guidelines, and standards as defined by the American Academy of Pediatrics, and clear definitions of adolescent and young adult, keeps you up-to-date on important topic areas. NEW! The Child with Cancer chapter includes all systems cancers for ease of access. NEW and UPDATED! Case Studies now linked to Nursing Care Plans to personalize interventions, while also providing questions to promote critical thinking.

Foundations of Maternal-Newborn and Women's Health Nursing - Sharon Smith Murray 2018-02-23

Make sure you fully understand how to care for women and newborns! Foundations of Maternal-Newborn and Women's Health Nursing, 7th Edition integrates essential maternity information into the overall continuum of nursing care to show how to provide safe care in the clinical setting. With easy-to-understand language, this updated text uses evidence-based guidelines and step-by-step instructions for assessments and interventions to help you quickly master key skills and techniques. Also emphasized is the importance of understanding family, communication, culture, patient teaching, and clinical decision making. This edition reflects the latest QSEN competencies, and the accompanying Evolve website includes review questions to prepare students for the NCLEX exam! Safety checks integrated into the content help you develop competencies related to safe nursing practice. Unfolding case studies help you apply what you've learned to practice. UPDATED Evidence-Based Practice boxes highlight the latest research and the most current QSEN (Quality and Safety Education for Nurses) practice guidelines for quality care. Patient teaching boxes provide teaching guidelines, including communication guides, directed at patients and families. Critical to Remember boxes highlight and summarize need-to-know information. Critical Thinking exercises focus on clinical situations designed to test your skills in prioritizing and critical thinking. Nursing Care Plans help you apply the nursing process to clinical situations. Chapter summaries appear at the end of each

chapter and help you review core content in each chapter while on the go. Updated Drug guides list important indications, adverse reactions, and nursing considerations for the most commonly used medications. Procedure boxes provide clear instructions for performing common maternity skills, with rationales for each step. UNIQUE! Therapeutic Communications boxes present realistic nurse-patient dialogues, identifying communication techniques and showing to respond when encountering communication blocks. Knowledge check helps you assess your mastery of key content. Glossary provides definitions of all key terms. NEW! Reorganized content integrates complications into standard family care, includes new sections on obesity, and recommendations for infant safe sleep environment and reductions of SIDS risk. NEW! Contributing content from known experts in the field of Maternal and Women's health include a former AWHONN president.

Pediatric Nursing - Kathryn Rudd 2013-10-10

All of the field's must-have information is delivered in an easy-to-grasp, visually clear and precise design.

Maternal-Child Nursing - Emily Slone McKinney 2008-12-22

This is a Pageburst digital textbook; Engaging and easy to read, this concise textbook offers just the right level of maternity and pediatric nursing coverage. It provides a solid foundation in normal body function, then builds on that knowledge to help you understand how to modify nursing care when the unexpected arises. Clear writing and interactive learning tools (including video and animation) reinforce key concepts and encourage you to think critically and apply what you've learned. Critical to Remember boxes highlight "need to know" information for quick and easy access. Critical Thinking Exercises challenge you to apply critical thinking and problem-solving skills to realistic clinical scenarios. Illustrated Procedure boxes provide clear, step-by-step instructions for performing key clinical nursing tasks. Nursing Care Plans in every clinical chapter help you learn to use the nursing process to develop individualized care for maternity and pediatric patients. Communications Cues provide practical verbal and nonverbal tips for communicating effectively with patients and families. Want to Know boxes offer helpful

patient teaching guidelines. Photo Stories use engaging pictures to demonstrate the types of care nurses provide in a variety of clinical settings. Pathophysiology boxes in pediatric chapters provide illustrated overviews of common disorders. Companion CD-ROM contains video clips, 3-D animations, illustrated skills, case studies with critical thinking questions, NCLEX® examination-style review questions, and an audio glossary complete with Spanish pronunciations. Evolve Student Resources Website offers up-to-date web links, video clips, resources for health care providers, review questions, and a variety of interactive exercises. Integrated electronic features match icons in the text, so you can use print and electronic resources more effectively together. Using Research to Improve Practice boxes help you determine proper care to reinforce best practice. Spanish translations are included for phrases commonly encountered with maternity and pediatric patients. Improved design makes the text easier to read, and up-to-date photos ensure accuracy.

Wong's Essentials of Pediatric Nursing9 - Marilyn J. Hockenberry
2013-01-01

Prepare to give pediatric patients the specialized care they deserve with the leading text in pediatric nursing. Written by pediatric experts, Wong's Nursing Care of Infants and Children, 11th Edition takes a unique, easy-to-follow developmental approach to describe the care of children at each age and stage of development. This longtime bestseller provides an evidence-based, clinical perspective that shows how the quality of nursing care can impact quality patient outcomes. Childhood diseases and disorders are organized by age groups and body systems and explained through the nursing process framework. This edition features completely updated and reorganized chapters that present content in a clear, easy-to-understand way. New Quality Indicator boxes paint a bigger picture of hospitals and how they look at quality and safety. A focus on family-centered care emphasizes the role and influence of the family in health and illness with a separate chapter and Family-Centered Care boxes. Emergency Treatment boxes serve as a quick reference in critical situations. Pathophysiology Reviews explain complicated disease processes with illustrated summary boxes. Quality Patient Outcomes are discussed for major childhood diseases and disorders, showing how nursing care directly impacts patient outcomes. Nursing Tips include helpful hints and practical, clinical information. Critical Thinking Case Studies help you test and develop your own analytical skills. Cultural Considerations provide cultural tips from clinical experts. Nursing Care Plans provide models for planning patient care, with rationales explaining why specific nursing interventions have been chosen, and include nursing diagnoses, patient/family goals, nursing interventions/rationales, expected outcomes, and NIC and NOC guidelines. Nursing Care Guidelines offer clear, step-by-step, detailed instructions on performing specific skills or procedures. Translating Evidence into Practice and Applying Evidence to Practice boxes help you apply research to support, guide, and improve the outcomes of nursing care. Atraumatic Care boxes contain techniques for care that minimize pain, discomfort, or stress, and provide guidance for performing

procedures in a caring manner. Community and Home Health Considerations boxes focus on wellness information and illness-related topics. Drug Alerts highlight important drug-related information for safe, appropriate care. Nursing Alerts provides critical information that must be considered in providing care. Research Focus boxes emphasize research with concise reviews of important evidence. NEW! Quality Indicator boxes present a bigger picture of hospitals and how they look at quality and safety, or Pediatric Clinical Quality Measures. EXPANDED! Added emphasis on the impact of genetics and genomics on pediatric nursing care. NEW and UPDATED! New information on Zika virus and Rotavirus keeps you in the know. NEW! New section on Chiari malformation added to neurologic dysfunction chapter. NEW! Self-harm, GLBT, and e-cigarette content added to adolescent problems chapter. UPDATED! Oxygen and carbon dioxide exchange information is now included throughout the text. EXPANDED! Updated accidental poisoning section now includes cleaning solutions and liquid from e-cigarettes. UPDATED! New Impact of Chronic Illness, Disability, or End of Life Care for the Child and Family chapter thoroughly combines two previous chapters. UPDATED! Integumentary dysfunction content now appears as chapter 32. UPDATED! Reorganized chapter on pain provides specific guidelines for pediatric pain assessment and management and focuses on common acute and chronic pain conditions and how to manage them. UPDATED! Human Papillomavirus content significantly updated. EXPANDED and UPDATED! Disorders with behavioral components section significantly expanded. UPDATED! Updated influenza, RSV, and acute lung injury section in respiratory chapter. UPDATED! Childhood cancer survivor section has significant updates.

Principles of Pediatric Nursing - Jane W. Ball 2014-03-27

Written for today's nurse, PRINCIPLES OF PEDIATRIC NURSING: CARING FOR CHILDREN, 5/e explores the conditions and nursing interventions for health conditions affecting children, adolescents and their families. Emphasizing research and evidence-based practice, it organizes material by body system instead of developmental stage, allowing faculty to teach pediatrics in integrated courses/short courses

without redundancy. This edition includes a new chapter on genetic and genomic influences, more emphasis on culturally competent care, and new features that emphasize clinical reasoning and health promotion. Designed to help students bridge the gap between classroom and clinical situations, the book emphasizes health promotion and maintenance, growth and development, and family-centered care. 0133937410 / 9780133937411 Principles of Pediatric Nursing: Caring for Children Plus MyNursingLab with Pearson eText -- Access Card Package Package consists of: 0132111756 / 9780132111751 Principles of Pediatric Nursing: Caring for 0133930882 / 9780133930887 MyNursingLab with Pearson eText -- Access Card -- for Principles of Pediatric Nursing: Caring for Children

Maternal & Child Nursing Care Marcia L. London 2015-03-06
 This dynamic, up-to-date text offers an integrated framework and philosophy for teaching the nursing of childbearing families and nursing of children together. Accurate, readable, and concise, Maternal & Child Nursing Care supports faster and more efficient learning in briefer, more compressed courses; while helping students develop essential skills for fast-changing healthcare environments. Core themes in this edition include family-centered and community-based care; health promotion (including Healthy People 2020); patient and family education; clinical reasoning; evidence-based practice, and developing cultural competence. This edition adds new Safety Alerts; more coverage of pain as the fifth vital sign; greater focus on care of families where a child is dying; and updated content on assessment, nutrition, communication, and many other key topics. Multiple pedagogical tools help students focus both learning and review, including intuitive Pathophysiology Illustrated visuals; Family Quotes presenting the family's perspective; Learning Outcomes and Critical Concept Review Features; Key Terms, and an online audio glossary.

Virtual Clinical Excursions Online and Print Workbook for Wong's Nursing Care of Infants and Children - Marilyn J. Hockenberry 2014-09-30

Child Health Nursing Jane W. Ball 2018-04-23

For courses in Pediatric Nursing. A comprehensive survey of family-centered pediatric nursing care *Child Health Nursing: Partnering with Children & Families* promotes excellence in nursing care for infants, children, and adolescents--in hospitals and in the community. It focuses on the importance of partnering with families to adapt care plans for children based on their age, health status, and social and cultural influences. The text considers the impact of contemporary care environments on nursing practice, both in health promotion and in the care of children with acute or chronic health conditions. By offering industry best practices and practical applications, the book encourages students to apply evidence-based findings and clinical reasoning to planning superior care. The updated 3rd edition explains how modern nursing practice is affected by reforms to healthcare and its delivery--such as electronic health records, new approaches to chronic and acute condition management, and a focus on prevention. To support safe, effective, and innovative care, this edition draws on the latest recommendations of NANDA International diagnoses, Nursing Intervention Classifications (NIC), Nursing Outcomes Classifications (NOC), and Healthy People 2020. Also available with MyLab Nursing MyLab(tm) Nursing is an online self-study and class preparation program designed to engage students and improve results. Its personalized learning path helps students think like nurses as they move beyond memorization to true understanding through application. Learn more. Pediatric Nursing Test Success - Susan Parnell Scholtz, PhD, RN
2014-08-13

This novel resource for course content review of pediatric nursing and NCLEX-RN preparation features a potent learning technique, the use of unfolding case studies to enhance critical thinking skills and enable students to think like a practicing nurse. Covering both basic and advanced nursing concepts of caring for children and families, this format embeds required content into compelling, real-life scenarios that evolve over time. These unfolding case studies are of particular value because they closely mimic real-life situations in nursing and provide situational mental models that assist students with problem-solving and critical thinking techniques. All content areas required for NCLEX-RN success are interwoven in an enjoyable format that dispels the drudgery of straightforward memorization. A variety of NCLEX-style questions are used throughout the book to familiarize students with the exam format and to help them assess their own learning. The book includes engaging eResources for enriched learning experiences. It will also be of value to faculty as a make-up guide for students who miss clinical hours, and as a reference for scenarios with standardized patients or role-play situations. Key Features: Uses unique unfolding case study method that embeds basic and advanced pediatric nursing care concepts Promotes active learning and knowledge retention Helps to foster problem-solving and critical thinking techniques Provides all types of NCLEX-style questions for exam preparation Includes eResources throughout for enhanced learning opportunities
