Singapore English - David Deterding 2007-08-01

Over the past few decades, Singapore English has been emerging as an independent variety of English with its own distinct style of pronunciation, grammar and word usage. All the findings presented in the book are illustrated with extensive examples from one hour of recorded conversational data from the Lim Siew Hwee Corpus of Informal Singapore Speech, as well as some extracts from the NIE Corpus of Spoken Singapore Speech and recent blogs. In addition, usage patterns found in the data are summarised, to provide a solid foundation for the reported occurrence of various features of the language. A full transcript of the data is included in the final chapter of the book.

Language Learning Beyond the Classroom - David Nunan 2015-01-30

This volume presents case studies of language learning beyond the classroom. The studies draw on a wide range of contexts, from North and South America to Europe and the Asia-Pacific region. Each provides principled links between theory, research and practice. While out-of-class learning will not replace the classroom, ultimately all successful learners take control of their own learning. This book shows how teachers can help learners bridge the gap between formal instruction and autonomous language learning. Although English is the primary focus of most chapters, there are studies on a range of other languages including Spanish and Japanese.

Grazing Ecology and Forest History - F. W. M. Vera 2000-01-01

It is a widely held belief that a climax vegetation of closed forest systems covered the lowlands of Central and Western Europe before man intervened in prehistoric times to develop agriculture. If this intervention had not taken place, the forest would still be there, and if left the grassland vegetation and fields now present would revert to a natural closed forest state, although with a reduced number of wild species. This book, which is an updated and expanded version of the author's 1997 thesis (presented to the Wageningen University, Netherlands), challenges the traditional view, using examples from history, pollen analyses and studies on the ecology of tree and shrub species such as oak and hazel. It tests the hypothesis that the climax vegetation is a closed canopy forest, against the alternative hypothesis that species composition and vegetational succession were governed by large herbivores, and that the Central and Western European lowlands were covered by a park-like landscape consisting of grasslands, scrub, solitary trees and groves bordered by a mantle and fringe vegetation. Comparative information from the eastern USA is also included throughout the book (this was not present in the thesis), because the forests there are commonly regarded as being analogous to the primeval vegetation in Europe. The book is arranged in 7 chapters: (1) General introduction and formulation of the problem; (2) Succession, the climax forest and the role of large herbivores; (3) Palynology, the forest as climax in prehistoric times and the effects of humans; (4) The use of the wilderness from the Middle Ages up to 1900; (5) Spontaneous succession in forest reserves in the lowlands of Western and Central Europe - including examples from France, Germany, Austria, Slovenia, Sweden, Poland; (6) Establishment of trees and shrubs in relation to light and grazing; and (7) Final synthesis and conclusions. Twelve appendices are included giving further information, and there are 67 pages of references and a subject index.

Etymological Dictionary of Proto-Celtic - Ranko Matasović 2009

This is the first etymological dictionary of Proto-Celtic to be published

after a hundred years, synthesizing the work of several generations of Celtic scholars. It contains a reconstructed lexicon of Proto-Celtic with ca. 1500 entries. The principal lemmata are alphabetically arranged words reconstructed for Proto-Celtic. Each lemma contains the reflexes of the Proto-Celtic words in the individual Celtic languages, the Proto-Indo-European (PIE) roots from which they developed, as well as the cognate forms from other Indo-European languages. The focus is on the development of forms from PIE to Proto-Celtic, but histories of individual words are explained in detail, and each lemma is accompanied by an extensive bibliography. The introduction contains an overview of the phonological developments from PIE to Proto-Celtic, and the volume includes an appendix treating the probable loanwords from unknown non-IE substrates in Proto-Celtic.

Shaping Singapore's Future - Jason Tan 2005-01-01

The Leader, The Teacher & You Siong Guan Lim 2013-12-13

Former Head of the Singapore Civil Service Mr Lim Siong Guan now shares his diverse experiences and fresh insights on leadership in his exclusive new book, *The Leader, The Teacher & You*. As a former Permanent Secretary in ministries, including the Ministry of Defence, the Prime Minister's Office and the Ministry of Finance, and former chairman of the Inland Revenue Authority of Singapore and the Singapore Economic Development Board, the indefatigable public servant has contributed greatly to Singapore's success, introducing innovative policies and practices at each turn, which have greatly enhanced drive and performance across the board. Most notably, he is known for his pursuit of excellence, especially in spearheading the Public Service for the 21st Century (PS21) movement, to develop organizational excellence. From Singapore's early years of government to its emergence as a prosperous metropolis, Lim has served the nation tirelessly through the years. In *The Leader, The Teacher & You*, Lim puts forth a fresh take on the notion of leadership as other-centered, with the focus on enabling others to be the best they can be. This noble vision of leadership is elaborated and built upon through the sharing of his experiences, in

particular the memorable lessons and deep-seated convictions he has had while serving under Mr Lee Kuan Yew, Singapore's first Prime Minister, and Dr Goh Keng Swee, Singapore's First Deputy Prime Minister. Different types of leadership, such as personal and position leadership are touched upon as the author encourages leaders to take an active role in empowering those they lead and spurring them on to excellence. Coming from a man who has helmed many distinguished organizations, Mr Lim's insights on core values essential for organizational excellence are also not to be missed. The book offers practical and down-to-earth advice for leaders in all walks of life. For leaders who genuinely care for the people they lead and hope to make a difference in their lives, this book will be a crucial guide.

Key Features: The book is written by a prominent author, the former head of the Singapore Civil Service, who served in government under the founding fathers of Singapore, and lived through the economic and social transformation of Singapore from independence The book introduces a new take on leadership ("other-centred leadership") and excellence ("being the best you can be") The book provides new insight into the foundational beliefs and values that make for strong nations and organizations, where success and survival are two sides of the same coin Keywords: Leader; Teacher; Leadership; Potential; Influence; Best; PS21 Reviews: "Everyone — regardless of profession — will benefit from reading this uniquely designed and highly original book. It is full of human insights, and it has a deep understanding of successful

leadership, an appreciation of selflessness as the key to our collective future, an awareness of history's relevance to our lives and an unflinching emphasis on excellence. Siong Guan Lim is one of the most outstanding public servants in any country, and after finishing this book, you will know why." Senator Bill Bradley Former U.S. Senator and a Managing Director at Allen & Co. United States of America "The Leader, The Teacher & You is a riveting and thoughtful study on leadership based on theory, principles, and experience by a former Head of the Civil Service and one of Singapore's most successful and admired public servants, Siong Guan Lim. It should be read by every student of politics and public policy, and anyone who aspires to play a leadership role. The book which as the author says is 'part biography, part commentary, and part exposition,' is loaded with insights into how to work with people, deal with reality, motivate an organization, achieve results, anticipate change, and ensure relevance of the organization. For those who have long puzzled over how Singapore has been able to achieve so much with so little and in short time, it is public servants such as Siong Guan Lim who have made the partnership between the civil service and the elected politicians so fruitful. Through his fascinating account of how he started in his first job as an engineer in the Sewerage Department, went on to be the Principal Private Secretary to Prime Minister Lee Kuan Yew, worked with Deputy Prime Minister and Minister of Defence Dr Goh Keng Swee, and became successively Permanent Secretary of Defence, Education, and Finance, he recounts the crucial mentorship and inspiration provided by Singapore's leaders. He thoroughly examines what true leadership is all about. Lim moved on to become Chairman of Singapore's Economic Development Board and then Group President of GIC Private Limited, the wealth fund of Singapore. I have not read such a clear analysis of the function of leadership written so succinctly and in such practical terms. It should be on the required reading list of university courses not only in Singapore, but major universities everywhere." Professor Chan Heng Chee Chairman, Lee Kuan Yew Centre for Innovative Cities Singapore University of Technology and Design Singapore "The Leader, The Teacher & You makes us aware that what we do is not just for ourselves,

but also for future generations. It is full of a wisdom born of a vast experience and a propensity to take the long view, while remaining acutely relevant for the immediate. Siong Guan Lim is the consummate teacher and role-models the title of the book. While there are suggestions on how to skim through selectively, I would encourage readers to read the whole book to get the true gist of the thinking that has helped to make civil servants people that count in our nation.” Mrs Belinda Charles Dean, Academy of Principals Singapore “A remarkable book ... after I started reading it I simply couldn't put it down. It has great insights, is fun to read, and deserves to be widely read. It is full of practical wisdom for a wide range of people — from full time mums to business leaders. It sets out a framework for leaders based on values and culture, but also on lessons learned by having to take tough decisions. Siong Guan Lim had an outstanding career in the development of Singapore. The ability, motivation, and vision of the author and his colleagues are clearly one reason why Singapore and Lee Kuan Yew were so successful. Because of this, the book is a great insight to understanding the phenomenon of Singapore.” Lord Griffiths of Fforestfach Vice Chairman, Goldman Sachs International UK “Siong Guan Lim has led and managed at the most senior levels of the Singaporean government. Any leader would love to have him at his/her side, advising, counselling, provoking, and reminding. We cannot have him with us in person, but we do have this book that extracts the lessons that he has garnered from his many years of experience. We are fortunate that he has chosen to share his wisdom in writing. I have used some of his wisdom in my Harvard Kennedy School course on Effective Implementation for more than ten years. It has stood the test of time. Now, with the advent of the book, I will borrow even more from him. My students and I are grateful.” Mr Francis Hartmann Adjunct Lecturer in Public Policy and Originator of the Kennedy School course on Effective Implementation Harvard Kennedy School of Government USA “Academics often think of themselves as being like monks in a monastery, each person being responsible only for themselves and advancing their own careers. This book by Siong Guan Lim shows what

real leadership can do to collectively achieve far more than can be done individually. This book contains the lessons and reflections of an outstanding practitioner of the art of leadership. Siong Guan Lim served in many senior positions of the Singapore Civil Service with great distinction and effectiveness. The fact that he was moved repeatedly from one senior position to another is a testament to his ability. In a society dedicated to promotion on the basis of merit, he was clearly meritorious. The book contains many important lessons and challenges based on what the author has learned and practiced himself. As he points out himself, the true testament of a leader is to look at what remains after he is gone. By that measure he did exceptionally well since the Singaporean public service and Ministry of Defence are models of efficiency and effectiveness. He points out that organizations need to change in good times and in good time so that they are not overtaken by the future. He clearly succeeded in the ones that he ran. I trust that the current leadership in these organizations will take his lessons to heart. Relative to other books I have read on leadership, this is one of the best. It is full of practical wisdom, insights and challenges. The focus on values as critical is what I have observed in the organizations I have led. I could not put it down once I started reading it. I would put it as a must read for any leader of an organization of any size. I certainly intend to use it in my leadership challenges.” Professor Daniel Hastings Cecil and Ida Green Education Professor of Aeronautics and Astronautics and Engineering Systems Massachusetts Institute of Technology (MIT), and Director/ Chief Executive Officer of Singapore-MIT Alliance for Research and Technology United States of America “This book is truly unique: it is written and packaged like the numerous self-help books on leadership with tips and challenges, but its objective is not to teach someone how to get ahead and be successful by learning leadership techniques. At its heart is a simple and yet profound message — that to lead, one has to inspire people to aspire beyond themselves. Messages like ‘at the heart of every human being is a desire for meaning and purpose in life’ is a call for true values-based leadership, and a selflessness that is reflected by the book's fundamental premise: to be a good leader, one has to be a

great teacher. Through examples from his own very public record of service to the nation and written in a way that is very accessible to young people, Siong Guan Lim is himself a teacher-leader. The one message that resonates through the book is his observation that 'time passes and people die, but principles and values are what live on.' Young Singaporeans should absorb the book's messages into their daily lives, and by so doing they will become the selfless teacher-leaders, which Siong Guan Lim is the best example of." Mr Ho Kwon Ping and Ms Claire Chiang Founders, Banyan Tree Hotels and Resorts Singapore "We live in a wicked world. The conventional wisdom is that, in order to succeed, one has to be ruthless and unprincipled. Siong Guan Lim's extraordinary success is proof that a man with deep religious convictions and high moral principles can be a successful leader. What is Siong Guan Lim's leadership style? He is a leader with a tough mind and a warm heart, a leader who teaches and develops those who are members of his team. This is a wise and inspiring book." Professor Tommy Koh Chairman, Centre for International Law, National University of Singapore Singapore "As a life-long student of philosophy, I have been struck how scarce wisdom is in our world, even though it has been revered throughout the ages. This is why Siong Guan Lim's book is special. It is probably one of the wisest books I have read about the Singapore experience. At the same time, its principles have universal applicability. Hence, I have no doubt that every reader will benefit from reading it. And the world will become a better place if his wise insights are universally applied." Professor Kishore Mahbubani Dean of the Lee Kuan Yew School of Public Policy, National University of Singapore, and author of *The Great Convergence: Asia, the West, and the Logic of One World* Singapore "Siong Guan Lim's book is a fascinating and uplifting read. He evolves an original exposition on the many facets of leadership from his more than 30 years of distinguished public service to Singapore. I recommend it as essential reading for managers be they placed in the private or public sector. Of greatest relevance to me personally was 'Part I: The Teacher' culminating in the chapter on 'Culture and Values' — valuable for those of us leading organizational change and development. Siong Guan's

conviction that today's challenges demand values-driven solutions resonates sharply and persuasively. This book is organized to lovingly teach you how to lead yourself and your people to be the best that everyone can be." Mr Philip Ng Chief Executive Officer, Far East Organization, and Chairman of the Singapore University of Technology and Design Board of Trustees Singapore "An extensive collection of great quotations and life principles by Siong Guan Lim has provided me with personal inspiration and valuable professional insights as a CEO of a company whose continued success depends on its people. As every principle is intelligently articulated, reading this book will surely motivate and encourage all leaders." Mr Takeshi Niinami Chief Executive Officer of Lawson, Inc. Japan "The Leader, The Teacher & You: Leadership Through The Third Generation is a reflective account on teacher leadership by Siong Guan Lim, a former top civil servant with an illustrious career. Unlike many other books on the subject, he imparts thoughtful advice and perceptive lessons on leadership through easy to understand anecdotes and quotes from distinguished leaders such as Singapore's founding fathers Mr Lee Kuan Yew and the late Dr Goh Keng Swee. This is an essential read for anyone looking to make a positive impact in the lives of others, regardless of age, background, or occupation. His advice is applicable to people from all walks of life, whether one is a civil servant, a business leader or a student." Dr Stephen Riady Executive Chairman OUE Limited Singapore "This book captures much of what is important in life from a leadership perspective. Having lived in Singapore and having been a regular visitor since the early 1990's, I have added much to my understanding of why the country has been so successful. A country run by leaders at all levels who exhibit the aspects of great leadership captured here, who really are 'catalysts for change,' and who never stop trying to be the best they can be, has every reason to be successful ... and this works in the private sector too!" Mr John G Rice Vice Chairman, General Electric, and President & Chief Executive Officer of GE Global Growth and Operations USA "This is an extraordinarily valuable book. Siong Guan Lim and Joanne Lim have managed to do the unusual, which is to create a narrative that is both

educational and readable. The writers have elegantly drawn out important experiences and learnings from Siong Guan's long and varied career, and have made them memorable. But this is more than a story of a remarkable career and personal journey but the context, the development of a country whose primary asset is its people, means that the insights are endorsed by the success of a nation." Sir John Rose Chairman, Holdingham Group, and former Chief Executive Officer, Rolls Royce Inc. UK "One of the most insightful books in German literature is the novel *The Buddenbrooks* of Thomas Mann. It describes the decline of a family. Again and again looking at dynasties or business houses, we witness the seemingly unavoidable descent from great heights of success to failure. How can this be prevented? The answer is selfless and competent leadership! The young look for role models and guidance, which can only be provided by elders who by their achievements and their life show them that there are lofty goals worth striving for. Read this book for ideas and ideals." Mr Urs Schoettli Consultant on Asian Affairs and former Asia Correspondent of *Neue Zürcher Zeitung* (Switzerland) in Beijing, Hong Kong, Delhi, and Tokyo "Siong Guan Lim has been at the helm of many organizations critical in the transformation of Singapore into an economic powerhouse, from the civil service to the Economic Development Board to GIC, the fund manager for Singapore's foreign reserves. As autobiographical as it is motivational, *The Leader, the Teacher, and You* is a must-read for executives, public servants, and students of East Asian development. Yet the wisdom of its general insights, as well as the humility with which they are delivered, will be an inspiration for any reader." Dr Toni Schönenberger Chief Executive Officer, UBS Wolfsberg, and Chairman, stars Foundation Board Switzerland "The transformation of Singapore has often been credited to the leadership of its succession of Prime Ministers. However, behind them are other leaders who do the actual grunt work and make things happen. This book tells the remarkable story of one such man, Siong Guan Lim, the son of a taxi driver, starting his career as a sewerage engineer and rising to be the Head of the Civil Service, having served as Principal Private Secretary to the Prime Minister, as well as Permanent

Secretary for the Defence, Education, and Finance Ministries along the way. And today he sits as Group President of one of the largest global sovereign wealth funds. There are fascinating insights into the way he led innovative changes in the government departments he served. After three decades, there are countless nuggets of wisdom here for us to learn from. There are many things that I admire about Siong Guan — his appetite for learning, courage to accept new appointments, his ability to lead wholesale management changes, and so on. But most of all I admire his humility, his empathy, and his ability to encourage and inspire others to do the best they can. Reading his story made me wish I had worked for such a leader and mentor." Dato Dr Kim Tan Chairman, SpringHill Management Ltd. UK "Siong Guan Lim was Head of the well-known Singapore Civil Service. His book is full of aphorisms that are aimed primarily at the empowerment of people in a large complex organization and the role of an enlightened leadership. He ends the book with a quote from Laozi — 'As for the best leaders, people do not notice their existence.' The entire civil service of Singapore could do very well for themselves, but more importantly for Singaporeans, by taking a refresher course through reading this book. Civil servants today must take the risks of constructive change. The lessons of the book could prevent the stasis that dominant ruling parties undergo as witnessed with the KMT in Taiwan and the LDP in Japan." Dr Tommy Tan Chief Executive Officer, TC Capital Singapore "One learns how to do something, but one can also do in order to learn. This is a book by a dedicated Singapore civil servant who did both by following able leaders who were also great teachers. Drawing lessons from a lifetime's work, he offers advice to all those who wish to succeed in serving their society with integrity." Professor Wang Gungwu Chairman of the East Asian Institute and University Professor, National University of Singapore Singapore "This book was written by my good friend Siong Guan Lim based on his observations and experience in his public career since 1969. It reflects his lifestyle, wisdom, life, and beliefs. With keen insight, he describes the behaviour of human groups, for example, by using the image of GESE in a thoughtful and persuasive way. While each society

may need a slightly different type of leader, there are some basic requirements that make a superior leader. Some leaders, while they are leading their people, are brilliant and exemplary with a clear vision for the future. But once they leave, the group may face an abrupt slowdown or even chaos. Siong Guan clearly states that such leaders are not the best ones. Not leading from the front, nor from the side, nor from behind, but 'from within' is what makes the best leader, he writes. There is so much truth in his statement that the leader must seek to be like the teacher, where the true measure of success is how well the student can surpass the teacher. Siong Guan and I are involved in sharing ideas on lessons for leaders of the future generation. I find his thoughts and contributions to be highly original and instructive." Mr Hiroshi Watanabe Chief Executive Officer/ Executive Managing Director Japan Bank for International Co-operation Japan "Siong Guan Lim has written an outstanding book, and he has done this because he is an outstanding man. Lim has been on the frontlines of Singapore's rapid development over the past forty years providing vital leadership in defence, education, finance, the Prime Minister's Office, and as Head of the Civil Service. He captures the leadership lessons from his mentors — some of the founding fathers of Singapore — and the leadership lessons born of direct experience building a world-class public service. Few practitioners in the art of leadership and governance have had the experience that Lim has had, and few would be able to reflect on that experience and generate such an amazing guidebook for anyone serious about leadership and change. If you want to raise your institution, your government, or your nation to the next level of performance, then this book is for you." Mr Dean Williams Lecturer in Public Policy, Center for Public Leadership Harvard Kennedy School of Government USA "The dearth in courageous moral leadership in our world today has left many political and economic institutions weakened and compromised. In this book, Siong Guan offers us tried and tested truths on leadership that he personally embodied throughout his time with the Singaporean Government Civil Service, Economic Development Board, and GIC. We have much to learn from him!" Tan Sri Dr Francis Yeoh Managing Director YTL Group of

Companies Malaysia "An invaluable guide to the heart, soul, and guts of leadership from that rarest of breeds: a true Servant Leader who, in the words of Singapore's Prime Minister, 'established an unbroken record of understanding Singapore's challenges and developing a vision of how the Public Service should respond to these challenges' over an outstanding, 44-year career directly managing key areas of our nation's tumultuous and miraculous transformation. Having worked under his teacher-leader mentorship, I can testify to both the personal genuineness and organizational effectiveness of Mr Lim's remarkable mastery of that most difficult of management arenas: leading excellence, innovation, and change from the front as a boss, from the side as a comrade, from behind as a mentor, and finally from within as a lasting source of inspiration." Mr Yeoh Lam Keong Social commentator and former GIC Chief Economist Singapore "Although The Leader, the Teacher & You relates Lim's 37 years as a civil servant in Singapore, the lessons apply universally to all sorts of readers. Hong Kong readers, including businessmen, should find useful lesson in this book." Sunday Morning Post, Hong Kong

Dictionary of Ecclesiastical Latin - Leo F. Stelten 1995

Leo Stelten has put to use his years of experience teaching Latin in compiling this concise reference book. The "Dictionary of Ecclesiastical Latin" includes approximately 17,000 words with the common meanings of the Latin terms found in church writings. Entries cover Scripture, Canon Law, the Liturgy, Vatican II, the early church fathers, and theological terms. This volume will prove to be an invaluable resource for theological students, as well as for those seeking to improve their knowledge of ecclesiastical Latin. An appendix also provides descriptions of ecclesiastical structures and explains technical terms from ecclesiastical law. The "Dictionary of Ecclesiastical Latin" has already been widely praised for its serviceability and indispensability in both academic and Church settings.

The Handbook provides a valuable resource for understanding teaching and learning theory and practice in tourism.

Action Research - Jean McNiff 2002-01-22

Since the first edition of this established text was published in 1988, action research has gained ground as a popular method amongst educational researchers, and in particular for practising teachers doing higher-level courses. In this new edition Jean McNiff provides updates on methodological discussions and includes new sections of case study material and information on supporting action research. The book raises issues about how action research is theorised, whether it is seen as a spectator discipline or as a real life practice, and how practitioners position themselves within the debate. It discusses the importance for educators of understanding their own work and showing how their educative influence can lead to the development of good orders in formal and informal learning settings and in the wider community. This second edition comes at a time when, after years of debate over what counts as action research, it is now considered an acceptable and useful part of

mainstream research practice.

Action Research Dr. Jeffrey Glanz 2014-06-04

Action Research: An Educational Leader's Guide to School Improvement, Third Edition, is a clear and practical guide to conducting action research in schools. Although it offers neither a cookbook nor a quick-fix approach, this book does outline the process of designing and reporting an action research project. Useful as a classroom text as well as a self-teaching tool, Action Research: An Educational Leader's Guide to School Improvement is a comprehensive training manual. It can be used by practitioners in the field, by graduate students enrolled in leadership and/or master's thesis courses, or by anyone interested in learning how to conduct action research projects, including classroom teachers, who are leaders too in their own right. The strategies and techniques of action research described are no different for teachers than they are for administrators. The underlying assumption of this work is that research is not a domain only for academics, it is also a powerful approach that can be used by practitioners to contribute to school renewal and instructional improvement. Rather than being merely a philosophical treatise or theoretical analysis, Action Research provides concrete strategies and techniques for conducting action research in schools.

Creating a Speaking and Listening Classroom - Lyn Dawes 2010-10-04

Providing children with opportunities to talk about their learning enables teachers to hear what children are thinking. Talking with one another allows children to question, elaborate, and reflect on a range of ideas. Classroom talk can be motivating and involving, and helps children to think and learn. And yet it is difficult to organise such talk in a classroom. Children unaware of the importance of talk for learning may think of talk as 'just chat' - and learning falls away as they slip into social talk. This book provides teachers with strategies and resources to enable whole classes to work together through the medium of talk. Creating a Speaking and Listening Classroom provides timely professional development for teachers. Based on a theoretical approach underpinned by classroom research, this book offers classroom-tested strategies for

engaging children in their own learning. Such strategies involve the direct teaching of speaking and listening. Activities in the book can ensure that children know how and why to support one another's learning in whole-class and group work. The approach enables teachers to ensure that personalised learning programs are based on what children already think and know. The suggested strategies for teaching speaking and listening can enable children to use one another's minds as a rich resource. This stimulating book will be of interest to professionals in primary education, literacy co-ordinators, and trainee primary teachers.

Lesson Study - Clea Fernandez 2012-09-10

Lesson study is a popular professional development approach in Japan whereby teachers collaborate to study content, instruction, and how students solve problems and reach for understanding in order to improve elementary mathematics instruction and learning in the classroom. This book is the first comprehensive look at the system and process of lesson study in Japan. It describes in detail the process of how teachers conducted lesson study--how they collaborated in order to develop a lesson, what they talked about during the process, and what they looked at in order to understand deeply how students were learning. Readers see the planning of a mathematics lesson, as well as how much content knowledge the teachers have. They observe students' problem solving strategies and learn how Japanese teachers prepare themselves to identify those strategies and facilitate the students' discussion. Written for mathematics teachers, educational researchers, school administrators interested in teachers' professional development, and professional developers, this landmark volume provides an in-depth understanding of lesson study that can lead to positive changes in teachers' professional development and in teaching and learning in the United States.
