**We Fought the Road** - Christine McClure 2017-10-15

We Fought the Road is the story of the building of the Alaska-Canada Highway during World War II. More than one third of the 10,607 builders were black; thought to be incapable of performing on a war front by many of their white commanding officers. Their task--which required punching through wilderness on a route blocked by the Rocky Mountains and deadly permafrost during the worst winter on record--has been likened to the building of the Panama Canal. Unlike most accounts that focus on the road's military planners, We Fought the Road is boots-on-the-ground and often personal, based in part on letters from the "Three Cent Romance," the successful courtship via mail discovered in the authors' family papers

**Beyond Exoticism** - Timothy D. Taylor 2007-03-05

In Beyond Exoticism, Timothy D. Taylor considers how western cultures' understandings of racial, ethnic, and cultural differences have been incorporated into music from early operas to contemporary television advertisements, arguing that the commonly used term "exoticism" glosses over such differences in many studies of western music. Beyond Exoticism encompasses a range of musical genres and musicians, including Mozart, Beethoven, Jean-Philippe Rameau, Maurice Ravel, Charles Ives, Henry Cowell, Bally Sagoo, and Bill Laswell as well as opera, symphony, country music, and "world music." Yet, more than anything else, it is an argument for expanding the purview of musicology to take into account not only composers' lives and the formal properties of the music they produce but also the larger historical and cultural forces shaping both music and our understanding of it. Beginning with a focus on musical manifestations of colonialism and imperialism, Taylor discusses how the "discovery" of the New World and the development of an understanding of self as distinct from the other, of "here" as different from "there," was implicated in the development of tonality, a musical system which effectively creates centers and margins. He describes how musical practices signifying nonwestern peoples entered the western European musical vocabulary and how Darwinian thought shaped the cultural conditions of early-twentieth-century music. In the era of globalization, new communication technologies and the explosion of marketing and consumption have accelerated the production and circulation of tropes of otherness. Considering western music produced under rubrics including multiculturalism, collaboration, hybridity, and world music, Taylor scrutinizes contemporary representations of difference. He argues that musical interpretations of the nonwestern other developed hundreds of years ago have not necessarily been discarded; rather they have been recycled and retooled.

Sounds Like London - Lloyd Bradley 2013-08-08

For as long as people have been migrating to London, so has their music. An essential link to home, music also has the power to shape communities in surprising ways. Black music has been part of London's landscape since the First World War, when the Southern Syncopated Orchestra brought jazz to the capital. Following the wave of Commonwealth immigration, its sounds and styles took up residence to become the foundation of the city's youth culture. Sounds Like London tells the story of the music and the larger-than-life characters making it, journeying from Soho jazz clubs to Brixton blues parties to King's Cross warehouse raves to the streets of Notting Hill - and onto sound systems everywhere. As well as a journey through the musical history of London, Sounds Like London is about the shaping of a city, and in turn the whole nation, through music. Contributors include Eddy Grant, Osibisa, Russell Henderson, Dizze Rascal and Trevor Nelson, with an introduction by Soul2Soul's Jazzie B.

"Slippin' into Darkness," "The Cisco Kid," and - of course - "Low Rider." They combined rock, funk, soul, R&B, jazz, and a strong Latin vibe in their music, they have been awarded two Platinum and eight Gold records in their career. Their album "The World is a Ghetto" was the bestselling release of 1973 and was #444 on the list of "Rolling Stone's Top 500 Albums" list. This unauthorized book follows the group from their early incarnations when Harold Brown and Howard Scott met to form the Creators and then the Night Shift, to their partnership with former Animals lead singer Eric Burdon, to a highly successful career on their own with the core original lineup of Brown, Scott, Lee Oskar, Lonnie Jordan, B.B. Dickerson, Papa Dee Allen, and Charles Miller. The story also follows the band through their later, leaner years, the tragic deaths of two members, and the conflicts that led to a fissure and a split of performing entities that continues to this day. Featuring original interviews, archival research, and musical analysis and commentary, "Slippin' Out of Darkness: The Story of WAR" tells the tale of one of the most unique bands in the history of Classic Rock-era music.
