Fallocaust - Quil Carter 2014-07-09

Over two hundred and thirty years ago the Fallocaust happened, killing almost everything that lived and creating what is now known as the greywastes. A dead wasteland where cannibalism is a necessity, death your reality, and life before the radiation nothing but pictures in dog-eared magazines. Reaver is a greywaster, living in a small block controlled by a distant ruler said to have started the Fallocaust. He is a product of the savage world he was raised in and prides himself on being cold and cruel. Then someone new to his town catches his eye, someone different than everyone else. Without knowing why he starts to silently stalk him, unaware of where it will lead him.

Honeyball & Bowers' Textbook on Employment Law Simon Honeyball 2016

Honeyball and Bowers' Textbook on Employment Law is an approach to employment law with strong critical analysis whilst placing it in its wider contexts, in a concise and user-friendly format. Fully updated to take into account the recent significant developments in this area, including the Equality Act 2010, the key topics on most employment law courses are addressed in detail. An extremely clear writing style allows this text to remain accessible and student-focussed, while providing detailed explanations and analysis of the law. The text also includes diagrams and chapter summaries throughout to aid student understanding, while further reading suggestions assist with essay preparation and research. Setting employment law in context, this book considers both industrial and collective issues as well as examining the increasing role of the EU in UK employment law. A separate chapter on human rights also enables students to understand the role human rights legislation plays in the development of employment law. This book also contains cross referencing to Painter & Holmes' Cases & Materials on Employment Law, ensuring that these two texts continue to complement one another and provide the perfect combination of textbook analysis and the most up-to-date cases and materials. This text is accompanied by a free Online Resource Centre (www.oxfordtextbooks.co.uk/orc/honeyball12e/) which contains updates to the law and useful weblinks.

Language! Live! - Louisa Cook Moats 2015

Disciple IV - Abingdon Press 2005-05

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study

concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

See No Sharia - Frank Gaffney 2016-02-24

Thanks to the expanded influence of Muslim Brotherhood operatives and other influential Islamic supremacists, the U.S. government's official counter-terrorism policy has now mutated into something called Countering Violent Extremism (CVE). Words matter. And in the present phase of what we call "The War for the Free World," it is of the utmost importance to the national and homeland security that the United States' first lines of defense be free to use the correct words to: name and define the enemy; describe accurately its threat doctrine; and develop and implement an effective strategic plan of action for victory. This book traces the course of one of the most successful influence operations in American history: the Muslim Brotherhood's penetration and increasing success at subordinating our security to its jihadist agenda. That agenda is designed to prevent us, first, from properly understanding our foes and thereafter, incrementally to dismantle our ability to resist them.

Howard's Gift - Eric Sinoway 2012-10-02

This work offers wonderful wisdom for navigating the inflection points in our lives." -- Mehmet Oz, MD An iconic teacher. A warm friend. A

generous mentor. For more than 40 years, Howard Stevenson has been a towering figure at Harvard Business School: the man who literally defined entrepreneurship and taught thousands of the world's most successful professionals. Now - spurred by Stevenson's heart-stopping brush with death - his student, colleague, and dear friend Eric Sinoway shares the man's wisdom and inspiration. Through warm and engaging conversations, we hear Howard's timeless and practical lessons on pursuing both success and fulfillment, beginning with: - Create a vision of your own legacy through a process called "business planning for life." - Be entrepreneurial in driving your career ahead (even if you're not an entrepreneur). - Exploit the inflection points in your life - whether "friend," "foe," or "silent." - Cut risk in tough career and life decisions by shining the "light of predictability" on them. - Plan for the ripples, not just the splash from your actions and choices. Reading Howard's Gift is like having a wise, caring friend sit down and say, "Let's figure all this out together." And the deeply personal perspectives from guest contributors - such as CNN correspondent Soledad O'Brien, Teach for America Founder Wendy Kopp, two-time Super Bowl Champion Carl Banks, and legendary MTV Founder Bob Pittman - reinforce the practical lessons in this clear-sighted book that will help readers "define success in their own terms," and "live a life with no regrets.

Quick Calculus - Daniel Kleppner 1991-01-16

Quick Calculus 2nd Edition A Self-Teaching Guide Calculus is essential for understanding subjects ranging from physics and chemistry to economics and ecology. Nevertheless, countless students and others who need quantitative skills limit their futures by avoiding this subject like the plague. Maybe that's why the first edition of this self-teaching guide sold over 250,000 copies. Quick Calculus, Second Edition continues to

teach the elementary techniques of differential and integral calculus quickly and painlessly. Your "calculus anxiety" will rapidly disappear as you work at your own pace on a series of carefully selected work problems. Each correct answer to a work problem leads to new material, while an incorrect response is followed by additional explanations and reviews. This updated edition incorporates the use of calculators and features more applications and examples. ".makes it possible for a person to delve into the mystery of calculus without being mystified." --Physics Teacher

308 Circuits - Jan Buiting 2003

This is the ninth in the 300 series of circuit design books, again contains a wide range of circuits, tips and design ideas. The book has been divided into sections, making it easy to find related subjects in a single category. The book not only details DIY electronic circuits for home construction but also inspiring ideas for projects you may want to design from the ground up. Because software in general and microcontroller programming techniques in particular have become key aspects of modern electronics, a number of items in this book deal with these subjects only. Like its predecessors in the 300 series, "308 Circuits" covers the following disciplines and interest fields of modern electronics: test and measurement, radio and television, power supplies and battery chargers, general interest, computers and microprocessors, circuit ideas and audio and hi-fi.
