### Shakespeare and YouTube -

Stephen O'Neill 2014-04-24

The video-sharing platform YouTube signals exciting opportunities and challenges for Shakespeare studies. As patron, distributor and archive, YouTube occasions new forms of user-generated Shakespeares, yet a reduced Bard too, subject to the distractions of the contemporary networked mediascape. This book identifies the genres of YouTube Shakespeare, interpreting them through theories of remediation and media convergence and as indices of Shakespeare's shifting cultural meanings. Exploring the intersection of YouTube's participatory culture - its invitation to 'Broadcast Yourself' - with its corporate logic, the book argues that

YouTube Shakespeare is a site of productive tension between new forms of self-expression and the homogenizing effects of mass culture. Stephen O'Neill unfolds the range of YouTube's Bardic productions to elaborate on their potential as teaching and learning resources. The book importantly argues for a critical media literacy, one that attends to identity constructions and to the politics of race and gender as they emerge through Shakespeare's new media forms. Shakespeare and YouTube will be of interest to students and scholars of Shakespearean drama, poetry and adaptations, as well as to new media studies.

**YouTube** - Jean Burgess

2013-09-04

YouTube is one of the most well-known and widely discussed sites of participatory media in the contemporary online environment, and it is the first genuinely mass-popular platform for user-created video. In this timely and comprehensive introduction to how YouTube is being used and why it matters, Burgess and Green discuss the ways that it relates to wider transformations in culture, society and the economy. The book critically examines the public debates surrounding the site, demonstrating how it is central to struggles for authority and control in the new media environment. Drawing on a range of theoretical sources and empirical research, the authors discuss how YouTube is being used by the media industries, by audiences and amateur producers, and by particular communities of interest, and the ways in which these uses challenge existing ideas about cultural 'production' and 'consumption'. Rich with both

concrete examples and featuring specially commissioned chapters by Henry Jenkins and John Hartley, the book is essential reading for anyone interested in the contemporary and future implications of online media. It will be particularly valuable for students and scholars in media, communication and cultural studies.

### **Holocaust Cinema Complete**

- Rich Brownstein 2021-09-17  
Holocaust movies have become an important segment of world cinema and the de-facto Holocaust education for many. One quarter of all American-

produced Holocaust-related feature films have won or been nominated for at least one Oscar. In fact, from 1945 through 1991, half of all American Holocaust features were nominated. Yet most Holocaust movies have fallen through the cracks and few have been commercially successful. This book explores these trends--and many others--with a comprehensive guide to hundreds of films and made-for-television movies. From Anne Frank to Schindler's List to Jojo Rabbit, more than 400 films are examined from a range of perspectives--historical, chronological, thematic, sociological, geographical and individual. The filmmakers are contextualized, including Charlie Chaplin, Sidney Lumet, Steven Spielberg, Quentin Tarantino and Roman Polanski. Recommendations and reviews of the 50 best Holocaust films are included, along with an educational guide, a detailed listing of all films covered and a four-part index-glossary.

**Sustaining Musical Instruments / Food and Instrumental Music** - Gisa Jähnichen 2021-11-21

This 7th volume of SIMP is dedicated to two large themes that were discussed in the last Study Group Symposium held online and arranged by the Music Faculty of the University of the Visual and Performing Arts, Colombo, Sri Lanka, in March 2021: "Re-invention and Sustainability of Musical Instruments" and "Instrumental Music and Food". Thirteen contributions were compiled in this volume relating to the first theme, while seven contributions were chosen to represent the second. The first part of the contributions illustrates that musical instruments have a long and regionally intertwined history. Often it is hard to say who invented a specific type first as well as to answer if musical instruments were used symbolically or supported in any way supported regional

cultural aspects, or what feature of musical instruments had the strongest impact on local developments. The last seven contributions deal with various phenomena such as banquet music, ritual music and food offerings, instrumental ambience music, and festivals.

Proof the Bible Is True: 1 the Beginning 2,500 Years from Genesis to Deuteronomy - Timothy Duke 2016-07-21

This book is not to replace reading the bible. I will give references for you to gain more knowledge and proof of the validity of the Bible. I believe the original words written in the Bible are inerrant. I believe by having an idea of what chapter is going to say, you will be able to easily understand what you are reading in the bible. There are several broad descriptions of the Bible. Augustine discovered that the Old Testament contains the New Testament concealed, while the New Testament contains the Old Testament revealed. The Old Testament is the story of a nation. The New Testament is the story of a

man. The Bible is unique in that it contains 8,362 predictive verses with 1,817 predictions concerning 737 separate matters. Our Messiah, Jesus, fulfilled over 300 predictions. Prophecies are important in proving the authenticity of the Bible along with the Bible's integrated design, which is proven mathematically, microcode and macrocodes.
